A Culture of Conspiracy Michael Barkun, 2003 Unravelling the genealogies and permutations of conspiracist worldviews this work shows how this web of urban legends has spread among sub cultures on the Internet and through mass media and how this phenomenon relates to larger changes in American culture

Radical Transformation Imants Barušs, 2021-01-28 In Radical Transformation Imants Baru s leads the reader out of the receding materialist paradigm into an emerging post materialist landscape in which new questions present themselves If consciousness has nonlocal properties then how are boundaries between events established If consciousness directly modulates physical manifestation then what is the scope of such modulation If consciousness continues after physical death then how much interference is there from non physical entities As we face the threat of extinction on this planet is there anything in recent consciousness research that can help us Are there effective means of self transformation that can be used to enter persistent transcendent states of consciousness that could resolve existential and global crises The author leads the reader through discussions of meaning radical transformation and subtle activism revealing the unexpected interplay of consciousness and reality along the way

Culture of Conspiracy Michael Barkun, 2003-11-07 What do UFO believers Christian millennialists and right wing conspiracy theorists have in common According to Michael Barkun in this fascinating yet disturbing book quite a lot It is well known that some Americans are obsessed with conspiracies The Kennedy assassination the Oklahoma City bombing and the 2001 terrorist attacks have all generated elaborate stories of hidden plots What is far less known is the extent to which conspiracist worldviews have recently become linked in strange and unpredictable ways with other fringe notions such as a belief in UFOs Nostradamus and the Illuminati Unraveling the extraordinary genealogies and permutations of these increasingly widespread ideas Barkun shows how this web of urban legends has spread among subcultures on the Internet and through mass media how a new style of conspiracy thinking has recently arisen and how this phenomenon relates to larger changes in American culture This book written by a leading expert on the subject is the most comprehensive and authoritative examination of contemporary American conspiracism to date Barkun discusses a range of material involving inner earth caves government black helicopters alien abductions secret New World Order cabals and much more that few realize exists in our culture Looking closely at the manifestations of these ideas in a wide range of literature and source material from religious and political literature to New Age and UFO publications to popular culture phenomena such as The X Files and to websites radio programs and more Barkun finds that America is in the throes of an unrivaled period of millennial activity His book underscores the importance of understanding why this phenomenon is now spreading into

Clive Prince their discoveries tie into a dangerous conspiracy nearly fifty years in the making At the center of this conspiracy is a group of respected powerful individuals who believe that the ancient Egyptian gods are really extraterrestrials who will soon return to earth The conspirators have intimate and exclusive knowledge of this momentous second coming but they insist on keeping it to themselves What could be the purpose of such a conspiracy Why are the conspirators so desperate to keep their information a secret And what does it mean for mankind In this riveting well researched book Picknett and Price offer compelling evidence that the conspiracy exists and expose the insidious motivations of the individuals and organizations behind it *Spaceships of the Pleiades* Kal K. Korff,2010-08-05 The case of Eduard Billy Meier has gained worldwide attention for his claims of being in on going contact with aliens from the star cluster known as the Pleiades Purported to be the most documented UFO account of all time Meier s files consist of 1 000 photographs and 12 motion picture films of the visiting spacecraft Through thousands of pages of contact notes Meier claims to have passed on the wisdom and advanced technical knowledge from his conversations with these aliens designed to help guide our evolution In addition he alleges that 40 independent eyewitnesses have also seen the alien ships and observed Meier s contacts with them The aliens also left numerous landing tracks in the ground and gave Meier various rock metal mineral and crystal samples as proof of their visitations Author Kal Korff conducted the most thorough examination ever into the case of Billy Meier and all its alleged evidence and reveals here how a Swiss farmer hatched and continues to maintain the most elaborate UFO hoax in history

Histories of the Hidden God April D DeConick,Grant Adamson,2016-04-08 In Western religious traditions God is conventionally conceived as a humanlike creator lawgiver and king a being both accessible and actively present in history Yet there is a concurrent and strong tradition of a God who actively hides The two traditions have led to a tension between a God who is simultaneously accessible to humanity and yet inaccessible a God who is both immanent and transcendent present and absent Western Gnostic esoteric and mystical thinking capitalizes on the hidden and hiding God He becomes the hallmark of the mystics Gnostics sages and artists who attempt to make accessible to humans the God who is secreted away Histories of the Hidden God explores this tradition from antiquity to today The essays focus on three essential themes the concealment of the hidden God the human quest for the hidden God and revelations of the hidden God **Deny All Knowledge** David Lavery,Angela Hague,Marla Cartwright,1996-12-01 The X Files was one of the most subversive and longest running science fiction series in US television history Yet very little serious work has been done to examine the hit series Deny All Knowledge examines topics such as Why is the series such a hit worldwide Why is The X Files so popular online generating dozens of websites and chat groups daily How does The X Files Conspiracy Theory compares to shows from the 1950s Can The X Files be considered a modern day myth What does The X Files tell us about gender roles today Aliens Adored Susan J. Palmer,2004 Aliens Adored is the first full length in depth look at the Ra lian movement a fascinating new religion founded in the 1970s by the charismatic prophet Ra l Born in France as Claude Vorilhon the former race car driver founded the religion

after he experienced a visitation from the aliens the elohim who in his cosmology created humans by cloning themselves This pioneering study provides a thorough analysis of the movement focusing on issues of sexuality millenarianism and the impact of the scientific worldview on religion and the environment Ra l s radical sexual ethics his gnostic anthropocentrism and shallow ecotheology offer us a mirror through which we see how our worldview has been shaped by the forces of globalization postmodernism and secular humanism *Seeking the Compassionate Life* Carl Goldberg, Virginia

Crespo, 2004-06-30 Morality is a subject most ignored and little understood by modern psychological investigation Why a person acts honorably or heinously is one of the most puzzling and least answered questions regarding human behavior Here the authors posit that despite the fact that hatred and arrogance continually battle compassion and decency as humanity s driving force people continue to develop altruism empathy and concern for others Goldberg and Crespo demonstrate seven factors crucial to achieving a compassionate life Goldberg and Crespo take us inside their treatment rooms through history across cultures and into their own personal worlds at large to meet clients and acquaintances including a would be rapist a virtuous stalker an adulterous minister and a young boy with little more than a matchbook and some pride to call his own Together the stories of these clients and historical figures including Nazis at Nuremberg reflect a vital theme Virtuous behavior should not be a mystery Morality is a subject most ignored and little understood by modern psychological investigation Why a person acts honorably or heinously is one of the most puzzling and least answered questions regarding human behavior The authors demonstrate that although within every human breast hatred and arrogance battle compassion and decency as a driving force people do indeed develop altruism empathy and concern for others Goldberg and Crespo outline seven crucial factors in the achievement of a compassionate life This book addresses two audiences First it questions modern psychological scientists who have ignored the importance of compassion virtue and morality focusing instead on contrived experimental situations rather than pursuing investigations in as part of the actual world in which we live Yet it is also written for all people concerned with the moral crisis in contemporary society and all people seeking personal and social solutions to deal with this crisis *The Trickster and the Paranormal* George P. Hansen, 2001-08-20

Paranormal and supernatural events have been reported for millennia They have fostered history s most important cultural transformations e g via the miracles of Moses Jesus Mohammed Paranormal phenomena are frequently portrayed in the world s greatest art and literature as well as in popular TV shows and movies Most adults in the U S believe in them Yet they have a marginal place in modern culture No university departments are devoted to studying psychic phenomena In fact a panoply of scientists now aggressively denounces them These facts present a deeply puzzling situation But they become coherent after pondering the trickster figure an archaic being found worldwide in mythology and folklore The trickster governs paradox and the irrational but his messages are concealed This book draws upon theories of the trickster from anthropology folklore sociology semiotics and literary criticism It examines psychic phenomena and UFOs and explains why they are so problematical for

science **Out of Time** Steve Aspin, 2023-08-24 In Out of Time The Intergenerational Abduction Program Explored author Steve Aspin has written a crossover work about the enduring worldwide reports of alien abduction The book is intended for both those familiar with the historic published case material and the curious reader unfamiliar with the decades of serious academic research on this superficially improbable phenomenon The author details his lifelong personal experience and the relationships he built with leading researchers during 15 years of investigating this phenomenon He has at all times attempted to approach the subject with critical thoroughness and intellectual rigour From stumbling on a cattle mutilation in Ireland in 1970 to witnessing a UFO after a period of missing time at age 16 in 1972 to a confrontational experience in a Sardinia hotel in 2006 the author relates a lifetime of anomalous experiences But this is only the starting point of the journey the reader of Out of Time will make Steve then details several years of investigation into the subject and how what he has learned has shaped his thoughts on what is happening to perhaps millions of people worldwide He had the good fortune to meet with several leading researchers in the field including Budd Hopkins and Dr David Jacobs and read hundreds of published works on the subject of UFOs and abductions He has attempted to bring hard forensic evidence to the discussion and to follow that evidence where it may lead paying particular attention to the clearly intergenerational aspect of the global abduction program which he demonstrates with corroborating evidence almost certainly dates from the 1890s His conclusions will be of interest to anyone attentive to this field of study Whether inevitably proved right or wrong they stem from a conscious effort to bring objectivity and honesty to the analysis of this widely reported phenomenon Although successfully normalised in popular culture to become background noise or a minor comic footnote in otherwise busy lives this subject has real and serious implications for both the individual experiencer and human society collectively
