## **Return To A Chinese Village:**

**Return to a Chinese Village** Jan Myrdal,1984      *Moral Politics in a South Chinese Village* Hok Bun Ku,2003-08-25

Exploring sensitive issues often hidden to outsiders this engaging study traces the transformation and economic development of a south China village during the first tumultuous decade of reform Drawing on a wealth of intimate detail Ku explores the new sense of risk and mood of insecurity experienced in the post reform era in Ku Village a typical hamlet beyond the margins of richer suburban areas or fertile farmland Villagers dissatisfaction revolves around three key issues the rising cost of living mounting agricultural expenses and the forcible implementation of birth control quotas Faced with these daunting problems villagers have developed an array of strategies Their weapons include resisting policies they consider unreasonable by disregarding fees evading taxes and ignoring strict family planning regulations challenging the rationale of official policies and the legitimacy of the local government and its officials and reestablishing clan associations to supercede local Party authority Using lively everyday narratives and compelling personal stories Ku argues that rural people are not in fact powerless and passive instead they have their own moral system that informs their everyday family lives work and political activities Their code embodies concepts of fairness and justice a concrete definition of the relationship between the state and its citizens an understanding of the boundaries and responsibilities of each party and a clear notion of what constitutes good and bad government and officials On the basis of these principles they may challenge existing policies and deny the authority of officials and the government thereby legitimizing their acts of self defense Through his richly realized ethnography Ku shows the reader a world of memorable fully realized individuals striving to control their fate in an often arbitrary world

**Chinese Village, Socialist State** Edward Friedman,Paul Pickowicz,Mark Selden,Kay Ann Johnson,1991-01-01 This portrait of social change in the North China plain depicts how the world of the Chinese peasant evolved during an era of war and how it in turn shaped the revolutionary process The book is based on evidence gathered from archives and interviews with villagers and rural officials      *Morality and Power in a Chinese Village* Richard Madsen,1986-01-01      **Rebirth of**

**Historical Cultural Village in China** Guiqing Yang,2024-11-15 This book combines theory and practice with typical cases study Pictures and texts are listed in each chapter for easier understanding It is suitable for undergraduate and graduate students majoring in urban and rural planning architecture and landscape architecture in colleges and universities It is used as a reference material for personnel engaged in rural planning design construction and management and for the training and learning of rural cadres Meanwhile it is also used as a reference for general audience who interested in rural planning and construction This book hopefully promotes the academic exchange and discussion of the rebirth of mountainous historical and cultural villages in eastern China encouraging the further localized practice and more attention to historical and cultural villages      *Race and the Atlanta Cotton States Exposition of 1895* Theda Perdue,2011-10-01 The Cotton States Exposition of 1895 was a world s fair in Atlanta held to stimulate foreign and domestic trade for a region in an economic

depression Theda Perdue uses the exposition to examine the competing agendas of white supremacist organizers and the peoples of color who participated Close examination reveals that the Cotton States Exposition was as much about challenges to white supremacy as about its triumph

**Marriage, Gender and Sex in a Contemporary Chinese Village** Sun-Pong Yuen, Pui-Lam Law, Yuk-Ying Ho, Fong-Ying Yu, 2015-07-17 This book explores changing concepts of marriage and gender relationships and attitudes toward sex in a rural Chinese community over the past five decades The book is based on a study of an industrialized peasant village in Guangdong Province from 1994 to 1996 and subsequent visits from 2000 to 2002 According to the authors the rural economic reforms of the 1980s in southern China have challenged and reinforced the deep structure of Chinese familism and this has led to tensions between tradition and modernity The first section of the book explores how attitudes toward marriage and courtship have changed over the past fifty years through personal accounts of three different marriages from different generations In Part II the transition from a traditional to a modern society is discussed from the perspective of several women from different generations The third section focuses on sexual relationships and the growing sex trade in the village Part IV includes updates to the original survey and takes a look at village politics

*The Complexity of Rural Migration in China* Xiong Fengshui, 2020-12-29 This book examines socio economic relationships and cultural changes in contemporary rural China focusing on the experience of a typical Chinese village the working age population of which has been hollowed out by outbound labor migration The volume sheds light on the inherent complexity of peasants material economic and emotional dependency on the countryside and how these relationships shape their experience of migration and the personal transformation that comes with it Simplistic binaries such as traditional and modern are left to one side in favour of a multifaceted approach to understanding the interactions among people institutions and the natural environment The book will appeal to academics of sociology and anthropology and general readers interested in China's rural society

*A Century of Change in a Chinese Village* Lin Juren, Xie Yuxi, 2018-05-04 Over the last half century China has evolved from a poor rural country to a geopolitical powerhouse Rapid urbanization has been at the heart of that transformation and as migrant laborers have left their villages what has become of the rural communities that were once the center of economic social and cultural life And how do contemporary Chinese scholars understand those changes These are the questions that this compelling book answers Lengshuigou village located near the Shandong provincial capital of Jinan was first studied by Japanese social scientists in the early 1940s and then again in the 1980s and 1990s Building on these rich surveys this book traces changes from the early twentieth century to the present day in family and lineage social stratification personal networks annual and life cycle rituals village politics and elite formation Drawing on their own large scale survey of contemporary village households the authors analyze the physical and institutional changes that have altered the community as well as the shifts in interpersonal relations and attitudes that have upended centuries old systems of patriarchy and generational order This important book presents for the first time in English analysis by Chinese sociologists

on the radical transformation of Chinese rural society      *Chinese in Eastern Europe and Russia* Pál Nyiri, 2007-10-18 Since the late nineteenth century hundreds of thousands of Chinese have moved to Russia and Eastern Europe However until now very little research has been done about the initial migrants in the nineteenth century the presence of the Chinese in Europe and Russia in the twentieth century before the collapse of the socialist regimes or about the great wave of Chinese migration to Eastern Europe and Russia which occurred after 1989 This book provides a comprehensive overview of the Chinese in Russia and Eastern Europe from the nineteenth century to the present day Particularly important is the movement of entrepreneurs in the early 1990s who took advantage of unmet demand inadequate retail networks and largely unregulated markets to become suppliers of cheap consumer goods to low income Eastern Europeans In some villages Chinese merchants now occupy a position not unlike that of Jewish shopkeepers before the Second World War Although their interactions with local society are numerous the degree of social integration and acceptance is often low At the same time they maintain close economic social and political ties to China Empirical in focus and full of rich ethnographic data P l Ny ri has produced a book that will be of great interest to students and scholars of Chinese studies international migration diaspora and transnationalism      *China as context* Di Wu, Andrea E. Pia, Ed Pulford, 2025-09-02 Decades old calls to recognise China s significance for anthropological theory and the social sciences are more urgent than ever Yet Chinese grounded ideas remain marginal with China often seen as an Other rather than a source of widely applicable theory Drawing on East Asian postcolonial scholarship this volume argues that without taking China seriously as a knowledge producer and a key agent in a post global world social scientists risk misinterpreting the global present As Western globalisation wanes and anthropology reassesses the relationship between ethnography and theory we show how China must be understood as an ordinary integral context for research worldwide      **Asian Material Culture** Marianne Hulsbosch, Elizabeth Bedford, Martha Chaiklin, 2009 This richly illustrated volume offers the reader unique insight into the materiality of Asian cultures and the ways in which objects and practices can simultaneously embody and exhibit aesthetic and functional characteristics as well as everyday and spiritual aspirations Though each chapter is representative rather than exhaustive in its portrayal of Asian material culture together they clearly demonstrate that objects are entities that resonate with discourses of human relationships personal and group identity formations ethics values trade and above all distinctive futures      *The Sage Returns* Kenneth J. Hammond, Jeffrey L. Richey, 2014-12-03 An interdisciplinary exploration of the contemporary Confucian revival Until its rejection by reformers and revolutionaries in the twentieth century Confucianism had been central to Chinese culture identity and thought for centuries Confucianism was rejected by both Nationalists under Chiang Kai shek and Mao Zedong s Communist Party which characterized it as an ideology of reaction and repression Yet the sage has returned today Chinese people from all walks of life and every level of authority are embracing Confucianism As China turned away from the excesses of the Cultural Revolution and experienced the adoption and challenges of market practices alternatives were

sought to the prevailing socialist morality Beginning in the 1980s and continuing through the years ideas images behaviors and attitudes associated with Confucianism have come back into public and private life In this volume scholars from a wide range of disciplines explore the contemporary Confucian revival in China looking at Confucianism and the state intellectual life and popular culture Contributors note how the revival of Confucianism plays out in a variety of ways from China's relationship with the rest of the world to views of capitalism and science to blockbuster movies and teenage fashion **My**

Yantian and its remarkable economic and social transformation this book shows how outcomes are shaped by a number of factors such as path dependence social structures economic resources and local entrepreneurship *Coming Home?*

Lynell D. Long, Ellen Oxfeld, 2017-06-16 Few things weigh on the human spirit more heavily than a sense of place the lands we live in and return to have a profound ability to shape our notions of home and homeland not to mention our own identities The pull of the familiar and the desire to begin anew are conflicting impulses for the nearly 180 million people who live outside their countries of origin often with the expectation of returning home Of 30 million people who immigrated to the United States alone between 1900 and 1980 10 million are believed to have returned to their homelands While migration flows occur in both directions surprisingly few studies of transnationalism global migration or diaspora address return experiences Undertaking a comparative analysis of how coming home affects individuals and their communities in a myriad cultural and geographic settings the contributors to this volume seek to understand the unique return migration experiences of refugees migrants and various others as they confront the social pressures and a sense of displacement that accompany their journeys The returns depicted in *Coming Home* range from temporary visits to permanent repatriation from voluntary to coerced movements and from those occurring after a few years of exile to those after several decades away The geographic sites include the Balkans Barbados China Eritrea Ethiopia Germany Nicaragua the Philippines Rwanda and Vietnam Several studies portray the experiences of returning refugees who earlier fled war and violence while others focus on economic or labor migrants As the essays show connections between permanent returnees and home communities are contentious and complex On the one hand issues of land title property rights political orientation and religious and cultural

beliefs and practices create grounds for clashes between returnees and their home communities but on the other returnees bring with them a unique ability to transform local practices and provide new resources

*Chinese Sociologists in the First Half of the 20th Century* Peilin Li, Jingdong Qu, Yabin Yang, 2024-08-01 This book offers a biographical intellectual and academic history of sociology in the late Qing and Republic of China period The 46 sociologists featured in this volume are chosen from the pantheon of notable scholars who labored in this burgeoning field Each of the 46 chapters is devoted to introducing one sociologist Every chapter begins with a short biography that sheds light on how one sociologist became the scholar they were and earned their place in not only sociology but also for some of them other fields in the social sciences and the humanities This is followed by a review and analysis of the representative works by this sociologist and how those laid the foundation for and contributed to the early development of a particular field of research in sociology as we know it today The book weaves together a history of this academic discipline in China over those turbulent decades that organically combines personal details methodological development institutional changes and also larger social economic and intellectual trends

*Chinese Village Life Today* Gonalo Santos, 2021-08-22 An intimate look at twenty first century households in rural China China has undergone a remarkable process of urbanization but a significant portion of its citizens still live in rural villages To gain better access to jobs health care and consumer goods villagers often travel or migrate to cities and that cyclical transit and engagement with new technoscientific and medical practices is transforming village life In this thoughtful ethnography Gon alo Santos paints a richly detailed portrait of one rural township in Guangdong Province north of the industrialized Pearl River Delta region Unlike previous studies of rural urban relations and migration in China *Chinese Village Life Today* based on Santos s more than twenty years of field research starts from a rural community s point of view rather than the perspective of major urban centers Santos considers the intimate choices of village families in the face of larger forces of modernization showing how these negotiations shape the configuration of daily village life from marriage childbirth and childcare to personal hygiene and public sanitation Santos also outlines the advantages of a rural existence including a degree of autonomy over family planning and community life that is rare in urban China Filled with vivid anecdotes and keen observations this book presents a fresh perspective on China s urban rural divide and a grounded theoretical approach to rural transformation

**Chineseness across Borders** Andrea Louie, 2004-03-22 Transnational ethnic identity issues studied through an ethnography of Chinese American visits to Chinese villages organized under a program set up by the Chinese government

Creating Societies Dirk Hoerder, 2000 The birth of Canada as a society and a nation has often been told from the narrow perspective of the founding nations These versions have left little room for the everyday experiences of a wide variety of individual immigrants who have had to adjust
