Politics Philosophy And Empire In The Fourth Century:

Politics, Philosophy, and Empire in the Fourth Century Themistius, 2001 Around the year 350 a young orator and philosopher called Themistius delivered a speech to the Emperor Constantius II in Ancyra modern Ankara Themistius found great favour with the Emperor who catapulted him into the Constantinople Senate in 355 He was similarly favoured by subsequent emperors Jovian 363 64 Valens 364 78 and Theodosius 379 95 This volume presents translations of a selection of the speeches of Themistius grouped into chapters that deal either with a key period in the evolution of his career or with a sequence of events of particular historical significance Politics, Philosophy, and Empire in the Fourth Century

Themistius, Peter J. Heather, David Moncur, 2001 **Roman Imperial Policy from Julian to Theodosius** R. Malcolm Errington, 2007-10-16 The division of the late Roman Empire into two theoretically cooperating parts by the brothers Valentinian and Valens in 364 deeply influenced many aspects of government in each of the divisions Although the imperial policies during this well documented and formative period are generally understood to have been driven by the religious and ideological aims of the emperors R Malcolm Errington argues that the emperors were actually much more pragmatic in their decision making than has previously been assumed The division of responsibilities between the emperors inevitably encouraged separate developments and allowed locally varying and often changing imperial attitudes toward different forms of religious belief Errington demonstrates that the main stimulus for action in this period nearly always came from below the level of the imperial government and not from an imperial initiative Extending the theory of Fergus Millar into the later empire Errington argues that the emperors were fundamentally reactive to regionally supplied information as Millar has asserted was the case for the High Empire Thus despite significant structural changes the empire remained broadly traditional in its operations **Soldiering for God** John F. Shean, 2010-08-23 This new study argues that the religious attitude of the Roman army was a crucial factor in the Christianization of the Roman world Specifically by the end of the third century there was a significant Christian presence within the army which was ready to act in the interests of the faith Conditions at this time were thus ripe for the coming to power of a Christian emperor when Constantine converted to Christianity he could rely upon the enthusiastic support of his Christian soldiers Constantine strengthened his Christian base by initiating policies which accelerated the Christianization of the army The continuation of these policies by Christian Roman emperors eventually allowed them to use the military as a vehicle for the suppression of paganism and heretical Christian sects **Imperial Identities in the Roman World** Wouter Vanacker, Arjan Zuiderhoek, 2016-12-08 This volume rather than concentrating on politics and imperial administration studies the manifold ways in which people were ritually engaged in producing consuming organising and worshipping that fitted the changing realities of empire focusing on how individuals and groups tried to do things the right way the Greco Roman imperial way Given the deep cultural entrenchment of ritualistic practices an imperial identity firmly grounded in such practices might well have been instrumental not just to

the long lasting stability of the Roman imperial order but also to the persistency of its ideals well into post Roman times

The Roman Imperial Court in the Principate and Late Antiquity Caillan Davenport, Meaghan McEvoy, 2024-01-23 This book examines the Roman imperial court as a social and political institution in both the Principate and Late Antiquity By analysing these two periods which are usually treated separately in studies of the Roman court it examines continuities changes and connections in the six hundred years between the reigns of Augustus and Justinian

Christian Emperors and Roman Elites in Late Antiquity Rita Lizzi Testa, 2022-04-28 This book brings together a number of case studies to show some of the ways in which as soon as the Roman Senate gained new political authority under Constantine and his successors its members crowded the political scene in the West In these chapters Rita Lizzi Testa makes much of her work the fruit of decades of research available in English for the first time The focus is on the aristocrats passion for aruspical science the political use of exphrastic poems and even their control of the hagiographic genre in the late sixth century She demonstrates how Roman senators were chosen as legates to establish proactive relations with Christian emperors their ministers and military commanders and Eastern and Western provincial elites Senators wove a web of relations in the Eastern and Western empires sewing and stitching the empire s fabric with their diplomatic skills wealth and influence while lively and highly litigious assembly activity still required of them a cultured rhetoric Through employing astute political strategies they maintained their privileges including their own beliefs in ancient cults

Christian Emperors and Roman Elites in Late Antiquity provides a crucial collection for students and scholars of Late Antique history and religion and of politics in the Late Roman Empire

Some Organic Readings in Narrative, Ancient and Modern Ian Repath, Fritz-Gregor Herrmann, 2019-12-01 This volume in honour of John Morgan contains seventeen essays by colleagues research students and post doctoral researchers who have worked with and been influenced by him during his 40 years in Swansea up to and beyond his retirement in 2015 It is designed to reflect the esteem and affection in which the honorand is held as teacher supervisor colleague and friend All the contributions reflect John Morgan s interests with a particular focus on narrative which has always been at the forefront of his teaching and research he has elucidated the forms structures strategies and functions of numerous ancient narratives especially fictional in a voluminous body of scholarship The contributors consider a wide range of narratives extending from those which show the influence of older stories on the beginnings of ancient Greek civilisation through various narrative genres in different periods of antiquity and up to later eras when the impact of Greek and Roman learning stories and ideas has been felt The core of this volume contains discussions of narratives from the Roman imperial period since this is the area to which the majority of John Morgan s work has been devoted and where his research has seen him become a world leader in the study of the ancient Greek novel Several of the contributions at various stages of development were delivered and discussed at gatherings organised under the aegis of KYKNOS the Centre for Research on the Narrative Literatures of the Ancient World which was established at Swansea in 2004 at John Morgan s initiative

The Chronographia of George

the Synkellos and Theophanes Jesse W. Torgerson, 2022-07-25 The ninth century Chronographia of George the Synkellos and Theophanes is the most influential historical text ever written in medieval Constantinople Yet modern historians have never explained its popularity and power This interdisciplinary study draws on new manuscript evidence to finally animate the Chronographia s promise to show attentive readers the present meaning of the past Begun by one of the Roman emperor s most trusted and powerful officials in order to justify a failed revolt the project became a shockingly ambitious re writing of time itself a synthesis of contemporary history philosophy and religious practice into a politicized retelling of the human story Even through radical upheavals of the Byzantine political landscape the Chronographia s unique historical vision again and again compelled new readers to chase after the elusive Ends of Time *Constantinople* Rebecca Stephens

Falcasantos, 2020-06-02 As Christian spaces and agents assumed prominent positions in civic life the end of the long span of the fourth century was marked by large scale religious change Churches had overtaken once thriving pagan temples old civic priesthoods were replaced by prominent bishops and the rituals of the city were directed toward the Christian God Such changes were particularly pronounced in the newly established city of Constantinople where elites from various groups contended to control civic and imperial religion Rebecca Stephens Falcasantos argues that imperial Christianity was in fact a manifestation of traditional Roman religious structures In particular she explores how deeply established habits of ritual engagement in shared social spaces ones that resonated with imperial ideology and appealed to the memories of previous generations constructed meaning to create a new imperial religious identity By examining three dynamics ritual performance rhetoric around violence and the preservation and curation of civic memory she distinguishes the role of Christian practice in transforming the civic and cultic landscapes of the late antique polis *Religious Dissent in Late Antiquity, 350-450*

Maijastina Kahlos, 2019-11-13 Religious Dissent in Late Antiquity reconsiders the Christianization of the late Roman Empire The focus is on the shifting position of dissenting religious groups pagans and heretics The book shows that the narrative is more nuanced than the simple Christian triumph over the classical world *Imperial Rome AD 284 to 363* Jill

Harries, 2012-03-07 This book is about the reinvention of the Roman Empire during the eighty years between the accession of Diocletian and the death of Julian *Debate and Dialogue* Dr Maijastina Kahlos, 2013-05-28 This book explores the construction of Christian identity in fourth and fifth centuries through inventing fabricating and sharpening binary oppositions Such oppositions for example Christians pagans truth falsehood the one true god the multitude of demons the right religion superstition served to create and reinforce the Christian self identity The author examines how the Christian argumentation against pagans was intertwined with self perception and self affirmation Discussing the relations and interaction between pagan and Christian cultures this book aims at widening historical understanding of the cultural conflicts and the otherness in world history thus contributing to the ongoing discussion about the historical and conceptual basis of cultural tolerance and intolerance This book offers a valuable contribution to contemporary scholarly debate about

Late Antique religious history and the relationship between Christianity and other religions **Roman Emperor Zeno**
 Peter Crawford, 2019-02-28 A very useful read for anyone interested in the Later Roman Empire the fall of the Western Empire and the emergence of the Byzantine State The NYMAS Review Peter Crawford examines the life and career of the fifth century Roman emperor Zeno and the various problems he faced before and during his seventeen year rule Despite its length his reign has hitherto been somewhat overlooked as being just a part of that gap between the Theodosian and Justinianic dynasties of the Eastern Roman Empire which is comparatively poorly furnished with historical sources Reputedly brought in as a counterbalance to the generals who had dominated Constantinopolitan politics at the end of the Theodosian dynasty the Isaurian Zeno quickly had to prove himself adept at dealing with the harsh realities of imperial power Zeno's life and reign is littered with conflict and politicking with various groups the enmity of both sides of his family dealing with the fallout of the collapse of the Empire of Attila in Europe especially the increasingly independent tribal groups established on the frontiers of and even within imperial territory the end of the Western Empire and the continuing religious strife within the Roman world As a result his reign was an eventful and significant one that deserves this long overdue spotlight Crawford's work on the life and reign of Zeno is a good introduction for a general audience to the complexities of the late fifth century Roman Empire telling a series of long and complex stories compellingly in a traditional fashion Bryn Mawr Classical Review

Dreams, Memory and Imagination in Byzantium Bronwen Neil, Eva Anagnostou-Laoutides, 2018-08-20 This collection of studies on Dreams Memory and Imagination in Byzantium covers four main themes the place of dreams imagination and memory in the Byzantine philosophical tradition the political uses of prophetic dreams and visions in imperial contexts the appearance and manipulation of dreams and memory in Byzantine poetry and histories and changing commemorations of the saints over time in art epigraphy and literature These studies reveal the distinctive and important roles of memory imagination and dreams in the Byzantine court the proto Orthodox church and broader society from Constantinople to Syria and beyond This volume of Byzantina Australiensia brings together the work of senior and early career scholars from Australia Greece Israel Italy Japan New Zealand and the United States **Imperial Ideals in the Roman West** Carlos F. Noreña, 2011-06-23 This book shows how the circulation of ideals associated with the Roman emperor generated ideological unification among aristocracies and reinforced Roman power **Recognition and Religion** Maijastina Kahlos, Heikki J. Koskinen, Ritva Palmén, 2019-03-01 This book focuses on recognition and its relation to religion and theology in both systematic and historical dimensions While existing research literature on recognition and contemporary recognition theory has been gradually growing since the early 1990s certain gaps remain in the field covered so far One of these is the multifaceted interaction between the phenomena of recognition and religion Since recognition applies to persons institutions and normative entities like systems of beliefs it also provides a very useful analytic and interpretative tool for studying religion Divided into five sections with chapters written by established scholars in their respective fields the book explores

the roots history and limits of recognition theory in the context of religious belief Exploring early Christian and medieval sources on recognition and religion it also offers contemporary applications of this underexplored combination This is a timely book as debates over religious identities problematic forms of extremism and societal issues related with multiculturalism continue to dominate the media and politics It will therefore be of great interest to scholars of recognition studies as well as religious studies theology philosophy and religious and intellectual history **Pagans and Christians in**

Late Antiquity A. D. Lee, 2015-08-11 In *Pagans and Christians in Late Antiquity* A D Lee documents the transformation of the religious landscape of the Roman world from one of enormous diversity of religious practices and creeds in the 3rd century to a situation where by the 6th century Christianity had become the dominant religious force Using translated extracts from contemporary sources he examines the fortunes of pagans and Christians from the upheavals of the 3rd Century through the dramatic events associated with the emperors Constantine Julian and Theodosius in the 4th to the increasingly tumultuous times of the 5th and 6th centuries while also illustrating important themes in late antique Christianity such as the growth of monasticism the emerging power of bishops and the development of pilgrimage as well as the fate of other significant religious groups including Jews and Manichaeans This new edition has been updated to include additional documentary material including newly published papyri an expanded chapter on the emperor Constantine greater attention to church controversies in the fourth and fifth centuries thoroughly updated references and further reading taking into account developments in modern scholarship during the past fifteen years *Pagans and Christians in Late Antiquity* is an invaluable resource for students of the late antique world and of early Christianity and the early Church **The Routledge**

Handbook on Identity in Byzantium Michael Stewart, David Parnell, Conor Whately, 2022-03-30 This volume is the first to focus solely on how specific individuals and groups in Byzantium and its borderlands were defined and distinguished from other individuals and groups from the mid fourth to the close of the fifteenth century It gathers chapters from both established and emerging scholars from a wide range of disciplines across history art archaeology and religion to provide an accurate representation of the state of the field both now and in its immediate future The handbook is divided into four subtopics that examine concepts of group and specific individual identity which have been chosen to provide methodologically sophisticated and multidisciplinary perspectives on specific categories of group and individual identity The topics are Imperial Identities Romanitas in the Late Antique Mediterranean Macro and Micro Identities Religious Regional and Ethnic Identities and Internal Others and Gendered Identities Literature Memory and Self in Early and Middle Byzantium While no single volume could ever provide a comprehensive vision of identities on the vast variety of peoples within Byzantium over nearly a millennium of its history this handbook represents a milestone in offering a survey of the vibrant surge of scholarship examining the numerous and oft times fluctuating codes of identity that shaped and transformed Byzantium and its neighbours during the empire's long life *Archaeology, history and biosciences* Susanne

Brather-Walter, 2019-06-04 New scientific methods offer new insights in the past Promising opportunities for archaeology and historiography are confronted with the challenges of interdisciplinary cooperation between the sciences and the humanities This volume presents contributions by European researchers arranged in four sections fundamental questions of archaeology and biosciences migrations transformations and social structures
