Multiform Owen Hopkins, Erin McKellar, 2021-02-23 Guest edited by Owen Hopkins and Erin McKellar Our current moment is one of profound political and economic change Historically these moments of transition have seen a parallel period of cultural and notably architectural flux In the late 1970s this was manifested in Postmodernism Today a number of architects are looking again at this movement and redeploying a range of its tactics and approaches using contemporary methods and techniques These include different modes of collage formal reference and quotation stylistic eclecticism symbolism in form material and ornament and the bold expressive use of colour both natural and synthetic While the design that results from these multiform tactics and approaches has been seen as a kind of neo Postmodernism this issue argues that this is a simplistic and superficial reading Instead it posits this phenomenon as the architectural attempt both conscious and unconscious to reflect grapple with and make sense of the current political and economic transition and the backdrop of the climate emergency Rather than responding to this situation by attempting to

Post-Modernism and the Social Sciences Pauline Marie Rosenau, 1991-11-05 Post modernism offers a revolutionary approach to the study of society in questioning the validity of modern science and the notion of objective knowledge this movement discards history rejects humanism and resists any truth claims In this comprehensive assessment of post modernism Pauline Rosenau traces its origins in the humanities and describes how its key concepts are today being applied to and are restructuring the social sciences Serving as neither an opponent nor an apologist for the movement she cuts through post modernism s often incomprehensible jargon in order to offer all readers a lucid exposition of its propositions Rosenau shows how the post modern challenge to reason and rational organization radiates across academic fields For example in psychology it questions the conscious logical coherent subject in public administration it encourages a retreat from central planning and from reliance on specialists in political science it calls into question the authority of hierarchical bureaucratic decision making structures that function in carefully defined spheres in anthropology it inspires the protection of local primitive cultures from First World attempts to reorganize them In all of the social sciences she argues post modernism repudiates representative

democracy and plays havoc with the very meaning of left wing and right wing Rosenau also highlights how post modernism has inspired a new generation of social movements ranging from New Age sensitivities to Third World fundamentalism In weighing its strengths and weaknesses the author examines two major tendencies within post modernism the largely European skeptical form and the predominantly Anglo North American form which suggests alternative political social and cultural projects She draws examples from anthropology economics geography history international relations law planning political science psychology sociology urban studies and women s studies and provides a glossary of post modern terms to assist the uninitiated reader with special meanings not found in standard dictionaries Parody Margaret A.

Fairy Tales and the Shift in Identity Poetics from Modernism to Postmodernism Ana-Maria Baciuc,2023-11-06 The book reveals the historical change in the function of the generic form of the fairy tale at the beginning of the twentieth century fairy tales are no longer written or read for their stimulus to the imagination or their nostalgia towards past times but with a political end in view to define a nation s identity meant to justify and support claims to a unitary state Romania or an independent state Ireland As such this book investigates the interweave of poetics and politics at the time of the rise of modernist nationalism at the margins of Europe

Redefining Modernism and Postmodernism Sebnem Toplu,Sebnem Toplu,2010-06-09 Literary and cultural studies in the later twentieth century were very much shaped by debates about modernism and postmodernism as labels for successive periods but also for different competing interpretations of recent cultural history In the twenty first century the shock waves that were sent through the global system on political cultural economic and ecological levels by terrorist attacks regional conflicts poverty the financial crisis and the threat of environmental disaster raise anew the question of how and to what extent the tradition of modernity can be newly defined in a situation where the problematic aspects of these ideas have rightly been exposed but where they nevertheless appear to be crucial for any responsible assessment of contemporary world culture and its future perspectives Redefining Modernism and Postmodernism offers a collection of critical articles that resulted from the International Cultural Studies Symposium at Ege University Izmir Turkey in 2009 Scholars from around the world have contributed to this volume reflecting the current
