## **Return From The Archipelago Narratives Of Gulag Survivors:**

*Return from the Archipelago* Leona Toker, 2000 Comprehensive historical survey and critical analysis of the vast body of narrative literature about the Soviet gulag Leona Toker organizes and characterizes both fictional narratives and survivors memoirs as she explores the changing hallmarks of the genre from the 1920s through the Gorbachev era Toker reflects on the writings and testimonies that shed light on the veiled aspects of totalitarianism dehumanization and atrocity Identifying key themes that recur in the narratives arrest the stages of trial imprisonment labor camps exile escapes special punishment the role of chance and deprivation Toker discusses the historical political and social contexts of these accounts and the ethical and aesthetic imperative they fulfill Her readings provide extraordinary insight into prisoners experiences of the Soviet penal system Special attention is devoted to the writings of Varlam Shalamov and Aleksandr Solzhenitsyn but many works that are not well known in the West especially those by women are addressed Consideration is also given to events that recently brought many memoirs to light years after they were written

**Reflections on the Gulag** Elena Dundovich, Francesca Gori, Emanuela Guercetti, 2003 **Memories of Mass Repression** Selma Leydesdorff, 2017-07-05 *Memories of Mass Repression* presents the results of researchers working with the voices of witnesses Its stories include the witnesses victims and survivors it also reflects the subjective experience of the study of such narratives The work contributes to the development of the field of oral history where the creation of the narrative is considered an interaction between the text of the narrator and the listener The contributors are particularly interested in ways in which memory is created and molded The interactions of different even conflicting memories of other individuals and society as a whole are considered In writing the history of genocide emotional memory and objective research are interwoven and inseparable It is as much the historian s task to decipher witness account as it is to interpret traditional written sources These sometimes antagonistic narratives of memory fashioned and mobilized within public and private arenas together with the ensuing conflicts paradoxes and contradictions that they unleash are all part of efforts to come to terms with what happened Mining memory is the only way in which we can hope to arrive at a truer and less biased historical account of events Memory is at some level selective Most believers in political movements turned out to be the opposite of what they promised When given a proper forum stories that are in opposition to dominant memories or in conflict with our own memories can effectively battle collective forgetting This volume offers the reader a vision of the subjective side of history without falsifying the objective reality of human survival

**The Gulag Doctors** Dan Healey, 2024-01-01 A pioneering history of medical care in Stalin s Gulag showing how doctors and nurses cared for inmates in appalling conditions A byword for injustice suffering and mass mortality the Gulag exploited prisoners compelling them to work harder for better rations in shocking conditions From 1930 to 1953 eighteen million people passed through this penal industrial empire Many inmates not reaching their quotas succumbed to exhaustion emaciation and illness It seems paradoxical that any medical care was available in the camps But it was in fact ubiquitous By

1939 the Gulag Sanitary Department employed 10 000 doctors nurses and paramedics about 40 percent of whom were prisoners Dan Healey explores the lives of the medical staff who treated inmates in the Gulag Doctors and nurses faced extremes of repression supply shortages and isolation Yet they still created hospitals re fed prisoners treated diseases and saved a proportion of their patients They taught apprentices and conducted research too This groundbreaking account offers an unprecedented view of Stalin s forced labour camps as experienced by its medical staff

**Displacement and (Post)memory in Post-Soviet Women's Writing** Marja Sorvari,2022-04-22 The book examines prominent literary works from the past two decades by Russian women writers dealing with the Soviet past It explores works such as Daniel Stein Interpreter by Ludmilla Ulitskaya The Time of Women by Elena Chizhova Secondhand Time The Last of the Soviets by Svetlana Alexievich and In Memory of Memory by Maria Stepanova and uncovers connecting thematic structures and features Focusing on the concepts of displacement and postmemory the book shows how these works have given voice to those on the margins of society and of great history whose resistance was often silent In doing so these women writers portray the everyday experiences and trauma of displaced women and girls during the second half of the twentieth century This study offers new insights into the importance of these women writers work in creating and preserving cultural memory in post Soviet Russia

The Cambridge Companion to Saul Bellow Victoria Aarons,2017 This book demonstrates the complexity of Bellow s work by emphasizing the ways in which it reflects the changing conditions of American identity

*Tamizdat* Yasha Yakov Klots,2023-05-15 *Tamizdat* offers a new perspective on the history of the Cold War by exploring the story of the contraband manuscripts sent from the USSR to the West A word that means publishing over there tamizdat manuscripts were rejected censored or never submitted for publication in the Soviet Union and were smuggled through various channels and printed outside the country with or without their authors knowledge Yasha Klots demonstrates how tamizdat contributed to the formation of the twentieth century Russian literary canon the majority of contemporary Russian classics first appeared abroad long before they saw publication in Russia Examining narratives of Stalinism and the Gulag Klots focuses on contraband manuscripts in the 1960s and 70s from Khrushchev s Thaw to Stagnation under Brezhnev Klots revisits the traditional notion of late Soviet culture as a binary opposition between the underground and official state publishing He shows that even as tamizdat represented an alternative field of cultural production in opposition to the Soviet regime and the dogma of Socialist Realism it was not devoid of its own hierarchy ideological agenda and even censorship *Tamizdat* is a cultural history of Russian literature outside the Iron Curtain The Russian literary diaspora was the indispensable ecosystem for these works Yet in the post Stalin years they also served as a powerful weapon on the cultural fronts of the Cold War laying bare the geographical stylistic and ideological rifts between two disparate yet inextricably intertwined fields of Russian literature one at home the other abroad Open Access edition funded by the National Endowment for the Humanities

**Literature, History and Identity in Post-Soviet Russia, 1991-2006** Rosalind J. Marsh,2007 The

aim of this book is to explore some of the main preoccupations of literature culture and criticism dealing with historical themes in post Soviet Russia focusing mainly on literature in the years 1991 to 2006 introduced by Edward E. Ericson and Alexis Klimoff, 2023-05-02 Authored by two eminent Aleksandr Solzhenitsyn scholars *The Soul and Barbed Wire* is the first and only book to offer both a detailed biography and a comprehensive appraisal of the literary achievement of the Nobel prize winning author who became one of the Soviet regime's most formidable foes The book begins with a detailed biographical survey that traces Solzhenitsyn's evolution from an ardent Communist and loyal Soviet front line officer into a devastating critic of all ideological distortions of authentic human values and a historian of the many faceted events that led to and the tragedy set loose by the Russian Revolution This biographical section goes on to portray the writer's strenuous efforts to convey this message to the West during his years of exile and to his countrymen after his return to Russia The bulk of the book however consists of sharply focused essays on a large number of Solzhenitsyn's writings Ericson and Klimoff comment on virtually all his works of fiction as well as on a generous selection of texts belonging to historical or journalistic genres Because the volume assumes no prior knowledge of its subject it will prove particularly helpful to those who are coming to Solzhenitsyn for the first time while its well nigh encyclopedic inclusiveness should appeal even to the most seasoned readers Drawing upon the best available Solzhenitsyn scholarship the authors strive to present a balanced and accurate appraisal of the remarkable life and hugely influential works that have often been misunderstood and not infrequently been misrepresented

Moss, 2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world

Baltic Biographies at Historical Crossroads Aili Aarelaid-Tart, Li Bennich-Björkman, 2012-06-12 Lying on the coastline of the Baltic Sea the small but strategically well located Baltic territories have historically found themselves in the middle of many power struggles between larger states empires and other power holders This book brings together life stories from five generations of Balts living through the diverse and recurring transformations of the 20th century occupations war independence totalitarianism and democratic rule and market economy

Understanding Bergson, Understanding Modernism S. E. Gontarski, Paul Ardoyn, Laci Mattison, 2013-01-17 Henri Bergson is frequently cited amongst the holy trinity of major influences on Modernism literary and otherwise alongside Sigmund Freud and William James Gilles Deleuze's Bergsonism has re popularized Bergson for the 21st century so much so that perhaps our Bergson is Deleuze's Bergson

Despite renewed interest in Bergson his influence remains understudied and consequently undervalued While books examining the impact of Freud and James on Modernism abound Bergson s impact though widely acknowledged has been closely examined much more rarely Understanding Bergson Understanding Modernism remedies this deficiency in three ways First it offers close readings and critiques of six pivotal texts Second it reassesses Bergson s impact on Modernism while also tracing his continuing importance to literature media and philosophy throughout the twentieth and into the 21st century In its final section it provides an extended glossary of Bergsonian terms complete with extensive examples and citations of their use across his texts The glossary also maps the influence of Bergson s work by including entries on related writers all of whom Bergson either corresponded with or critiqued *Teaching Theory* R. Bradford,2011-01-27 Teaching Theory offers a selection of essays on the pragmatics benefits and shortcomings of Theory as a key aspect of literature teaching in universities They range from reflective discussions of Theory as an intellectual challenge for undergraduates to accounts of the day to day problems of planning and teaching courses and implementing Theory *Literature of the Holocaust* Alan Rosen,2013-11-14 During and in the aftermath of the dark period of the Holocaust writers across Europe and America sought to express their feelings and experiences through their writings This book provides a comprehensive account of these writings through essays from expert scholars covering a wide geographic linguistic thematic and generic range of materials Such an overview is particularly appropriate at a time when the corpus of Holocaust literature has grown to immense proportions and when guidance is needed in determining a canon of essential readings a context to interpret them and a paradigm for the evolution of writing on the Holocaust The expert contributors to this volume who negotiate the literature in the original languages provide insight into the influence of national traditions and the importance of language especially but not exclusively Yiddish and Hebrew to the literary response arising from the Holocaust **The Forsaken** Tim Tzouliadis,2008 Tzouliadis presents this remarkable piece of forgotten history the story of how thousands of Americans were lured to Soviet Russia by the promise of jobs and better lives only to meet a tragic and until now forgotten end *Handbook of Diachronic Narratology* Peter Hühn,John Pier,Wolf Schmid,2023-07-24 This handbook brings together 42 contributions by leading narratologists devoted to the study of narrative devices in European literatures from antiquity to the present Each entry examines the use of a specific narrative device in one or two national literatures across the ages whether in successive or distant periods of time Through the analysis of representative texts in a range of European languages the authors compellingly trace the continuities and evolution of storytelling devices as well as their culture specific manifestations In response to Monika Fludernik s 2003 call for a diachronization of narratology this new handbook complements existing synchronic approaches that tend to be ahistorical in their outlook and departs from postclassical narratologies that often prioritize thematic and ideological concerns A new direction in narrative theory diachronic narratology explores previously overlooked questions from the evolution of free indirect speech from the Middle Ages to the present to how changes in

narrative sequence encoded the shift from a sacred to a secular worldview in early modern Romance literatures An invaluable new resource for literary theorists historians comparatists discourse analysts and linguists *From Incarceration to Repatriation* Susan C. I. Grunewald, 2024-07-15 *From Incarceration to Repatriation* explores the lives and memories of the nearly 1.5 million German POWs who were held by the Soviet Union during and after World War II and released in phases through 1956 seven years longer than the prisoners of any other Allied nation Susan C. I. Grunewald argues that Soviet leadership deliberately kept able bodied German POWs to supplement their labor force after the end of the war The Soviet Union lost 27 million citizens and a quarter of its physical assets during the war motivating Soviet leadership to harness the labor of German POWs for as long as possible Engaging with recently declassified documents in former Soviet archives archival material from multiple German governments as well as innovative use of digital humanities methods and geographic information system GIS mapping Grunewald demonstrates that Soviet authorities detained German POWs primarily for economic rather than punitive reasons In fact the GIS mapping of the historical materials makes it clear that most of the four thousand POW camps across the USSR were strategically located near industrial infrastructure and natural resource sites that were critical to postwar economic reconstruction *From Incarceration to Repatriation* is the first book to draw together the distinct fields of Soviet and German history to provide a more nuanced and comprehensive understanding of German POW captivity in the USSR during and after World War II Attending to the ways that the memory of German POWs remains in circulation in both the former Soviet Union and Germany Grunewald tracks the political repercussions of war commemoration *Biopolitics of Stalinism* Sergei Prozorov, 2016-02-15 Western theories of biopolitics focus on its liberal and fascist rationalities In opposition to this Stalinism is oriented more towards transforming life in accordance with the communist ideal and less towards protecting it Sergei Prozorov reconstructs this rationality in the early Stalinist project of the Great Break 1928-32 and its subsequent modifications during High Stalinism He then relocates the question of biopolitics down to the level of the subject tracing the way the new Soviet person was to be produced in governmental practices and the role that violence and terror would play in this construction Throughout he engages with the canonical theories of Michel Foucault Giorgio Agamben and Roberto Esposito and the new materialist theories of Michel Henry Quentin Meillassoux and Catherine Malabou to critique the conventional approaches to biopolitics **Waiting at the Prison Gate** Judith Pallott, Elena Katz, 2016-11-29 The Russian Federation has one of the largest prison populations in the world Women in particular are profoundly affected by the imprisonment of a family member *Families and Punishment in Russia* details the experiences of these women be they wives mothers girlfriends daughters who as relatives of Russia's three quarters of a million prisoners are the invisible victims of the country's harsh penal policy A pioneering work that offers a unique lens through which various aspects of life in twenty first century Russia can be observed the workings of criminal sub cultures societal attitudes to parenthood marriage and marital fidelity young women's quests for a husband nostalgia for the Soviet

period state strategies towards dealing with political opponents and the social construction of gender roles
