**Rheims and the Battles for Its Possession** , 1919 The Americans in the Great War: The Second Battle of the Marne, The Battle of Saint Mihiel, The Meuse-Argonne Battlefields Various Authors, The two great German offensives of March and April both failed despite their extreme violence and the fact that the Allies were taken by surprise Neither Amiens on the Somme nor Bthune and Ypres in the north had fallen Although in the course of these two offensives not less than 152 German divisions had been thrown into battle the enemy failed to pierce the Allies front or break down their resistance During the offensive against the British front French reinforcements were brought up much sooner than the Germans expected Moreover the battles of March and April gave the Allies the decisive advantage of unity of command To Marshal Foch was entrusted the coordination of the Allied forces in the last act of the great drama which was to see the downfall of Ludendorff and Hindenburg To calm public opinion at home where the people were clamouring ever louder for that victorious peace so often promised the Germans were forced to make another attempt and it was considered necessary to act promptly while they still had numerical superiority owing to Russia s defection and win the final decision before the American intervention could make itself fully felt Before attacking the British again Ludendorff attempted to draw the French reserves southwards his plan

being to wear them down and then settle with the British alone Hence the attack of May 27 on the Aisne front which was powerfully organised on the German side owing to the great advantage they possessed in being able to bring up rapidly their heavy artillery from the Somme Moreover the ground was familiar to the enemy who likewise knew that this part of the Allies front was only weakly held The Allies reserves being insufficient to cover the entire front and considering that the German offensive might be launched against either the Lys the Somme the Oise or the Aisne fronts Foch had concentrated his forces at the vitally important points covering Paris the channel ports and other positions less easy to defend than the Chemin des Dames

**The Americans in the Great War Vol.1 (of 3) (Illustrations)** Michelin and Cie,2015-11-07

When the United States of America declared war on Germany it was not known exactly what shape their intervention would take i e if their help would be limited to aiding the Allies financially and industrially and tightening the blockade or if they would take an active part in the military operations Opinions on this point were much divided and if many were in favour of an unrestricted participation in the war others were for a more moderate programme When at the beginning of April 1917 President Wilson announced that America's help was to be unrestricted the army of the United States comprised some 9 000 officers and 200 000 men a mere drop in the ocean as numbers go in modern warfare Marshal Joffre's visit to the United States aroused great enthusiasm the Conscription Bill was promptly passed and the American War Minister Mr Baker and Marshal Joffre studied the organization and transportation to France of a powerful expeditionary force With wonderful rapidity recruits were raised regiments formed and training camps built French and British instructors co-operated heartily and pending the creation of national war factories France equipped the first American army with her famous 75mm guns 155mm howitzers machine guns etc By March 1918 the American Army had grown to more than 110 000 officers and 1 400 000 men with sixteen immense training camps besides special technical schools and up to date aviation camps When on March 28 in the name of the American people General Pershing offered to place the whole of the forces under his command at the disposal of Marshal Foch who had just been made Generalissimo of the Allied Armies part of the new American army had already landed in France and several divisions were facing the enemy on the Lorraine front Meanwhile the American Army continued to grow apace In August thirty two divisions of fighting troops besides the staffs of the non-combatant services in all more than 1 300 000 men had landed in France In October this number had swelled to 1 700 000 while more than 2 000 000 men were training in American camps The German U-boats failed to check America's gigantic effort for the New Crusade and each month 250 000 American soldiers reached France with their arms equipment and baggage It was estimated that in 1919 the American forces in the field would be numerically equal to the entire German army The victorious termination of the war prevented this formidable American army from demonstrating its full strength but that portion which took part in the fighting gave ample proof of its mettle Long before the United States declared war American Red Cross and aviation volunteers had proved the fine qualities of the American soldier The expectations of the Allies were fulfilled wherever they fought the

American expeditionary forces gave a good account of themselves We have come to kill and be killed so let s go ahead declared Generals Pershing and Bliss when on March 28 they gallantly offered to lead their troops into battle And it is a fact that their men did go ahead with a fine contempt for death *The Spectator* ,1920 A weekly review of politics literature theology and art [The Americans in the Great War - Vol I](#) Michelin Guides,2012-10-29 Volume I of III This admirable account of the part played by the American army on the Western Front is in three volumes This first volume is concerned with the Second Battle of the Marne covering the period May August 1918 and the first forty or so pages provides an historical background to the fighting supported by good clear maps and interesting photographs The rest of the book is taken up with a three day battlefield tour with a map for each day taking in Chateau Thierry Belleau Wood Soissons Fismes and all places of interest in between with an account of any actions The tour ends back in Paris [Rheims and the Battles for Its Possession ...](#) Manufacture française des pneumatiques Michelin,1919 **Bulletin ...** Grand Rapids Public Library (Grand Rapids, Mich.),1921 **Monthly Bulletin. New Series** St. Louis Public Library,1920 **The Nivelle Offensive and the Battle of the Aisne 1917** Andrew Uffindell,2015-07-31 The notorious plateau of the Chemin des Dames saw some of the heaviest fighting of the First World War Situated just 100 km north east of Paris it was the scene in 1917 of the bitterly controversial Nivelle offensive which is remembered today as one of the worst disasters in military history For battlefield tourists the Chemin des Dames is among the most fascinating sites on the entire Western Front yet until now there has never been a detailed English guide to the actions that raged there in 1917 This new book by Andrew Uffindell fills that gap as well as demolishing the many myths about the Nivelle offensive it enables readers to explore the remarkable battlefield for themselves Five tours supplemented by forty six stops at individual places of interest provide an exceptional insight into the struggle for the Chemin des Dames Illustrated with a wealth of maps and photographs this book will be essential reading for anyone interested in the First World War **Scientific American** ,1917 Monthly magazine devoted to topics of general scientific interest **Stand in the Trench, Achilles** Elizabeth Vandiver,2010-02-18 A study of the ways in which British poets of the First World War used classical literature culture and history as a source of images ideas and even phrases for their own poetry Elizabeth Vandiver offers a new perspective on that poetry and on the history of classics in British culture *The National Union Catalog, Pre-1956 Imprints* ,1977 **Reims on Fire** Thomas W. Gaehtgens,2018-07-10 As the site of royal coronations Reims cathedral was a monument to French national history and identity But after German troops bombed the cathedral during World War I it took on new meaning The French reimagined it as a martyr of civilization as the rupture between the warring states Despite a history of mutual respect the bombing of the cathedral caused all social scientific artistic and cultural ties between Germany and France to be severed for decades The resulting battle of words and images stressed the differences between German Kultur and French civilisation Artists and intelligentsia caricatured this entrenched cultural dichotomy influencing portrayals of the two nations in the international press This book explores the structure s

breadth of meaning in symbolic art historical and historical arenas including competing claims over the origins of Gothic art and architecture as national style and issues of monument preservation and restoration It highlights how vulnerable art is during war and how the destruction of national monuments can set the tone for international conflict once again a timely and pressing issue Thomas W Gaehtgens articulates how these nations began to mend their relationship in the decades after World War II starting with the courageous vision of Charles de Gaulle and Konrad Adenauer and how the cathedral of Reims was eventually transformed into a site of reconciliation and European unification
