Coming Home? Vol. 1 Sharif Gemie, 2014-07-18 The wars of the twentieth century uprooted people on a previously unimaginable scale to the extent that being a refugee became an increasingly widespread experience With the arrival of refugees governments of host countries had to mediate between divided national populations some wished to welcome those arriving in search of refuge others preferred a strategy of exclusion or even expulsion At the same time refugees had to manage conflicts of the self as they responded to the loss of nationhood families socio political networks material goods and arguably also a sense of belonging or home While return migration was usually perceived by governments and refugees alike as the best solution to the dilemmas of forced displacement consensus about the timing and dynamics of how this would actually occur was very difficult to achieve In practice the return of refugees to their countries of origin rarely if ever produced a wholly satisfactory outcome Conflicts clearly resulted in forced displacement but it is equally true that forced displacement created conflicts The complex inter relationship of conflict return migration and the sometimes chimerical but still compelling search for a sense of home is the central preoccupation of the contributors to the two volumes of the Coming Home series Scholars from history literature cultural studies and sociology explore the tensions between nation states and migrants as they have anticipated implemented or challenged the process of return migration during the

twentieth and twenty first centuries This book begins with Western Europe and progresses to Central and Eastern Europe from the period of the Spanish Civil War to the Cold War era whilst the second volume Coming home Vol 2 Conflict and Postcolonial Return Migration in the Context of France and North Africa shifts the focus to the colonial and post colonial framework of the French North African nexus What emerges from the two volumes of essays is that as ambiguous and sometimes ambivalent as home could appear it was nonetheless central to migrants preoccupations about returning

One Hundred Years of History of the French Communist Party Roger Martelli,Jean Vigreux,Serge Wolikow,2022-09-14 The Communist Party appeared a hundred years ago on the French political and social scene According to opinions and moments it has been the party of Moscow of those shot of the working class of the union of the left the party of the foreigner or that of the nation It has been underground in government in town halls in factories or in the streets Some considered it too revolutionary others not enough More than others it aroused passions positive or negative It attracted many and repelled just as many After the fall of the USSR it decided to remain a communist party while many others gave it up But it no longer has the place it once had in reality as in the imagination This book does not intend to judge but to provide keys to understanding It is based on a considerable number of archives that are now available and is an ordered and distanced look at an object that is not lacking in complexity and no doubt even in mystery This book has been translated from French to English thanks to a financial help from the Gabriel P ri Foundation and the LIR3S UMR Cnrs 7366 of Dijon

The book begins with the stories of soldiers who managed to evade capture in the summer of 1940 and returned home and the few that decided to continue the fight and joined the Allied forces in the United Kingdom. It also includes the prisoners of war who managed to escape from camps or Arbeitskommando inside the Reich and provides a detailed analysis of their narratives, their motivation for going on the run, their choices on when and how to travel, and the many obstacles they encountered along the way. Most escapees were content to return home with some then joining resistance organisations but a small minority were committed to joining the Allies and further chapters recount their attempts to reach Spain and Switzerland and the additional problems they encountered in those neutral states. Final chapters reflect on the penalties inflicted on prisoners of war who were recaptured and on the escapees' struggle for recognition in the post-war world.

French Absolutism: The Crucial Phase, 1620-1629 A. D. Lublinskaya, 2008-10-30 Provides a detailed analysis of the political, social, and economic history of the France of Louis XIII. *Microforms Annual*, 1986. Alcohol, Violence, and Disorder in Traditional Europe A. Lynn Martin, 2009-10-01 Traditional Europe had high levels of violence and of alcohol consumption both higher than they are in modern Western societies where studies demonstrate a link between violence and alcohol. A. Lynn Martin uses an anthropological approach to examine drinking establishments, violence, and disorder and compares the wine-producing south with the beer-drinking north and Catholic France and Italy with Protestant England and explores whether alcohol consumption can also explain the violence and disorder of traditional Europe. Both Catholic and Protestant moralists believed in the link and they condemned drunkenness and drinking establishments for causing violence and disorder. They did not advocate complete abstinence, however, for alcoholic beverages had an important role in most people's diets. Less appreciated by the moralists was alcohol's function as the ubiquitous social lubricant and the increasing importance of alehouses and taverns as centers of popular recreation. The study utilizes both quantitative and qualitative evidence from a wide variety of sources to question the beliefs of the moralists and the assumptions of modern scholars about the role of alcohol and drinking establishments in causing violence and disorder. It ends by analyzing the often conflicting regulations of local, regional, and national governments that attempted to ensure that their citizens had a reliable supply of good drink at a reasonable cost but also to control who drank what, where, when, and how. No other comparable book examines the relationship of alcohol to violence and disorder during this period. Black Spartacus Sudhir Hazareesingh, 2020-09-01 Winner of the 2021 Wolfson History Prize. *Black Spartacus* is a tour de force by far the most complete, authoritative, and persuasive biography of Toussaint that we are likely to have for a long time. An extraordinarily gripping read. David A. Bell, *The Guardian*. A new interpretation of the life of the Haitian revolutionary Toussaint Louverture. Among the defining figures of the Age of Revolution, Toussaint Louverture is the most enigmatic. Though the Haitian revolutionary's image has multiplied across the globe, appearing on banknotes and in bronze on T-shirts and in film, the only definitive portrait executed in his lifetime has been lost. Well-versed in the work of everyone from Machiavelli to Rousseau, he

was nonetheless dismissed by Thomas Jefferson as a cannibal A Caribbean acolyte of the European Enlightenment Toussaint nurtured a class of black Catholic clergymen who became one of the pillars of his rule while his supporters also believed he communicated with vodou spirits And for a leader who once summed up his modus operandi with the phrase Say little but do as much as possible he was a prolific and indefatigable correspondent famous for exhausting the five secretaries he maintained simultaneously at the height of his power in the 1790s Employing groundbreaking archival research and a keen interpretive lens Sudhir Hazareesingh restores Toussaint to his full complexity in Black Spartacus At a time when his subject has variously been reduced to little more than a one dimensional icon of liberation or criticized for his personal failings his white mistresses his early ownership of slaves his authoritarianism Hazareesingh proposes a new conception of Toussaint s understanding of himself and his role in the Atlantic world of the late eighteenth century Black Spartacus is a work of both biography and intellectual history rich with insights into Toussaint s fundamental hybridity his ability to unite European African and Caribbean traditions in the service of his revolutionary aims Hazareesingh offers a new and resonant interpretation of Toussaint s racial politics showing how he used Enlightenment ideas to argue for the equal dignity of all human beings while simultaneously insisting on his own world historical importance and the universal pertinence of blackness a message which chimed particularly powerfully among African Americans Ultimately Black Spartacus offers a vigorous argument in favor of getting back to Toussaint a call to take Haiti s founding father seriously on his own terms and to honor his role in shaping the postcolonial world to come Shortlisted for the Baillie Gifford Prize Finalist for the PEN Jacqueline Bograd Weld Award for Biography Named a best book of the year by the The Economist Times Literary Supplement New Statesman
