Rewriting English Janet Batsleer, Tony Davies, Rebecca O'Rourke, Chris Weedon, 2013-10-08 First Published in 2002 It is easy to see that we are living in a time of rapid and radical social change It is much less easy to grasp the fact that such change will inevitably affect the nature of those disciplines that both reflect our society and help to shape it Yet this is nowhere more apparent than in the central field of what may in general terms be called literary studies New Accents is intended as a positive response to the initiative offered by such a situation Each volume in the series will seek to encourage rather than resist the process of change To stretch rather than reinforce the boundaries that currently define literature and its academic study **Rewriting English** ,1985 **The Politics of the Textbook** Michael Apple, Linda Christian-Smith, 2017-09-08 The Politics of the Textbook analyzes the factors that shape production distribution and reception of school texts through original essays which emphasize the double edged quality of textbooks Textbooks are viewed as systems of moral regulation in the struggle of powerful groups to build political and cultural accord They are also regarded as the site of popular resistance around disclosing the interest underlying school knowledge and incorporating alternative traditions History of Education: Education in its social context Roy Lowe, 2000 Manliness and the Boys' Story Paper in Britain: A Cultural History, 1855-1940 K. Boyd, 2002-11-04 In this pioneering work about the precursor to the comic book Kelly Boyd traces the evolution of the boys story paper and its impact on the imaginative world of working class readers From the penny dreadful and the Boy's Own Paper to the tales of Billy Bunter and Sexton Blake this cultural form shaped ideas about gender race class and empire in response to social change This study is an important analysis of a neglected part of popular culture *English and Englishness* Brian Doyle, 2013-06-19 First published in 2002 This volume is part of the New Accent series looking at English and popular culture language policy fiction and democracy Each volume in the series will seek to encourage rather than resist the process of change to stretch rather than reinforce the boundaries that currently define literature and its academic study **American Media and Mass Culture** Donald Lazere, 1987 On subjects from Superman to rock n roll from Donald Duck to the TV news from soap operas and romance novels to the use of double speak in advertising these lively essays offer students of contemporary media a comprehensive counterstatement to the conservatism that has been ascendant since the seventies in American politics and cultural criticism Donald Lazere brings together selections from nearly forty of the most prominent marxist feminist and other leftist critics of American mass culture from a dozen academic disciplines and fields of media activism The collection will appeal to a wide range of students scholars and general readers Book Jacket Oppositional Voices Tina Kronitiris, 2014-05-22 Oppositional Voices is a study of six women writers in the late Elizabethan period who ignoring Renaissance society's injunction that women should confine themselves to religious compositions wrote and translated poetry drama and romantic fiction Tina Krontiris brings together their work including at times their voiced opposition to certain oppressive ideas and stereotypes Rather than simply glorify these voices

her study subtly probes the influence of a culture inimical to female creative activity on the writings of these women **The Routledge Companion to English Studies** Constant Leung, Brian V Street, 2014-03-14 English is now a global phenomenon no longer defined by fixed territorial cultural and social functions The Routledge Companion to English Studies provides an authoritative overview of the subject area Taking into account the changing conceptualisations of English this Companion considers both historical trajectories and contemporary perspectives whilst also showcasing the state of the art contributions made by the established scholars of the field The Routledge Companion to English Studies provides a set of broad perspectives on English as a subject of study and research highlights the importance of the link between English and other languages within the concepts of multilingualism and polylingualism investigates the use of language in communication through the medium of digital technology covering key issues such as Digital Literacies Multimodal Literacies and Games and Broadcast Language explores the role of English in education taking account of social ethnographic and global perspectives on pedagogical issues This collection of thirty four newly commissioned articles provides a comprehensive and up to date picture of the dynamic and diverse field of English Studies and will be an invaluable text for advanced students and researchers in this area The Birmingham Group Robin Harriott, 2022-10-14 The focus of this study is the collective of writers known variously as the Birmingham Group the Birmingham School or the Birmingham Proletarian Writers who were active in the City of Birmingham in the decade prior to the Second World War Their narratives chronicle the lived experience of their fellow citizens in the urban manufacturing centre which had by this time become Britain's second city Presumed guilty by association with a working class literature considered overtly propagandistic formally conservative or merely the naive emulation of bourgeois realism their narratives have in consequence suffered undue critical neglect This book repudiates such assertions by arguing that their works not only contrast markedly with other examples of working class writing produced in the 1930s but also prove themselves responsive to recent critical assessments seeking a more holistic and intersectional approach to issues of working class identity Decolonizing Tradition Karen Lawrence, 1992

Modernism and Cultural Conflict, 1880-1922 Ann L. Ardis, 2002-10-31 In *Modernism and Cultural Conflict* Ann Ardis questions commonly held views of the radical nature of literary modernism She positions the coterie of writers centred around Pound Eliot and Joyce as one among a number of groups in Britain intent on redefining the cultural work of literature at the turn of the twentieth century Ardis emphasizes the ways in which modernists secured their cultural centrality she documents their support of mainstream attitudes toward science their retreat from a supposed valuing of scandalous sexuality in the wake of Oscar Wilde's trials in 1895 and the conservative cultural and sexual politics masked by their radical formalist poetics She recovers key instances of opposition to modernist self-fashioning in British socialism and feminism of the period Ardis goes on to consider how literary modernism's rise to aesthetic prominence paved the way for the institutionalization of English studies through the devaluation of other aesthetic practices **Cultural Studies Goes To**
