**Holding the Line** Clive Bush, 2009 This book comprises a selection of interdisciplinary essays in American literature and culture written by Clive Bush over some forty years They fall into four sections Classic American Literature Literary and Cultural Modernism

Literature and Politics and American Cultural Studies The topics range from literature to architecture from the history of linguistics to analyses of the commodity culture from poetry to film The essays themselves extend from American linguistics to Beat literature There is however an identifiable series of common themes and perspectives throughout The first is the question of the relation of discourse itself to the practices of power personal social and political The second is the attention paid to the particular and general historical context in which both texts and quasi texts are situated The third is that a European perspective making use of comparative texts has been used throughout The author demonstrates a commitment both to close reading and to the value judgement in the reading of texts      **The Mythmaker** Carter Wheelock, 2014-05-29

Readers who are intrigued though often mystified by the intellectual fantasies of Jorge Luis Borges will find this book a revelation a skeleton key to one of the most fundamental and baffling aspects of Borges s fictions the pattern of symbolism with an inner meaning Carter Wheelock s study reduces a number of literary and intellectual abstractions to concrete terms enabling the reader to understand Borges s fantasies in ways that show them to be not so fantastic after all Indeed they are amazingly consistent and minutely accurate in their symbolic depiction of the magic universe of the mind Wheelock also discusses the affinity between Borges s philosophical idealism and his esthetic of the intelligence the relationship between these and the esthetic ideas of French Symbolism and the influence on his fictions of the Rub i y t of Omar Khayy m Why is it that this writer s writer from the Argentine erudite allusive elusive has attracted such international attention In Wheelock s opinion it is because he has symbolized in his short stories the fundamental form of the human consciousness the functioning of the imaginative world creating mechanism and the eternal battle between form and chaos The Mythmaker is concerned with elucidating the particulars of Borges s fictional works but even as it does so it also reveals their universality

**Fictions of Sappho, 1546-1937** Joan DeJean, 1989-10-18 Considering Sappho as a creature of translation and interpretation a figment whose features have changed with social mores and aesthetics Joan DeJean constructs a fascinating history of the sexual politics of literary reception The association of Sappho with female homosexuality has made her a particularly compelling and yet problematic subject of literary speculation and in the responses of different cultures to the challenge the poet presents DeJean finds evidence of the standards imposed on female sexuality through the ages She focuses largely though not exclusively on the French tradition where the Sapphic presence is especially pervasive Tracing re creations of Sappho through translation and fiction from the mid sixteenth century to the period just prior to World War II DeJean shows how these renderings reflect the fantasies and anxieties of each writer as well as the mentalit of his or her day
