Violence in Families Committee on the Assessment of Family Violence Interventions, Commission on Behavioral and Social Sciences and Education, Division of Behavioral and Social Sciences and Education, National Research Council and Institute of Medicine, 1998-02-27 Reports of mistreated children domestic violence and abuse of elderly persons continue to strain the capacity of police courts social services agencies and medical centers At the same time myriad treatment and prevention programs are providing services to victims and offenders Although limited research knowledge exists regarding the effectiveness of these programs such information is often scattered inaccessible and difficult to obtain *Violence in Families* takes the first hard look at the successes and failures of family violence interventions It offers recommendations to guide services programs policy and research on victim support and assistance treatments and penalties for offenders and law enforcement Included is an analysis of more than 100 evaluation studies on the outcomes of different kinds of programs and services *Violence in Families* provides the most comprehensive review on the topic to date It explores the scope and complexity of family violence including identification of the multiple types of victims and offenders who require different approaches to intervention The book outlines new strategies that offer promising approaches for service providers and researchers and for improving the evaluation of prevention and treatment services *Violence in Families* discusses issues that underlie all types of family violence such as the tension between family support and the protection of children risk factors that contribute to violent behavior in families and the balance between family privacy and community interventions The core of the book is a research based review of interventions used in three institutional sectors social services health and law enforcement settings and how to measure their effectiveness in combating maltreatment of children domestic violence and abuse of the elderly Among the questions explored by the committee Does the child protective services system work Does the threat of arrest deter batterers The volume discusses the strength of the evidence and highlights emerging links among interventions in different institutional settings Thorough readable and well organized *Violence in Families* synthesizes what is known and outlines what needs to be discovered This volume will be of great interest to policymakers social services providers health care professionals police and court officials victim advocates researchers and concerned individuals

Treating Abused Adolescents Eliana Gil, 1996-06-01 With compassion and wisdom born of vast clinical experience Eliana Gil's new book offers practical step by step guidance for mental health professionals demonstrating how they can communicate and work more effectively with adolescents who have suffered from abuse Her book describes the impact of

abuse on development shows how acting out can be understood as a bid for attention and help and details specific ways a therapist can overcome obstacles in treatment *Drug Abuse: Prevention and Treatment* Mangai Natarajan,2017-05-15

Ever since the Shanghai convention in 1909 the threat posed to human well being by drug abuse has led countries around the world to take action to deal with their drug problems There are wide variations in the policies pursued but most countries try to reduce both the supply of and the demand for drugs Unfortunately there is little research consensus on the respective merits of these two approaches or about the best ways to pursue them Consequently control and prevention policies are mostly driven by political considerations economic realities and cultural expectations though research has played an important part in formulating and evaluating treatments for drug addiction This volume reviews studies on drug abuse prevention and treatment strategies under five main areas 1 Reducing supply strategies to control the flow of drugs from production to retail distribution 2 Reducing demand prevention of drug use at all stages of involvement and consumption levels 3 Reducing harm promoting situational risk reduction practices for regular users addicts and recreational users 4 Reducing addiction drug treatment options for various groups in various settings and 5 Drug policies and prescriptions focused on debates about prohibition and legalization **Evidence-Based Practice Manual** Albert R. Roberts,Kenneth R. Yeager,2004-01-15 The Evidence Based Practice Manual was developed as an all inclusive and comprehensive practical desktop resource It includes 104 original chapters each specially written by the most prominent and experienced medical public health psychology social work criminal justice and public policy practitioners researchers and professors in the United States and Canada This book is specifically designed with practitioners in mind providing at a glance overviews and direct application chapters This is the only interdisciplinary volume available for locating and applying evidence based assessment measures treatment plans and interventions Particular attention has been given to providing practice guidelines and exemplars of evidence based practice and practice based research The Evidence Based Practice Manual emphasizes and summarizes key elements issues concepts and how to approaches in the development and application of evidence based practice Discussions include program evaluation quality and operational improvement strategies research grant applications validating measurement tools and utilizing statistical procedures Concise summaries of the substantive evidence gained from methodologically rigorous quantitative and qualitative research provide make this is an accessible resource for a broad range of practitioners facing the mandate of evidence based practice in the health and human services Beyond Common Sense Fred Wulczyn,Richard P. Barth,Ying-Ying T. Yuan,Brenda Jones Harden,John Landsverk,2017-07-28 Helping vulnerable children develop their full potential is an attractive idea with broad common sense appeal However child well being is a broad concept and the legislative mandate for addressing well being in the context of the current child welfare system is not particularly clear This volume asserts that finding a place for well being on the list of outcomes established to manage the child welfare system is not as easy as it first appears The overall thrust of this argument is that policy should be evidence

based and the available evidence is a primary focus of the book Because policymakers have to make decisions that allocate resources a basic understanding of incidence in the public health tradition is important as is evidence that speaks to the question of what works clinically The rest of the book addresses the evidence Chapter 2 integrates bio ecological and public health perspectives to give the evidence base coherence Chapters 3 and 4 combine evidence from the National Child Abuse and Neglect Data System the Multistate Foster Care Data Archive and the National Survey of Child and Adolescent Well Being to offer an unprecedented profile of children as they enter the child welfare system Chapters 5 and 6 address the broad question of what works A concluding chapter focuses on policy and future directions suggesting that children starting out children starting school and children starting adolescence are high risk populations for which explicit strategies have to be formed This timely volume offers useful insights into the child welfare system and will be of particular interest to policymakers academics with an interest in Child Welfare Policy Social Work educators and Child Advocates *National Library of Medicine Current Catalog* National Library of Medicine (U.S.),1992 Adolescent Health: Background and the effectiveness of selected prevention and treatment services ,1991 This three volume work presents the Office of Technology s assessment of the physical emotional and behavioral health status of contemporary American adolescents including those living in poverty racial and ethnic minority groups Native Americans and rural adolescents Specific topics covered are identifying risk and protective factors for adolescent health problems evaluating options in the organization of health services and technologies available to adolescents assessing options in the conduct of national health surveys to improve collection of adolescent health statistics and identifying gaps in research on the health and behavior of adolescents
