Shires, 2012-08-21 This collection of essays both feminist and historical analyzes power relations between men and women in the Victorian period This volume is the first to reshape Victorian studies from the perspective of the postmodern return to history and is variously influenced by Marxism sociology anthropology and post structuralist theories of language and subjectivity It analyzes the struggle for legitimacy and recognition in Victorian institutions and the struggle over meanings in ideological representation of the gendered subject in texts Contributors cover diverse topics including Victorian ideologies of motherhood the male gaze the cult of the male child genius in narrative painting the press and Victorian women and the French Revolution discussing both well known and less familiar Victorian texts

**Love and Eugenics in the Late Nineteenth Century** Angelique Richardson, 2003 The idea of eugenics human selective breeding originated in Victorian Britain in response to the urban poor Darwin's evolutionary theory had laid the foundations for eugenics replacing paradise with primordial slime Man had not fallen from Grace but risen from the swamps And as architect of his own destiny he might rise still further Eugenics was developed by Darwin's cousin Francis Galton in the 1860s Embracing the idea of evolution eugenis argued that through the judicious control of human reproduction and the numerical increase of the middle class Britain's supremacy in the world could be maintained Born and bred among the competitive Victorian middle class eugenics was a biologicistic discourse on class Aiming at racial improvement by altering the balance of class in society it was Galton argued practical Darwinism Eugenics found its most sustained expression in fiction and the periodical press and was central to late nineteenth century ideas on social progress forming part of the debate between hereditarians and environmentalists that peaked in the closing years of the century Even Gladstone had his vital statistics measured in Galton's eugenic laboratory Among the champions of eugenics were social purity feminists and New Women writers such as George Egerton Ellice Hopkins and Sarah Grand who argued that women were naturally biologically moral and that through rational reproduction middle class women could regenerate the British imperial race The New Woman has been the subject of numerous recent critical works However the oppressive ideas that coexisted with the emancipatory theories of some New Women ideas that were supremely class conscious remain largely unexamined as the focus remains on her more progressive aspects *Love and Eugenics in the Late Nineteenth Century* recontextualizes New Woman writers demonstrating that they were as concerned with the questions of poverty sickness and health as they were with the changing role of women the issue for which they are currently generally known and celebrated Focusing on fiction and the press and drawing on the papers and published work of Galton and other eugenis Angelique Richardson reveals the cultural pervasiveness of eugenics and explores for the first time the intimate relations between early feminism and eugenics and making a radical contribution to nineteenth century studies

*Victorian Animal Dreams* Deborah Denenholz Morse, Martin A. Danahay, 2017-05-15 The Victorian period witnessed the beginning of a debate on the status of animals that

continues today This volume explicitly acknowledges the way twenty first century deliberations about animal rights and the fact of past and prospective animal extinction haunt the discussion of the Victorians obsession with animals Combining close attention to historical detail with a sophisticated analytical framework the contributors examine the various forms of human dominion over animals including imaginative possession of animals in the realms of fiction performance and the visual arts as well as physical control as manifest in hunting killing vivisection and zookeeping The diverse range of topics analyzed from a contemporary perspective makes the volume a significant contribution to Victorian studies The conclusion by Harriet Ritvo the pre eminent authority in the field of Victorian animal studies provides valuable insight into the burgeoning field of animal studies and points toward future studies of animals in the Victorian period

**Imagining Soldiers and Fathers in the Mid-Victorian Era** Susan Walton, 2017-11-30 Beginning with the premise that women s perceptions of manliness are crucial to its construction The author focuses on the life and writings of Charlotte Yonge as a prism for understanding the formulation of masculinities in the Victorian period Yonge was a prolific writer whose bestselling fiction and extensive journalism enjoyed a wide readership The author situates Yonge s work in the context of her family connections with the army showing that an interlocking of worldly and spiritual warfare was fundamental to Yonge s outlook For Yonge all good Christians are soldiers and Walton argues persuasively that the medievalised discourse of sanctified violence executed by upright moral men that is often connected with late nineteenth century Imperialism began earlier in the century and that Yonge s work was one major strand that gave it substance Of significance Yonge also endorsed missionary work which she viewed as an extension of a father s duties in the neighborhood and which was closely allied to a vigorous promotion of refashioned Tory paternalism The author s study is rich in historical context including Yonge s connections with the Tractarians the effects of industrialization and Britain s Imperial enterprises Informed by extensive archival scholarship Walton offers important insights into the contradictory messages about manhood current in the mid nineteenth century through the works of a major but undervalued Victorian author

**Victorian Crime, Madness and Sensation** Andrew Maunder, 2017-03-02 Beginning with Victoria s enthronement and an exploration of sensationalist accounts of attacks on the Queen and ending with the notorious case of a fin de si cle killer Victorian Crime Madness and Sensation throws new light on nineteenth century attitudes toward crime and deviance The essays which draw on both canonical and liminal texts examine the Victorian fascination with criminal psychology and pathology engaging with real life cases alongside fictional accounts by writers as diverse as Ainsworth Stevenson and Stoker Among the topics are shifting definitions of criminality and the ways in which discourses surrounding crime changed during the nineteenth century the literal and social criminalization of particular sex acts and the gendering of degeneration and insanity As fascinated as they were with criminality the Victorians were equally concerned with solving crime and this collection also focuses on the forces of law enforcement and nineteenth century attempts to read the criminal body as revealed in Victorian crime fiction and reportage Contributors engage with the

detective figure and his growing professionalization while examining the role of science and technology both at home and in the Empire in solving cases

**Inventing Maternity** Susan C. Greenfield, Carol Barash, 2021-10-21 Not until the eighteenth century was the image of the tender full time mother invented This image retains its power today Inventing Maternity demonstrates that despite its association with an increasingly standardized set of values motherhood remained contested terrain Drawing on feminist cultural and postcolonial theory Inventing Maternity surveys a wide range of sources medical texts political tracts religious doctrine poems novels slave narratives conduct books and cookbooks The first half of the volume covering the mid seventeenth to the late eighteenth centuries considers central debates about fetal development pregnancy breastfeeding and childbearing The second half covering the late eighteenth to the mid nineteenth centuries charts a historical shift to the regulation of reproduction as maternity is increasingly associated with infanticide population control poverty and colonial national and racial instability In her introduction Greenfield provides a historical overview of early modern interpretations of maternity She concludes with a consideration of their impact on current debates about reproductive rights and technologies child custody and the cycles of poverty

disciplines of history English literature art history and cultural studies this book identifies and assesses the principal influences on twentieth century attitudes towards the Victorians Developments in academia popular culture public history and the internet are covered in this important and stimulating collection and the final chapters anticipate future global trends in interpretations of the Victorian era making an essential volume for students of Victorian Studies Conversations in Cold Rooms Jane Long,1999 In what ways did gender influence the shape of poverty and of poor women s work in Victorian England This book explores the problem in the context of nineteenth century Northumberland examining urban and rural conditions for women poor relief debates and practices philanthropic activity working class cultures and protective intervention in women s employment **Picturing Children** MarilynR. Brown,2017-07-05 The representation of children in modern European visual culture has often been marginalized by Art History as sentimental and trivial For this reason the subject of childhood in relation to art and its production has largely been ignored Confronting this dismissal this unique collection of essays raises new and unexpected issues about the formation of childhood identity in the nineteenth century and makes a significant contribution to the development of inter disciplinary studies within this area Through a range of stimulating and insightful case studies the book charts the development of the Romantic ideal of childhood starting with Rousseau s Emile and attends to its visual social and psychological transformations during the historical period from which Freud s psychoanalytic theories eventually emerged Foremost scholars such as Anne Higonnet Carol Mavor Susan Casteras and Linda A Pollock uncover the means by which children became an important conduit for prevailing social anxieties and demonstrate that the apparently timeless images of them that proliferated at the time should be understood as complex cultural documents Over 50 illustrations enhance this rich and fascinating volume A Companion to the Victorian Novel William Baker,Kenneth Womack,2002-01-30 Victorian novels remain enormously popular today some continue to be made into films while authors such as Charles Dickens and George Eliot are firmly established in the canon and taught at all levels These works have also attracted a great deal of critical attention with much current scholarship examining the novel in relation to its historical political and cultural contexts This reference book is an introductory guide to the Victorian novel its background and its legacy Each chapter is written by an expert contributor and offers a fresh account of past current and new directions in scholarship The volume is divided into several broad sections with chapters in each section treating more specialized topics The first section looks at the emergence of the Victorian novel and its literary precursors with particular emphasis on the growth of serialization and the development of the novel of syndication The second explores significant social and cultural facets of nineteenth century British literature while the third discusses the principal features of different genres such as ghost stories the Gothic detective fiction the social problem novel and contemporary film adaptations Individual authors are examined in the fourth section while the fifth overviews various critical approaches and their application to nineteenth century fiction *The Female Sublime from Milton to Swinburne* Catherine Maxwell,2001 This

innovative study of vision gender and poetry traces Milton's mark on Shelley Tennyson Browning and Swinburne to show how the lyric male poet achieves vision at the cost of symbolic blindness and feminisation Drawing together a wide range of concerns including the use of myth the gender of the sublime the lyric fragment and the relation of pain to creativity this book is a major re-evaluation of the male poet and the making of the English poetic tradition The female sublime from Milton to Swinburne examines the feminisation of the post-Miltonic male poet not through cultural history but through a series of mythic or classical figures which include Philomela Orpheus and Sappho It recovers a disfiguring sublime imagined as an aggressive female force which feminises the male poet in an act that simultaneously deprives and energises him This book will be required reading for anyone with a serious interest in the English poetic tradition and Victorian poetry **A**

**Geography of Victorian Gothic Fiction** Robert Mighall, 2003 This is the first major full-length study of Victorian Gothic fiction Combining original readings of familiar texts with a rich store of historical sources *A Geography of Victorian Gothic Fiction* is an historicist survey of nineteenth-century Gothic writing from Dickens to Stoker Wilkie Collins to Conan Doyle through European travelogues sexological textbooks ecclesiastic histories and pamphlets on the perils of self-abuse Critics have thus far tended to concentrate on specific angles of Gothic writing gender or race or the belief that the Gothic returned at the so-called fin de siècle Robert Mighall by contrast demonstrates how the Gothic mode was active throughout the Victorian period and provides historical explanations for its development from late eighteenth-century through the Urban Gothic fictions of the mid-Victorian period the Suburban Gothic of the Sensation vogue through to the somatic horrors of Stevenson Machen Stoker and Doyle at the century's close Mighall challenges the psychological approach to Gothic fiction which currently prevails demonstrating the importance of geographical historical and discursive factors that have been largely neglected by critics and employing a variety of original sources to demonstrate the contexts of Gothic fiction and explain its development in the Victorian period **Famine and Fashion** Beth Harris, 2017-03-02 Like the figure of the

governess the seamstress occupied a unique place in the history of the nineteenth century appearing frequently in debates about women's work and education and the condition of the working classes generally in the rapidly changing capitalist marketplace Like the governess the figure of the needlewoman is ubiquitous in art fiction and journalism in the nineteenth century The fifteen articles in this book address the seamstress's appearance as a real figure in the changing economies of nineteenth-century Britain America and France and as an important cultural icon in the art and literature of the period They treat the many different types of needlewomen in the nineteenth century from skilled milliners and dressmakers some of whom owned their own businesses selling merchandise to other women forming a unique female economy to women who through reduced circumstances were forced into the lowest end of paid needlework sewing clothing at home for starvation wages like the impoverished shirt-maker in the famous Victorian poem by Thomas Hood *The Song of the Shirt* This volume assembles the work of leading American British and Canadian scholars from many different fields including art history

literary criticism gender studies labor history business history and economic history to draw together recent scholarship on needlewomen from a variety of different disciplines and methodologies *Famine and Fashion* will therefore appeal to anyone studying images of work in the nineteenth century popular and canonical nineteenth century literature the history of women's work the history of sweated labor the origins of the ready made clothing industry and early feminism **The Late Victorian Gothic** Hilary Grimes, 2016-03-03 Examining the automatic writing of the spiritualist's ances discursive technologies like the telegraph and the photograph various genres and late nineteenth century mental science this book shows the failure of writers' attempts to use technology as a way of translating the supernatural at the fin de siècle Hilary Grimes shows that both new technology and explorations into the ghostly aspects of the mind made agency problematic When notions of agency are suspended Grimes argues authorship itself becomes uncanny Grimes's study is distinct in both recognizing and crossing strict boundaries to suggest that Gothic literature itself resists categorization not only between literary periods but also between genres Treating a wide range of authors Henry James Rudyard Kipling Arthur Conan Doyle George Du Maurier Vernon Lee Mary Louisa Molesworth Sarah Grand and George Paston Grimes shows how fin de siècle works negotiate themes associated with the Victorian and Modernist periods such as psychical research mass marketing and new technologies With particular attention to texts that are not placed within the Gothic genre but which nevertheless conceal Gothic themes *The Late Victorian Gothic* demonstrates that the end of the nineteenth century produced a Gothicism specific to the period *Somnambulism, Sleepwalking and Secrets in Victorian Literature* Zainab Ayoub, 2019-06-28 Never has the role of women in society been so convoluted as the Victorian era From gracious to the grotesque repressed to the risqué it would be an understatement to suggest that the Victorian was the embodiment of all that is meant to be pure In this book the author seeks to delve deeper into the minds of characters in Victorian literature to ascertain just how unstable and universal the issues of suppression the issues of secrets have on these characters *Tennyson* Rebecca Stott, 2014-07-21 Alternative approaches have emerged which have radically altered our understanding of Tennyson's poetry and his relationship to the Victorian age This text covers the most significant areas of new work on Tennyson effectively linking feminist and gender studies with deconstructive psychoanalytic and linguistic attention The Introduction discusses ways in which orthodox critical approaches have dominated readings of Tennyson's poetry and provides a critical overview of the radical reappraisal of his work It also provides a guide to the varied ways in which these new debates have shaped and are shaping themselves with a final discussion of the future directions which Tennyson criticism is likely to take The essays chosen cover and reflect a range of modes of critical enquiry compelling in themselves
