The Dangerous Rise of Therapeutic Education Kathryn

Ecclestone, Dennis Hayes, 2019-02-01 **The Dangerous Rise of Therapeutic Education** confronts the silent ascendancy of a therapeutic ethos across the educational system and into the workplace. Controversial and compelling, Kathryn Ecclestone and Dennis Hayes' classic text uses a wealth of examples across the education system from primary schools to university and the workplace to show how therapeutic education is turning children, young people and adults into anxious and self-preoccupied individuals rather than aspiring optimistic and resilient learners who want to know everything about the world. Remaining extremely topical, the chapters illuminate the powerful effects of therapeutic education including: How therapeutic learning is taking shape now and in the future; How therapeutic ideas from popular culture have come to govern social thought and policies; How the fostering of dependence and compulsory participation in therapeutic activities that encourage the disclosing of emotions can undermine parents and teachers' confidence and authority; How therapeutic forms of teacher training undermine faith in the pursuit of knowledge; How political initiatives in emotional literacy, emotional wellbeing and positive mental health propagate a diminished view of human potential throughout the education system and the workplace. **The Dangerous Rise of Therapeutic Education** is an eye-opening read for every teacher and leader across the field of education and every parent and student who is passionate about the power of knowledge to transform people's lives. It is a call for a debate about the growing impact of therapeutic education and what it means for learning now and in the future.

The contributors reflect on current thinking and policy surrounding learning and teaching and what it means to be a teacher today. Looking at the practice of teaching in a wider context allows you to explore some of the issues you will face and the evolving expectations of your role in a policy-led environment. The book focuses on core areas of debate including education across different contexts and settings; teaching in an inclusive environment; Continuing Professional Development (CPD) for practitioners. Each chapter follows the same accessible format. They contain case studies and vignettes providing examples and scenarios for discussion; introduction and summary boxes listing key issues and concepts explored in the chapter; key questions for discussion; reflection and further reading. This essential text will be ideal for undergraduate and postgraduate courses including BEd, BA degrees, initial teacher training courses and Masters in Education programmes. All editors and contributors are based in the Faculty of Education at Glasgow University, UK.
