

Plaint Of Nature

Ian Pickup

Plaint Of Nature:

The Plaint of Nature Alanus (de Insulis),1980 **Alan of Lille. The plaint of nature (De planctu naturae, engl.)** Alanus (ab Insulis),1980 **Alan of Lille's Book on The Plaint of Nature** Linda Carol Strahan,1976 *Alan of Lille's Book on the Plaint of Nature* Linda Carol Strahan,1976 *Alan of Lille's Book on the Plaint of Nature: a Translation with Introduction and Notes to Alanus de Insulis' De Planctu Naturae* Alan of Lille,1977 **Queering the Middle Ages** Glenn Burger,Steven F. Kruger,2001 The essays in this volume present new work that in one way or another queers stabilized conceptions of the Middle Ages allowing us to see the period and its systems of sexuality in radically different off center and revealing ways While not denying the force of gender and sexual norms the authors consider how historical work has written out or over what might have been non normative in medieval sex and culture and they work to restore a sense of such instabilities At the same time they ask how this pursuit might allow us not only to re envision medieval studies but also to rethink how we study culture from our current set of vantage points within postmodernity The authors focus on particular medieval moments Christine de Pizan s representation of female sexuality chastity in the Grail romances the illustration of the sodomite in manuscript commentaries on Dante s Commedia the complex ways that sexuality inflected English national politics at the time of Edward II s deposition the construction of the sodomitic Moor by Reconquista Spain Throughout their work seeks to disturb a logic that sees the past as significant only insofar as it may make sense for and of a stabilized present

Alan of Lille's Book on the plaint of nature Alanus (ab Insulis.),Linda C. Strahan,1985 **Trials of Nature** Björn Quiring,2020-12-13 Focusing on John Milton s Paradise Lost this book investigates the metaphorical identification of nature with a court of law an old and persistent trope haunted by ancient aporias at the intersection of jurisprudence philosophy and literature In an enormous variety of texts from the Greek beginnings of Western literature onward nature has been described as a courtroom in which an all encompassing trial takes place and a universal verdict is executed The first introductory part of this study sketches an overview of the metaphor s development in European history from antiquity to the seventeenth century In its second more extensive part the book concentrates on Milton s epic Paradise Lost in which the problem of the natural law court finds one of its most fascinating and detailed articulations Using conceptual tools provided by Hannah Arendt Walter Benjamin Hans Blumenberg Gilles Deleuze William Empson and Alfred North Whitehead the study demonstrates that the conflicts in Milton s epic revolve around the tension between a universal legal procedure inherent in nature and the positive legal decrees of the deity The divine rule is found to consolidate itself by Nature s supplementary shadow government their inconsistencies are not flaws but rather fundamental rhetorical assets supporting a law that is inherently double formed In Milton s world human beings are thus confronted with a twofold law that entraps them in its endlessly proliferating double binds whether they obey or not The analysis of this strange juridical structure can open up new perspectives on Milton s epic as well as on the way legal discourse tends to entangle norms with facts and thus to embed

itself in human life This original and intriguing book will appeal not only to those engaged in the study of Milton but also to anyone interested in the relationship between law history literature and philosophy

Nature, Sex, and Goodness in a Medieval Literary Tradition Hugh White, 2000 Nature is a highly important term in the ethical discourse of the Middle Ages and as such a leading concept in medieval literature This book examines the moral status of the natural in writings by Alan of Lille Jean de Meun John Gower Geoffrey Chaucer and others showing how particularly in the erotic sphere the influences of nature are not always conceived as wholly benign Though medieval thinkers often affirm an association of nature with reason and therefore with the good there is also an acknowledgement that the animal the pre rational the instinctive within human beings may be validly considered natural In fact human beings may be thought to be urged almost ineluctably by the force of nature within them towards behaviour hostile to reason and the right

The Moral Authority of Nature Lorraine Daston, Fernando Vidal, 2010-08-15 For thousands of years people have used nature to justify their political moral and social judgments Such appeals to the moral authority of nature are still very much with us today as heated debates over genetically modified organisms and human cloning testify The Moral Authority of Nature offers a wide ranging account of how people have used nature to think about what counts as good beautiful just or valuable The eighteen essays cover a diverse array of topics including the connection of cosmic and human orders in ancient Greece medieval notions of sexual disorder early modern contexts for categorizing individuals and judging acts as against nature race and the origin of humans ecological economics and radical feminism The essays also range widely in time and place from archaic Greece to early twentieth century China medieval Europe to contemporary America Scholars from a wide variety of fields will welcome The Moral Authority of Nature which provides the first sustained historical survey of its topic Contributors Danielle Allen Joan Cadden Lorraine Daston Fa ti Fan Eckhardt Fuchs Valentin Groebner Abigail J Lustig Gregg Mitman Michelle Murphy Katharine Park Matt Price Robert N Proctor Helmut Puff Robert J Richards Londa Schiebinger Laura Slatkin Julia Adeney Thomas Fernando Vidal

A Treatise on Copyholds John Scriven (serjeant at law.), 1834

A Cosmos of Desire Thomas C. Moser, 2004 A groundbreaking illumination of the creation and reception of extant erotic poetry written in Latin during the Middle Ages

Chaucer's Queer Poetics Susan Schibanoff, 2006-01-01 Geoffrey Chaucer was arguably fourteenth century England's greatest poet In the nineteenth century readers of Chaucer's early dream poems the Book of the Duchess House of Fame and Parliament of Fowles began to detect a tripartite model of his artistic development from a French to an Italian and finally to an English phase They fleshed out this model with the liberation narrative the inspiring story of how Chaucer escaped the emasculating French house of bondage to become the generative father of English poetry Although this division has now largely been dismissed both the tripartite model and the accompanying liberation narrative persist in Chaucer criticism In Chaucer's Queer Poetics Susan Schibanoff interrogates why the tripartite model remains so tenacious even when literary history does not support it Revealing deeply rooted Francophobic homophobic and nationalistic biases Schibanoff

examines the development paradigm and demonstrates that liberated Chaucer depends on antiquated readings of key source texts for the dream trilogy This study challenges the long held view the Chaucer fled the prison of effete French court verse to become the natural English father poet and charts a new model of Chaucerian poetic development that discovers the emergence of a queer aesthetic in his work Allegory and Enchantment Jason Crawford,2017 Allegory and Enchantment is about the genealogies of modernity and about the lingering power of some of the cultural forms against which modernity defines itself religion magic the sacramental the medieval Jason Crawford explores the emergence of modernity by investigating the early modern poetics of allegorical narrative a literary form that many modern writers have taken to be paradigmatically medieval He investigates how allegory is intimately linked with a self conscious modernity and with what many commentators have in the last century called the disenchantment of the world in four of the most substantial allegorical narratives produced in early modern England William Langland's Piers Plowman John Skelton's The Bowge of Courte Edmund Spenser's The Faerie Queene and John Bunyan's The Pilgrim's Progress **Medieval Futurity** Will Rogers,Christopher Michael Roman,2020-11-09 This collection of essays asks contributors to take the capaciousness of the word queer to heart in order to think about what medieval queers would have looked like and how they may have existed on the margins and borders of dominant normative sexuality and desire The contributors work with recent trends in queer medieval studies blending together modern concepts of sexuality and desire with the queer configurations of eroticism desire and materiality as they might have existed for medieval audiences **Sexuality, Sociality, and Cosmology in Medieval Literary Texts** J. Brown,M. Segol,2013-01-07 Exploring the relation between sexuality and cosmology in a variety of literary texts from the tenth to the sixteenth centuries the essays reveal that medieval authors whether lay or religious Christian or Jewish were grappling with the same sets of questions about sexuality as people are today **The Invention of Sodomy in Christian Theology** Mark D. Jordan,1998-10-15 In this reexamination of what it means to have a tradition Catholic and otherwise Mark D Jordan offers a powerful and provocative study of the sin of erotic love between men The Invention of Sodomy reveals the theological fabrication of arguments for categorizing genital acts between members of the same sex *A Treatise on Copyholds* Charles Watkins,1816 **Bosch and Bruegel** Joseph Leo Koerner,2023-10-17 A bold new interpretation of two northern Renaissance masters In this visually stunning and much anticipated book acclaimed art historian Joseph Koerner casts the paintings of Hieronymus Bosch and Pieter Bruegel in a completely new light revealing how the painting of everyday life was born from what seems its polar opposite the depiction of an enemy hell bent on destroying us Supreme virtuoso of the bizarre diabolic and outlandish Bosch embodies the phantasmagorical force of painting while Bruegel through his true to life landscapes and frank depictions of peasants is the artistic avatar of the familiar and ordinary But despite their differences the works of these two artists are closely intertwined Bruegel began his career imitating Bosch's fantasies and it was Bosch who launched almost the whole repertoire of later genre painting But

Bosch depicts everyday life in order to reveal it as an alluring trap set by a metaphysical enemy at war with God whereas Bruegel shows this enemy to be nothing but a humanly fabricated mask. Attending closely to the visual cunning of these two towering masters, Koerner uncovers art history's unexplored underside: the image itself as an enemy. An absorbing study of the dark paradoxes of human creativity, *Bosch and Bruegel* is also a timely account of how hatred can be converted into tolerance through the agency of art. It takes readers through all the major paintings, drawings, and prints of these two unforgettable artists, including Bosch's notoriously elusive *Garden of Earthly Delights*, which forms the core of this historical tour de force. Elegantly written and abundantly illustrated, the book is based on Koerner's A. W. Mellon Lectures in the Fine Arts, a series given annually at the National Gallery of Art, Washington. Published in association with the Center for Advanced Study in the Visual Arts, National Gallery of Art, Washington, DC. Please note: All images in this ebook are presented in black and white and have been reduced in size.

The Unspeakable, Gender and Sexuality in Medieval Literature, 1000-1400
