Between Hope and Despair Roger I. Simon, Sharon Rosenberg, Claudia Eppert, 2000-03-15 At the end of a century of unfathomable suffering societies are facing anew the question of how events that shock resist assimilation and evoke contradictory and complex responses should be remembered *Between Hope and Despair* specifically examines the pedagogical problem of how remembrance is to proceed when what is to be remembered is underscored by a logic difficult to comprehend and subversive of the humane character of existence This pedagogical attention to practices of remembrance reflects the growing cognizance that hope for a just and compassionate future lies in the sustained if troubled working through of these issues *Days of Gold* Malcolm J. Rohrbough, 2023-09-01 On the morning of January 24 1848 James W Marshall discovered gold in California The news spread across the continent launching hundreds of ships and hitching a thousand prairie schooners filled with adventurers in search of heretofore unimagined wealth Those who joined the procession soon called 49ers included the wealthy and the poor from every state and territory including slaves brought by their owners In numbers they represented the greatest mass migration in the history of the Republic In this first comprehensive history of the Gold Rush Malcolm J Rohrbough demonstrates that in its far reaching repercussions it was the

most significant event in the first half of the nineteenth century No other series of events between the Louisiana Purchase and the Civil War produced such a vast movement of people called into question basic values of marriage family work wealth and leisure led to so many varied consequences and left such vivid memories among its participants Through extensive research in diaries letters and other archival sources Rohrbough uncovers the personal dilemmas and confusion that the Gold Rush brought His engaging narrative depicts the complexity of human motivation behind the event and reveals the effects of the Gold Rush as it spread outward in ever widening circles to touch the lives of families and communities everywhere in the United States For those who joined the 49ers the decision to go raised questions about marital obligations and family responsibilities For those men and women whose experiences of being left behind have been largely ignored until now who remained on the farm or in the shop the absences of tens of thousands of men over a period of years had a profound impact reshaping a thousand communities across the breadth of the American nation On the morning of January 24 1848 James W Marshall discovered gold in California The news spread across the continent launching hundreds of ships and hitching a thousand prairie schooners filled with adventurers in search of heretofore unimagined wealth

American and Chinese-Language Cinemas Lisa Funnell, Man-Fung Yip, 2014-09-19 Critics frequently describe the influence of America through Hollywood and other cultural industries as a form of cultural imperialism This unidirectional model of interaction does not address however the counter flows of Chinese language films into the American film market or the influence of Chinese filmmakers film stars and aesthetics in Hollywood The aim of this collection is to reconsider the complex dynamics of transnational cultural flows between American and Chinese language film industries The goal is to bring a more historical perspective to the subject focusing as much on the Hollywood influence on early Shanghai or postwar Hong Kong films as on the intensifying flows between American and Chinese language cinemas in recent decades Contributors emphasize the processes of appropriation and reception involved in transnational cultural practices examining film production distribution and reception

introduction and four new chapters that reveal the most contemporary expressions of the militarization and corporatization of education New topics covered in this collection include zero tolerance foreign and second language instruction in the post 9 11 context the rise of single sex classrooms and the intersection of the militarization and corporatization of schools under the Obama administration
