Revolutionary Potential Of Peasants In Latin America:

The Revolutionary Potential of Peasants in Latin America Gerrit Huizer, 1972 Fifty Years of Peasant Wars in Latin America Leigh Binford, Lesley Gill, Steve Striffler, 2020-01-10 Informed by Eric Wolf's *Peasant Wars of the Twentieth Century* published in 1969 this book examines selected peasant struggles in seven Latin American countries during the last fifty years and suggests the continuing relevance of Wolf's approach The seven case studies are preceded by an Introduction in which the editors assess the continuing relevance of Wolf's political economy The book concludes with Gavin Smith's reflection on reading Eric Wolf as a public intellectual today **Guerrillas and Revolution in Latin America** Timothy P. Wickham-Crowley, 2018-06-26 In this comparative survey of guerrilla movements in Latin America Timothy Wickham Crowley explores the origins and outcomes of rural insurgencies in nearly a dozen cases since 1956 Focusing on the personal backgrounds of the guerrillas themselves and on national social conditions the author explains why guerrillas emerged strongly in certain countries but not others He considers for example under what circumstances guerrillas acquire military strength and why they do or do not secure substantial support from the peasantry in rural areas Latin American Peasants Tom Brass, 2004-08-02 The essays in this collection examine agrarian transformation in Latin America and the role in this of peasants with particular reference to Bolivia Peru Chile Brazil and Central America Among the issues covered are the impact of globalization and neo liberal economic policies **Revolution** Rosemary H. T. O'Kane, 2000 All of the major work on the subject of revolutions is collected in this useful set Including work from seminal figures such as Hatto and Gottschalk in the 1940s as well as the most important literature all the way through 1998 the articles reprinted here consider the concept theory and causes of revolution revolutionary state building and the outcomes of revolutions case studies of great revolutions and much more **Revolution in the Terra do Sol** Sarah Sarzynski, 2018-05-29 Sarah Sarzynski's cultural history of Cold War era Brazil examines the influence of revolutionary social movements in Northeastern Brazil during the lead up to the 1964 coup that would bring the military to power for 21 years Rural social movements that unfolded in the Northeast beginning in the 1950s inspired Brazilian and international filmmakers intellectuals politicians and journalists to envision a potential social revolution in Brazil But in the wake of the Cuban Revolution the strength of rural social movements also raised fears about the threat of communism and hemispheric security Turning to sources including Cinema Novo films biographies chapbook literature and materials from U S and Brazilian government archives Sarzynski shows how representations of the Northeast depended on persistent stereotypes depicting the region as backward impoverished and violent By late March 1964 Brazilian Armed Forces faced little resistance when overthrowing democratically elected leaders in part because of the widely held belief that the violence and chaos in the backward Northeast threatened the modern Brazilian nation Sarzynski's cultural history recasts conventional narratives of the Cold War in Brazil showing how local struggles over land reform and rural workers rights were part of broader ideological debates over capitalism and communism

Third World independence and modernization on a global scale Handbook of Social Movements across Latin America Paul Almeida, Allen Cordero Ulate, 2015-07-14 This handbook covers social movement activities in Latin American countries that have had profound consequences on the political culture of the region. It examines the developments of the past twenty years such as a renewed upswing in popular mobilization, the ending of violent conflicts and military governments, new struggles and a relatively more democratic climate. It shows that from southern Chiapas to Argentina, social movements in the 1990s and especially in the 2000s have reached new heights of popular participation. There is a lack of research on the politics of this region in the contemporary era of globalization; this volume partially fills the void and offers a rich resource to students, scholars, and the general public in terms of understanding the politics of mass mobilization in the early twenty-first century. The contributors each address social movement activity in their own nation, and together they present a multidisciplinary perspective on the topic. Each chapter uses a case study design to bring out the most prominent attributes of the particular social struggle, for instance, the main protagonists in the campaigns, the grievances of the population, and the outcomes of the struggles. This Handbook is divided into seven substantive themes providing overall coherence to a broad range of social conflicts across countries, issues, and social groups. These themes include: 1. theory of Latin American social movements, 2. neoliberalism, 3. indigenous struggles, 4. women's movements, 5. movements and the State, 6. environmental movements, and 7. transnational mobilizations. *The Social Movements Reader* Jeff Goodwin, James M. Jasper, 2014-10-13 Providing a unique blend of cases, concepts, and essential readings, *The Social Movements Reader*, Third Edition, delivers key classic and contemporary articles and book selections from around the world. Includes the latest research on contemporary movements in the US and abroad, including the Arab Spring, Occupy, and the global justice movement. Provides original texts, many of them classics in the field, which have been edited for the non-technical reader. Combines the strengths of a reader and a textbook with selected readings and extensive editorial material. Sidebars offer concise definitions of key terms, as well as biographies of famous activists and chronologies of several key movements. Requires no prior knowledge about social movements or theories of social movements. *Poverty and Peasantry in Peru's Southern Andes, 1963-90* R.F. Watters, 1994-06-18 This study views the peasantry in the context of the historical experience of conquest and domination. Since the 1950s, the community of Chilca has become more mobilized and confident and increasingly affected by capitalism, urbanization, the Peruvian Revolution, and agrarian reform. **Political Attitudes in Venezuela** Enrique A. Baloyra, John D. Martz, 2014-06-23 Here is a benchmark study of voter attitudes in a Latin American country. This volume is based on extensive survey research conducted during the Venezuelan elections of 1973. The methods employed by Baloyra and Martz to poll an unpolled society successfully challenge previously established paradigms. The authors interviewed a representative sample of over 1,500 voters to determine relationships between class status, community context, religion, ideology, and partisanship on the one hand, and political attitudes and preferences on the other. They found that the

Venezuelan electorate is defined by a series of contradictory tendencies and they place their conclusions in the context of contemporary political science literature regarding class and party ideology and party and inequality and participation

Anthropology and Social Change in Rural Areas Bernardo Berdichewsky, 2011-06-01 No detailed description available for Anthropology and Social Change in Rural Areas **The Emergence of Global Maoism** Matthew Galway, 2022-03-15

The Emergence of Global Maoism examines the spread of Mao Zedong's writings ideology and institutions when they traveled outside of China Matthew Galway links Chinese Communist Party efforts to globalize Maoism to the dialectical engagement of exported Maoism by Cambodian Maoist intellectuals How do ideas manifest outside of their place of origin Galway analyzes how universal ideological systems became localized both in Mao's indigenization of Marxism Leninism and in the Communist Party of Kampuchea's indigenization of Maoism into its own revolutionary ideology By examining the intellectual

journeys of CPK leaders who during their studies in Paris in the 1950s became progressive activist intellectuals and full fledged Communists he shows that they responded to political and socioeconomic crises by speaking back to Maoism adapting it through practice without abandoning its universality Among Mao s greatest achievements the Sinification of Marxism enabled the CCP to canonize Mao s thought and export it to a progressive audience of international intellectuals These intellectuals would come to embrace the ideology as they set a course for social change The Emergence of Global Maoism illuminates the process through which China moved its goal from class revolution to a larger anticolonial project that sought to cast out European and American imperialism from Asia Politics Latin America Gavin O'Toole,2014-05-12 This is a volume which will become invaluable to those attempting to guide the neophyte through the maze of politics in Latin America Journal of Latin American Studies Politics Latin America examines the role of Latin America in the world and its importance to the study of politics with particular emphasis on the institutions and processes that exist to guarantee democracy and the forces that threaten to compromise it Now in its second edition and fully revised to reflect recent developments in the region Politics Latin America provides students and teachers with an accessible overview of the region s unique political and economic landscape covering every aspect of governance in its 21 countries The book examines the international relations of Latin American states as they seek to carve out a role in an increasingly globalised world and will be an ideal introduction for undergraduate courses in Latin American politics and comparative politics **The Socio-political Dimensions of Latin American Peasant Movements** Thomas Milton Eberhart,1981 **Promised Land** Madeleine Adriance,1995-01-01 Examines the relationship between grassroots Catholic Church groups base Christian communities and the mobilization of peasant farmers in the fight for control of Amazon lands **Exploring Revolution** Timothy P.
