Rewriting The Self Psychotherapy And Midrash:

Rewriting the Self, 2004-03-01 While the term midrash from the Hebrew darash searched or interpreted can refer to both legal and extralegal scriptural exegesis it most commonly refers to symbolic legends stories and parables used to make moral or ethical concepts accessible to the layman As such midrash encompasses an open ended method of exposition that often allows for the coexistence of seemingly contradictory interpretations of holy writ in a kind of dialogue with each other In *Rewriting the Self* Mordechai Rotenberg illustrates how midrashic dialogue between a person s past and present may assist in the reorganization of ostensibly contrasting conditions or positions so that by reinterpreting a failing past according to future aspirations cognitive discord may be reduced and one may begin to rehabilitate and enhance one s life Rotenberg argues that the foundations of what he calls a dialogic psychology of progress as well as a pluralistic free choice approach to psychotherapy may be identified in Judaism s midrashic metacode From a practical therapeutic perspective a teacher or therapist would no longer be an elite interpreter of a student or client s past authorized to give the only authentic analysis of that person s problems Rather he would be able to offer a variety of options both rational and emotional In *Rewriting the Self* Rotenberg demonstrates his theory with several case studies of rewriting oneself from both the Midrash and Talmud He contrasts this method with other psychotherapies This volume is the third in a trilogy the previous two *Damnation and Deviance* and *Hasidic Psychology* are also published by Transaction that seeks to present a dialogistic psychology as an alternative framework to the perspective that predominates in Western social sciences It is an original work that will be welcomed by psychotherapists social scientists and students of theology

Re-Biographing and Deviance Mordecha Rotenberg,1987 Re Biographing and Deviance examines the Jewish Midrashic model for self renewal through time In this important new study author Rotenberg questions how traditional Judaism with its contradictory notions of teshuvah repentance and of remembrance of the past allows for the contemporary Jew to maintain a healthy cognitive dialogue between past failures and future aspirations The author illustrates how the Midrashic narrative philosophy entails a psychotherapeutic system for reinterpretation of past sins into positive future oriented biographies which in turn provide fuel for Jewish vitality and its continuity between past present and future

Between Rationality and Irrationality Mordechai Rotenberg,2017-09-29 Jewish Scriptural interpretation entails a potential therapeutic bridge between the rational material and the irrational mystic in the world of psychotherapy PaRDeS as this system is known is derived from the following concepts P denotes peshat the plain interpretation of the text which translates into a rational interpretation of life R symbolizes remez hinting at a related religious concept which becomes a symbolic view of life D stands for derash the homiletic way of interpreting a text or a narrative reading of life And S represents sod or the mystery behind an idea which in psychological terms becomes a mystic understanding of life Mordechai Rotenberg believes that it is by engaging readings in a dialogue with each other as in the Jewish hermeneutic tradition the psychology underlying one s existence may be more readily understood While Rotenberg acknowledges that it is legitimate to focus on one cognitive rational or one narrative storytelling therapeutic method in the course of therapy he argues that a comprehensive theory of psychotherapy should include treatment possibilities for both rational and irrational manifestations of behavior thereby engulfing all aspects of human behavior For Rotenberg a person s life becomes the text subject to being read and interpreted If that person wishes to change his or her behavior via psychotherapy then a hermeneutic system must be employed to understand that person s life However many systems interpret a person s life according to the particular theory espoused by the therapist Rotenberg in contrast introduces a balanced theory bridging the rational and the irrational Between Rationality and Irrationality emphasizes that it is more important for a therapist to learn his client s own language than to impose his own doctrinaire interpretation This edition includes a new introduction by the author as well as an appendix explicating an original psychological interpretation of
