Craft Consciousness and Artistic Practice in Creative Writing Ben Ristow, 2022-02-10 Craft lives inside the artist and it operates in the mind not in standards or techniques Creative writers navigate thresholds in consciousness as they develop their arts practice Craft Consciousness and Artistic Practice in Creative Writing explores what it is to be an artist as it traces radical feminist and culturally embedded traditions in craft The new term craft consciousness identifies the nexus from which writers explore making processes and practitioner knowledge Writers as with all artists create and reimagine themselves anew and it is in this perpetual state of becoming that they find ways to enlarge their sense of artistry through an exploration of forms processes and mediums beyond the written word For writers this book initiates a reexamination of the mission of creative writing through disrupting patriarchal racist colonialist ableist and capitalist associations with dominant craft Drawing from twenty five interviews with living artists outside of writing and in a host of fields from conceptual art to leatherwork and dance the book shines a light on how the processes associated with craft are embodied Craft is an internalized matrix it need not be commodified for the marketplace or codified in the standards necessitated by institutions of higher education By redesigning writing workshops and MFA PhD programs through craft consciousness new potentials and collaborations emerge and it becomes more conceivable to imagine dynamic inclusive relationships between writers scientists and other artists

El-Hi Textbooks in Print, 1977 **Resources in Education**, 1979 **Seamus Heaney's American Odyssey** Edward J. O'Shea, 2022-12-30. *Seamus Heaney's American Odyssey* describes with a new archive of correspondence, interviews, and working drafts the some 40 years that Seamus Heaney spent in the United States as a teacher, lecturer, friend, and colleague, and as an active poet on the reading circuit. It is anchored by Heaney's appointments at Berkeley and Harvard, but it also follows Heaney's readings on the road at three important points in his career. It argues that Heaney was initially receptive to American poetry and culture while his career was still plastic, but as he developed more assurance and fame, he became much more critical of America as a superpower, especially in the military reaction to 9/11. This study emphasizes the heard Heaney as much as the writerly Heaney by listening in on key poetry readings at different times and to recorded but unpublished lectures on American and British poets at Harvard. It includes accounts by his creative writing students, aspiring poets who testify to his mentoring as well as modeling for them how one can be a poet in the world as he was most strikingly.
