

A U.S. Air Force air-sea rescue OA-10A exhibits a postwar paint scheme and markings, including a panel with "OB-319" alongside the cockpit. PBY flying boats performed stellar service in World War II and after. It was PBYs that discovered the German battleship *Bismarck* as it broke out into the North Atlantic, and PBYs that spotted the Japanese fleet as it approached the Midway Islands in June 1942. PBYs helped hold the line in the Aleutian Islands, patrolled vast expanses of ocean, conducted raids, ferried supplies to outposts, and saved many a downed airman. Slow but durable and long-legged, the PBY Catalina was indeed one of the outstanding aircraft of World War II. (Stan Piet Collection)

Pearl Harbor an even greater tragedy was unfolding across Southeast Asia From Wake Island to Burma the Empire of Japan opened the largest front in the history of warfare an aircraft driven invasion of colonial possessions throughout the Far East that crumbled the entire Western imperial legacy of the nineteenth century Events during the first two weeks of battle set the stage for the greatest military defeats America and Great Britain would suffer during any conflict This book offers the first comprehensive overview of the collapse of Allied air forces during the period between December 8 and 24 1941 Written for a wide audience it gives readers both a cockpit view of the desperate actions that took place and an understanding of why such heavy losses occurred The narrative account includes enough detail and analysis to hold the interest of serious students of Pacific War aviation and enough exciting descriptions of air combat to attract those with little knowledge of the subject Explaining how and why the Japanese were able to win a quick victory John Burton points to U S failures in the concepts for employment of airpower and a significant underestimation of Japanese air mindedness and aviation capabilities failures that resulted in the loss or surrender of more than 200 000 troops at Bataan and Singapore **FLIGHT, CAMERA, ACTION!**

account of the attack ever published yet it is priced significantly lower than the original book from 2010 The book begins with a Why Pearl Harbor chapter that summarizes the political events of the previous decade which convinced many Japanese leaders that they had to go to war with the United States and examines why the Japanese chose Pearl Harbor as the location to launch their dramatic initial blow against the United States Navy in the Pacific The Japanese attack plan is then covered in the next chapter which is followed with a chapter that looks at the high level commanders on both sides of the attack Four chapters look at the six Japanese aircraft carriers that made up the First Air Fleet which launched the attack the various other ships that supported the strike force and what their roles were a detailed look at the Japanese aircraft that participated in all phases of the attack and the weapons they carried Information is next provided on all of the major and minor ships of the U S Pacific Fleet both those at Pearl Harbor on the day of the attack and those that weren't The opening of the attack in the pre dawn hours is covered next with a description of the initial Japanese attempt to infiltrate the harbor with five midget submarines and the American response which resulted in this part of the attack being a complete failure The air attack is then covered in a chapter that is basically a book within a book with the Japanese aerial torpedo attacks covered first followed by the bombing and strafing attacks Each geographic area of the harbor and the targeted airfields are covered separately with a detailed text and numerous photographs But unlike other publications this chapter is not limited to explaining only what the Japanese did Also included is how the Americans fought back against the attack with everything they had and detailed accounts of the response of almost every ship present in Pearl Harbor that day are provided The American aircraft that rose in response to the attack are covered and the exploits of some of the pilots involved are given Chapters follow that summarize U S losses damage and recovery with photographs and information on every ship included on the Navy's official damage report Japanese losses and mistakes and a summary of the resulting wrath of the Awakened Giant showing how almost every Japanese ship that participated in the attack had been destroyed or damaged beyond repair less than four years later Attack on Pearl Harbor Japan Awakens a Sleeping Giant is the most detailed and profusely illustrated book on the Japanese attack ever published With over 440 photographs 12 maps and 58 illustrations created specifically for this publication it stands as the singularly distinctive book on the Day of Infamy Pacific Thunder Thomas McKelvey Cleaver, 2017-10-19 On 27 October 1942 four Long Lance torpedoes fired by the Japanese destroyers Makigumo and Akigumo exploded in the hull of the aircraft carrier USS Hornet CV 8 Minutes later the ship that had launched the Doolittle Raid six months earlier slipped beneath the waves of the Coral Sea Of the pre war carrier fleet the Navy had struggled to build over 15 years only three were left Enterprise that had been badly damaged in the battle of Santa Cruz USS Saratoga CV 3 which lay in dry dock victim of a Japanese submarine torpedo and the USS Ranger CV 4 which was in mid Atlantic on her way to support Operation Torch For the American naval aviators licking their wounds in the aftermath of this defeat it would be difficult to imagine that within 24 months of this event Zuikaku the last survivor of the carriers that had attacked Pearl

Harbor would lie at the bottom of the sea. Alongside it lay the other surviving Japanese carriers sacrificed as lures in a failed attempt to block the American invasion of the Philippines leaving the United States to reign supreme on the world's largest ocean. This is the fascinating account of the Central Pacific campaign, one of the most stunning comebacks in naval history. In 14 months, the US Navy went from the jaws of defeat to the brink of victory in the Pacific.

**Whitey** Peter B Mersky, 2014-11-15. Whitey is the first complete biography of one of the last surviving World War II U.S. Navy aces and one of the Navy's most respected officers of any period. Following a typical American mid-western boyhood, Whitey Feightner was in the vanguard of the huge group of young men thrust into World War II. Upon receiving his commission and his gold wings, he was assigned to a fighter squadron in the Pacific and soon found himself flying with the likes of Jimmy Flatley and Butch O'Hare, two leaders who imparted their own brand of flying skill and leadership to the young ensign. He flew through many of the war's most hectic and dangerous campaigns, such as Guadalcanal and the Marianas, gaining nine official kills. There were times he should not have returned from a mission, but his own skill and positive outlook helped him make it through all the dangers. After the war, Whitey became a member of the Regular Navy and was assigned to several of the Navy's most secret and action-filled projects at Patuxent River, Maryland. He flew and helped develop legendary fighters like the F7U Cutlass, F9F Panther, and Cougar, and the attack aircraft AD Skyraider as they joined the fleet, and was one of only two men who flew the radical F7U Cutlass in Blue Angels colors. Returning to the fleet in command of a squadron and later of an air group, he continued to develop fighter tactics. In between tours at sea, he served in the Pentagon dealing with all the personalities and political turmoil of the time while trying to bring naval aviation into the future. Working with such luminaries as Hyman Rickover and Elmo Zumwalt was not for the faint-hearted, and even Whitey did not come away unscathed. Yet through it all, he retained the affable demeanor that characterized this rare and highly skilled naval aviator. His life story could serve as a model for any young aviator to follow.

Aircraft Carriers Norman Polmar, 2006-09-01. Aircraft Carriers is the definitive history of world aircraft carrier development and operations. Norman Polmar's revised and updated two-volume classic describes the political and technological factors that influenced aircraft carrier design and construction, meticulously records their operations, and explains their impact on modern warfare. Volume I provides a comprehensive analysis of carrier developments and warfare in the first half of the twentieth century and examines the advances that allowed the carrier to replace the battleship as the dominant naval weapons system. Polmar gives particular emphasis to carrier operations from World War I through the Japanese strikes against China in the 1930s to World War II in the Atlantic, Mediterranean, Arctic, and Pacific theaters. It begins with French inventor Clément Ader's remarkably prescient 1909 description of an aircraft carrier. The book then explains how Britain led the world in the development of aircraft-carrying ships, soon to be followed by the United States and Japan. While ship-based aircraft operations in World War I had limited impact, they foreshadowed the aircraft carriers built in the 1920s and 1930s. The volume also describes the aircraft operating from those ships, as well as the

commanders who pioneered carrier aviation Aircraft Carriers has benefited from the technical collaboration of senior carrier experts Captain Eric M Brown and General Minoru Genda as well as noted historians Robert M Langdon and Peter B Mersky Aircraft Carriers is heavily illustrated with more than 400 photographs some never before published and maps Volume II which is forthcoming from Potomac Books in the winter 2006 2007 ISBN 978 1 57488 665 8 will cover the period 1946 to the present

**Watson's Really Big WWII Almanac** Patrick Watson,2007 This book covers events that have occurred throughout history that pertain to the Second World War The dates range from the 1800 s to 2007 It uses the same format and contains the same type of information as Volume 1 but it covers the period from July to December whereas Volume 1 concentrates on the first 6 months of the year It was also the 2008 North American Book Exchange s Pinnacle Book Award winner in the Reference Category

**Operation PLUM** Adrian R. Martin,Larry W. Stephenson,2010-07-15 They went in as confident young warriors They came out as battle scarred veterans POW camp survivors or worse The Army Air Corps 27th Bombardment Group arrived in the Philippines in November 1941 with 1 209 men one year later only 20 returned to the United States The Japanese attacked the Philippines on the same morning as Pearl Harbor and invaded soon after Allied air routes back to the Philippines were soon cut forcing pilots to fight their air war from bases in Java Australia and New Guinea The men on Bataan were eventually taken prisoner and forced into the infamous Death March The 27th and other such units were pivotal in delaying the Japanese timetable for conquest If not for these units some have suggested the Allied offensive in the Pacific might have started in Hawaii or even California instead of New Guinea and the surrounding islands Based largely on primary materials including a fifty nine page report written by the surviving unit members in September 1942 Operation PLUM from the code name for the U S Army in the Philippines gives an account of the 27th Bombardment Group and through it the opening months of the Pacific theater Military historians and readers interested in World War II will appreciate the rich perspective presented in Operation PLUM
