flows on development and distribute the gains from trade widely As the authors demonstrate multilateral and regional trade initiatives must provide a compelling vision of how integration can deliver broadly shared growth and prosperity if they are to succeed In addition they must use the momentum offered by trade agreements to address the links between trade on the one hand and social stability poverty reduction and growth on the other Down the Drain Chris Wood,Ralph Pentland,2013 An incisive critique of Canada s drinking water gatekeepers Canada is celebrated for its abundance of fresh water and few Canadians question the safety of the water that comes from our taps But is this trust justified One study estimates that contamination of drinking water causes 90 000 cases of illness and ninety deaths every year In this authoritative review of decades of legislation research and independent regulatory critiques accompanied by riveting stories of the many failures of our water supply award winning journalist Chris Wood and Canadian water policy expert Ralph Pentland expose how governments at every level have failed to protect our drinking water The authors review the history of water management in Canada and approaches to the problem in Europe and the United States then analyze our own approach in recent times and finally propose a strategy to protect our water including a new charter that will hold our government to account

Handbook of International Trade and Transportation Bruce A. Blonigen,Wesley W. Wilson,2018-01-26 International trade has grown rapidly over the past half century accommodated by the transportation industry through concomitant growth and technological change But while the connection between transport and trade flows is clear the academic literature often looks at these two issues separately This Handbook is unique in pulling together the key insights of each field while highlighting what we know about their intersection and ideas for future research in this relatively unexamined but growing area of study

Economic and Social Commission for Asia and the Pacific,2006 This edition of the yearly survey examines regional economic and social developments in the Asia and the Pacific region during 2005 The growth rate slowed moderately in 2005 mainly as a result of high oil prices and softening of growth in global trade For 2006 it is expected that growth maintains its current momentum providing that oil prices do not increase significantly and global external imbalances do not unwind suddenly Projects for the region would also be affected if avian influenza develops into a human pandemic Efforts are needed to ensure all benefits of high growth are passed on to the poor via good employment opportunities for all
