REASON VS REVELATION

Revelation Reason

Gary L. McDowell

Revelation Reason:

Revelation and Reason Emil Brunner, 1946 To many people both inside the Church and outside it what goes on in the Church is either routine or irrelevant Consequently what the Church has to say is not very meaningful Why should people listen to what the Church has to preach and think about it No one is better qualified to answer this question than Professor Emil Brunner Dr Brunner is a teacher of theology in the University at Zurich Switzerland and one of the clearest and most constructive religious thinkers of our day Any book of his is an event because he succeeds so well in combining sound learning with persuasive and readable analysis and because he is thoroughly acquainted with both American and Continental ways of thinking In this book Dr Brunner sets the claim of the widespread intellectual relativism of contemporary culture He seeks to show that both Catholic and secular thought misunderstand the relations between reason and revelation because revelation is always subordinated to reason Brunner reverses the position He goes back to the Bible and the Reformers and maintains that when reason is subordinated to revelation the preaching of the Gospel is at once true to itself and intelligible Here is a forceful and thorough volume which helps both believers and unbelievers to understand themselves Publisher

The Works of Orestes A. Brownson: Explanations and index Orestes Augustus Brownson, 1887 **Theology as Repetition** Stephen Foster, 2020-01-01 Theology as Repetition revisits and argues for a revival of John Macquarrie's philosophical theology Macquarrie was a key twentieth century theological voice and was considered a foremost interpreter and translator of Martin Heidegger's philosophy He then somehow fell from view Macquarrie developed a new style of theology grounded in a dialectical phenomenology that is a relevant voice in responding to recent trends in theology The development of the book is partly chronological and partly thematic and avoids attempting to be either deductive or inductive in argument but rather reflects Macquarrie's phenomenologically styled new theology Theology as Repetition is set out in two parts The first part situates Macquarrie in relation to thinkers from the radical theology of the 1960s through to the postmodernists of the late twentieth century The second part explores the intersection of key themes in Macquarrie's theology with the thinking of Kant Hegel Heidegger and representative postsecular and postmodern figures including but not limited to Emmanuel Levinas Jacques Derrida and Jean Luc Marion *Our Politics, Our Selves?* Peter Digeser, 1995-04-17 Is statecraft soulcraft Should we look to our souls and selves in assessing the quality of our politics Is it the business of politics to cultivate shape or structure our internal lives Summarizing and answering the major theoretical positions on these issues Peter Digeser formulates a qualified permission to protect or encourage particular forms of human identity Public discourse on politics should not preclude talk about the role of reason in our souls or the importance of wholeness and community to our selves or the significance of autonomy for individuals However those who seek to place only their own conception of the self or soul within the reach of politics are as mistaken as those who would completely preclude such matters from the political realm In proposing this view Digeser responds to communitarians classical political rationalists and genealogists

who argue that liberal culture fragments debases or normalizes our selves He also critically analyzes perfectionist liberals who justify liberalism by virtue of its ability to cultivate autonomy and authenticity as well as liberal neutralists who wish to avoid altogether the problem of selfcraft All these he argues fall short in some way in defining the extent to which politics should be concerned with the self

Toward a Negative Theology of Judaism Ernest Rubinstein, 2025-07-29 This book reimagines Judaism and Jewish identity after the time honored method of negative theology It builds on negations that clear space for revisioning of such topics as creation and revelation the people and State of Israel history and suffering ritual and ethics God and spiritual life The theology builds on thought from key figures in the history of Jewish philosophy and serves along the way as an introduction to them including Ecclesiastes Philo Saadia Gaon Judah Halevi Maimonides Spinoza Moses Mendelssohn Nachman Krochmal Hermann Cohen Franz Rosenzweig Martin Buber Abraham Joshua Heschel Emil Fackenheim Emmanuel Levinas Yeshayahu Leibowitz and more A key finding is that a shared negation binds God and the Jewish people together their joint refusal to submit to contentful constrictive definition

Christian Eternalism Armon Eaton,2020-07-24 John A Widtsoe said The Gospel may be said to be The philosophy of Eternalism The Gospel is immersed in the ocean of eternity Neal A Maxwell said Eternalism is defined as that view of man and the universe which not only acknowledges but exults in the existence of a Heavenly Father Eternalism focuses on the individual and on those processes in which the individual is taught correct principles and then is given optimum opportunity to govern himself For those who believe we are all going to be around forever it is both natural and wise to concern ourselves with such questions and also with such principles which are also going to be around forever These quotes involving the word Eternalism indicate a deep philosophical foundation underlying everything about the restored gospel of Jesus Christ This book describes some of the philosophical foundations of what Latter day Saints call the Restoration In the broadest sense philosophy is concerned with mankind s relationship to existence whereas theology is concerned with mankind s relationship to God Both philosophy and theology are important to Latter Day Saints because one s view of God is greatly influenced by one s view of reality Eternalism then in the broadest sense is Latter day Saint theology explained within a philosophically sound structure

The Mysteries of Christianity Matthias Joseph Scheeben, 2023-03-17 The Mysteries of Christianity is Matthias Joseph Scheeben's youthful magnum opus a logically rigorous and spiritually profound dogmatic theology In its pages he explores the intelligibility of Christianity's supernatural mysteries and their deep connectedness ultimately demonstrating that Christian theology constitutes a science before the court of human reason even as its object transcends human comprehension Scheeben's task is to present a unified view of the whole panorama of revealed truth and he pursues this by considering nine key Christian mysteries the Trinity creation sin the Incarnation the Eucharist the Church and its sacraments justification eschatological glory and predestination Since the mystery of the Trinity is the root of the supernatural order Scheeben begins here showing that the foundation of the salvific economy lies in the eternal processions of persons in God the begetting of the Son and the spiration of the Spirit being in different ways the cause of the life of grace in the human soul When the Son and the Spirit are sent into the world in the Incarnation and through the bestowal of grace they provide the way for human beings to see God face to face in the beatific vision the end for which God created humans Among the means of return to God Scheeben particularly emphasizes the Eucharist on account of its close connection with the mystery of the Incarnation By placing his treatment of the Eucharist before that of the Church he signals that his is a genuinely Eucharistic ecclesiology centered on the abiding presence of the incarnate divine Son

Theology Markus Mühling, 2014-09-17 Markus Mühling presents an epistemological theory of revelation as perception and a relational narrative theological ontology based on the concept of dramatic coherence in which the triune life is understood not as an anomaly within ontology but rather as the decisive condition of its possibility Mühling further demonstrates that potential for resolving certain theological problems arises if new insights from the natural sciences such as the theory of the ecological brain in the neurosciences and the theory of niche construction in evolutionary theory are taken into account Similarly he also proposes that neuroscience and evolutionary biology can procure advantages from a dialogue with theology
