were these ideas incorporated into daily lives consumer patterns and cultural activities Was class a determining factor in the creation of gender relations in the Muslim world How were the subjectivities of gender moulded and articulated in fictional and non fictional texts The authors delineate both the evolution of a discourse on gender as well the real life activities of men and women as writers readers and participants in philanthropic and cultural societies literary salons and educational enterprises This book reemphasizes the position of the Nahda in the worlds of Damascus Aleppo and Beirut as an innovative deeply influential and significant socio cultural and political movement in its own right which played a major role in shaping modern Arab culture worldviews and self perception Zachs and Halevi here provide a new framework for rethinking the dynamics of cultural and social change and present a groundbreaking new interpretation of the cumulative impact of the Nahda on gender perception in the late Ottoman Period

[The Politics of Love](#) Rebecca Joubin,2013-10-03 Dramatic miniseries are the primary arena for the expression of postcolonial Syrian culture and artistic talent an arena that unites diverse aspects of artisanship in a struggle over visions of the past present and future of the nation As the tour de force of the television medium blossoming amidst persisting authoritarianism these miniseries serve as a crucial and complex artistic avenue through which political and social opposition

manifests Scholars have tried to come to terms with a highly critical culture produced within attempted state co optation and argue that politically critical culture operates as a safety valve to release frustrations so that dissenters are less likely to mobilize against the government Through research fueled by a viewing of over two hundred and fifty miniseries ranging from the 1960s to the present as well as an examination of hundreds of press reports Facebook pages and extensive interviews with drama creators this book turns away from the dominant paradigm that focuses on regime intent When turning attention instead to the drama creators themselves we witness the polyphony of voices employing love and marriage metaphors and gender de constructions to explore larger issues of nationalism self identity and political critique At the heart of constructions of femininity are the complications that arise with the symbiosis of pure femininity with authentic national identity Deconstructing masculinity as political critique has been less complicated since it is not implicated in Western identity issues on the contrary illustrations of subservient masculinity serve to subtly denounce government corruption and oppression Miniseries from the 1960s demonstrate that the focus of the qabaday tough man on female sexuality comes from his own political alienation vis vis the state and is part of a vicious cycle of state violence vis vis the citizen In recent years and in particular after the uprising we can see the emerging definition of the true qabaday as one who does not suppress a woman s sexuality thereby allowing for full equality in relationships as the basis of a truly free society

The Sociology of Islam Armando Salvatore, 2016-05-02 The Sociology of Islam provides an accessible introduction to this emerging field of inquiry teaching and debate The study is located at the crucial intersection between a variety of disciplines in the social sciences and the humanities It discusses the long term dynamics of Islam as both a religion and as a social political and cultural force The volume focuses on ideas of knowledge power and civility to provide students and readers with analytic and critical thinking frameworks for understanding the complex social facets of Islamic traditions and institutions The study of the sociology of Islam improves the understanding of Islam as a diverse force that drives a variety of social and political arrangements Delving into both conceptual questions and historical interpretations The Sociology of Islam is a transdisciplinary comparative resource for students scholars and policy makers seeking to understand Islam s complex changes throughout history and its impact on the modern world

Consuming Desires Frances Hasso, 2011 *Consuming Desires* examines new forms of marriage emerging in Egypt and the United Arab Emirates in reaction in part to the governments increasing attempts to control sexuality with shari a law

Modernity in Islamic Tradition Florian Zemmin, 2018-07-23 What does it mean to be modern This study regards the concept of society as foundational to modern self understanding Identifying Arabic conceptualizations of society in the journal al Manar the mouthpiece of Islamic reformism the author shows how modernity was articulated from within an Islamic discursive tradition The fact that the classical term umma was a principal term used to conceptualize modern society suggests the convergence of discursive traditions in modernity rather than a mere diffusion of European concepts

Childhood and Colonial Modernity in Egypt Heidi

Morrison,2015-10-07 This book examines the transformations of Egyptian childhoods that occurred across gender class and rural urban divides It also questions the role of nostalgia and representation of childhood in illuminating key underlying political social and cultural developments in Egypt

The Oxford Handbook of Contemporary Middle Eastern and North African History Jens Hanssen,Amal N. Ghazal,2020-11-30 The Oxford Handbook of Contemporary Middle Eastern and North African History critically examines the defining processes and structures of historical developments in North Africa and the Middle East over the past two centuries The Handbook pays particular attention to countries that have leapt out of the political shadows of dominant and better studied neighbours in the course of the unfolding uprisings in the Middle East and North Africa These dramatic and interconnected developments have exposed the dearth of informative analysis available in surveys and textbooks particularly on Tunisia Libya Yemen Bahrain and Syria

Utopia and Civilization in the Arab Nahda Peter Hill,2020-01-16 Examines the Nahda a cultural renaissance in the Arab world through the utopian visions of Arab intellectuals during the nineteenth century

Archives, Museums and Collecting Practices in the Modern Arab World Sonja Mejcher-Atassi,John Pedro Schwartz,2016-05-23 Collecting has a long tradition in the Middle East but the museum as a public institution is relatively new Today there are national museums for antiquities in most Arab countries While in some cases the political and social climate has hindered the foundation of museums with existing collections even destroyed at times the recent museum boom in the Gulf States is again changing the outlook This unique book is the first to explore collecting practices in archives and museums in the modern Arab world featuring case studies of collecting practices in countries ranging from Egypt and Lebanon to Palestine Jordan Iraq and the Gulf and providing a theoretical and methodological basis for future research The authors are also concerned with investigating the relationship between past and present since collecting practices tell us a great deal not only about the past but also about the ways we approach the past and present conceptions of our identities Collections can be textual as well as in the stories memories or events selected recalled and retold in the pages of a text As interest in memory studies as well as popular and visual culture grows in the Arab World so collecting practices are at the heart of any critical approach to the past and the present in that region The book will be of great interest not only to scholars and students of the modern Arab world but also to professionals in museums and collections in the region as well as around the world

narratives of the modern Middle East Recognising multiple modernities multiple imperialisms and diverse regional experiences of post colonialism Fashioning the Modern Middle East contains a range of theoretical frameworks invaluable to students of fashion studies Middle Eastern studies anthropology photography and gender Bringing forward new primary material and re investigating extant sources from new perspectives this is the essential introduction to the role of the dressed and undressed body in the formation of the modern Middle East **Modern Things on Trial** Leor Halevi, 2019-07-30 In cities awakening to global exchange under European imperial rule Muslims encountered all sorts of strange and wonderful new things synthetic toothbrushes toilet paper telegraphs railways gramophones brimmed hats tailored pants and lottery tickets The passage of these goods across cultural frontiers spurred passionate debates Realizing that these goods were changing religious practices and values proponents and critics wondered what to outlaw and what to permit In this book Leor Halevi tells the story of the Islamic trials of technological and commercial innovations of the late nineteenth and early twentieth centuries He focuses on the communications of an entrepreneurial Syrian interpreter of the shari'a named Rashid Rida who became a renowned reformer by responding to the demand for authoritative and authentic religious advice Upon migrating to Egypt Rida founded an Islamic magazine The Lighthouse which cultivated an educated prosperous readership within and beyond the British Empire To an audience eager to know if their scriptures sanctioned particular interactions with particular objects he preached the message that by rediscovering Islam's foundational spirit the global community of Muslims would thrive and realize modernity's religious and secular promises Through analysis of Rida's international correspondence Halevi argues that religious entanglements with new commodities and technologies were the driving forces behind local and global projects to reform the Islamic legal tradition Shedding light on culture commerce and consumption in Cairo and other colonial cities Modern Things on Trial is a groundbreaking account of Islam's material transformation in a globalizing era **Long 1890s in Egypt** Marilyn Booth, 2014-07-28 Egypt just before political eruption Turns of the century in Africa's northeastern corner have been critical moments ushering in overt popular activism in the hope of radical political redirection as this volume's focus on Egypt's 19th century fin de siècle demonstrates The end of the 19th century in Egypt witnessed crisscrossing and conflicting political currents as well as fluctuating economic geopolitical social conditions demographic conditions and cultural processes Like Egypt's 20th century fin de siècle much of this ferment was a prelude to the more visible and politically eruptive events of the next decades when Egypt's popular resistance burst onto the international scene But its subterranean cast was no less dynamic for that Revolutionary Emotions in Cold War Egypt Christiane-Marie Abu Sarah, 2024-04-04 In autumn 1951 a diverse array of Muslim Christian and Jewish students from clubs like the Muslim Brotherhood and the Worker's Vanguard launched a guerrilla struggle against British occupation of the Suez Canal Zone Revolutionary Emotions in Cold War Egypt recovers this overshadowed revolution of 1951 and the part played by the Canal struggle in the overthrow of the Egyptian monarchy In a study spanning a half dozen international archives the

book delves into the divisive court cases and rousing club newspapers intimate memoirs and personal poetry of Egyptian activists These documents reveal that in the early years of the Cold War morality tales and moral emotions were at the heart of the methods and the successes of Egyptian activists What stories did activists tell and how did the emotional appeals and moral talk of Islamist and communist clubs compare How did Arabic speaking populations negotiate moral norms and what role did emotions like love anger and disgust play in political campaigns Taking a journey through Islamic parables about perilous beaches communist adaptations of Greek myths and popular stories about Juha s Nail and Paul Revere s Ride through the Suez Canal this book uncovers a rich history of activist storytelling These practices uncover the mechanics of morality tales and reveal how activists used narratives to convert emotion to motion and drive social change Still vitally important for readers today such findings shed light on how paramilitary groups and protest movements use moral appeals to attract support and why activist campaigns become the controversial epicentre of polarizing emotional battles
