Rhetoric For Today:

New Approaches to Rhetoric Patricia A. Sullivan, Steven R. Goldzwig, 2004 *New Approaches to Rhetoric* provides fresh perspectives on the study of rhetoric and its ability to affect change in today's society. Although traditional approaches ranging from Aristotelian to the study of rhetoric have utility for the twenty-first century communication in a complex mass-mediated postmodern age calls for new critical approaches. The contributors of this volume including James Darsey, Kathryn M. Olson, and G. Thomas Goodnight, George Cheney, Dana Cloud, and Barry Brummett explore possibilities for bridging rhetorical studies of the past with rhetorical studies of the future. The original essays invite students to join rhetorical theorists and critics in an ongoing dialogue concerning what it means to study communication in a postmodern world. Divided into three parts, *New Approaches to Rhetoric* challenges and expands the definitions, approaches, and assumptions governing rhetorical scholarship. Part I, *Rhetoric's Ethics and Values*, addresses in different ways a central question for the study of rhetoric today: How and under what conditions will moral arguments be articulated in the 21st century? Part II, *Rhetoric, Institutions, and Contexts*, features real-life case studies showing students the function of rhetoric in today's world. Part III, *Rhetoric's Cultures and Ideologies*, encourages students to examine ideological approaches to criticism and issues associated with class, race, and gender. Features of this volume: Original, never-before-published pieces by leading rhetorical theorists and critics including James Darsey, Kathryn Olson, and G. Thomas Goodnight, George Cheney, Dana Cloud, Marouf Hasian, and John M. Murphy, and Thomas R. Burkholder among others. Each part opens with a brief introduction to frame discussion for students. Topics and case studies will appeal to students and scholars, e.g., film, Disney, political keynote addresses, autobiography, labor union discourse. Barry Brummett's Conclusion speculates on what the collection suggests about rhetoric in the 21st century and offers ideas to guide students as they contemplate the future of rhetorical studies. *New Approaches to Rhetoric* is ideal for upper-level undergraduate and graduate courses in Rhetoric and in Political Communication in departments of Communication, English, and Political Science. This book is suitable for use as either a primary or supplemental course text and will be invaluable as a general reference for scholars of rhetoric, social movements, and public sphere studies. **Media Rhetoric** Samuel Mateus, 2021-04-26 This volume considers the paramount implications to persuasive communication that media brought regarding how we think, express, argue, and feel together. It is concerned with both the media practice of rhetoric activity and the rhetorical practice of media activity; it considers how the media integrated rhetorical speech and analyses how rhetoric adapted to media societies. Media and rhetoric are highly dependent on each other because to persuasively communicate today, media must also be considered. The book is about how the media alter the ways we talk, discuss, argue, and convince. It is focused on the theoretical and empirical analysis of communication technologies such as advertising and digital technologies as persuasive mechanisms and central tenets of contemporary 21st-century rhetoric. Concentrating on two of the most fundamental areas of media rhetoric: advertising and digital media, the six chapters

authored by scholars from around the world demonstrate how persuasive speech is exerted in through and by the media

The Ends of Rhetoric John B. Bender, David E. Wellbery, 1990 The discipline of rhetoric adapted through a wide range of reformulations to the specific requirements of Greek Roman Medieval and Renaissance societies dominated European education and discourse whether public or private for more than two thousand years The end of classical rhetoric's domination was brought about by a combination of social and cultural transformations that occurred between the seventeenth and nineteenth centuries Concurrent with the theory boom of recent decades rhetoric has appeared as a center of discussion in the humanities and social sciences Rhetorical inquiry as it is thought and practiced today occurs in an interdisciplinary matrix that touches on philosophy linguistics communication studies psychoanalysis cognitive science sociology anthropology and political theory Rhetoric is now an area of study without accepted certainties a territory not yet parceled into topical subdivisions a mode of discourse that adheres to no fixed protocols It is a noisy field in the cybernetic sense of the term a fertile ground for creative innovation This volume embodies the interdisciplinary character of rhetoric The essays draw on wide ranging conceptual resources and combine historical theoretical and practical points of view The contributors develop a variety of perspectives on the central concepts of rhetorical theory on the work of some of its major proponents and on the breaks and continuities of its history The spectrum of thematic concern is broad extending from the Greek polis to the multi ethnic city of modern America from Aristotle to poststructuralism from questions of figural language to problems of persuasion and interaction But a common interdisciplinary interest runs through all the essays the effort to rethink rhetoric within the contemporary epistemological situation In this sense the book opens new possibilities for research within the human sciences

A Rhetoric of Style Barry Brummett, 2008-07-07 Exploring style in a global culture In *A Rhetoric of Style* Barry Brummett illustrates how style is increasingly a global system of communication as people around the world understand what it means to dress a certain way to dance a certain way to decorate a certain way to speak a certain way He locates style at the heart of popular culture and asserts that it is the basis for social life and politics in the twenty first century Brummett sees style as a system of signification grounded largely in image aesthetics and extrarational modes of thinking He discusses three important aspects of this system its social and commercial structuring its political consequences and its role as the chief rhetorical system of the modern world He argues that aesthetics and style are merging into a major engine of the global economy and that style is becoming a way to construct individual identity as well as social and political structures of alliance and opposition It is through style that we stereotype or make assumptions about others political identities their sexuality their culture and their economic standing To facilitate theoretical and critical analysis Brummett develops a systematic rhetoric of style and then demonstrates its use through an in depth exploration of gun culture in the United States Armed with an understanding of how this rhetoric of style works methodologically students and scholars alike will have the tools to do their own analyses Written in clear and engaging prose *A Rhetoric of Style* presents a novel

discussion of the workings of style and sheds new light on a venerable and sometimes misunderstood rhetorical concept by illustrating how style is the key to constructing a rhetoric for the twenty first century **New Testament Rhetoric** Ben Witherington, 2009-01-01 Witherington provides a much needed introduction to the ancient art of persuasion and its use within the various New Testament documents More than just an exploration of the use of the ancient rhetorical tools and devices this guide introduces the reader to all that went into convincing an audience about some subject Witherington makes the case that rhetorical criticism is a more fruitful approach to the NT epistles than the oft employed approaches of literary and discourse criticism Familiarity with the art of rhetoric also helps the reader explore non epistolary genres In addition to the general introduction to rhetorical criticism the book guides readers through the many and varied uses of rhetoric in most NT documents not only telling readers about rhetoric in the NT but showing them the way it was employed This brief guide book is intended to provide the reader with an entrance into understanding the rhetorical analysis of various parts of the NT the value such studies bring for understanding what is being proclaimed and defended in the NT and how Christ is presented in ways that would be considered persuasive in antiquity from the introduction *Blumenberg's Rhetoric* DS

Mayfield, 2023-04-27 Marking the 50th anniversary of one among this philosopher's most distinguished pieces Blumenberg's *Rhetoric* proffers a decidedly diversified interaction with the essay polyvalently entitled *Anthropological Approach to the Topicality or Currency Relevance even actualitas of Rhetoric* *Anthropologische Annäherung an die Aktualität der Rhetorik* first published in 1971 Following Blumenberg's lead the contributors consider and tackle their topics rhetorically treating inter alia the variegated discourses of Phenomenology and Truthcraft of Intellectual History and Anthropology as well as the interplay of methods from a plurality of viewpoints The diachronically extensive disciplinarily diverse essays of this publication notably in the current lingua franca will facilitate and are to conduce to further scholarship with respect to Blumenberg and the art of rhetoric With contributions by Sonja Feger Simon Godart Joachim Kipper DS Mayfield Heinrich Niehues Prabsting Daniel Rudy Hiller Katrin Trstedt Alexander Waszynski Friedrich Weber Steinhaus Nicola Zambon

Native American Rhetoric Lawrence W. Gross, 2021-12-15 *Native American Rhetoric* is the first book to explore rhetorical traditions from within individual Native communities and Native languages The essays set a new standard for how rhetoric is talked about written about and taught The contributors argue that Native rhetorical practices have their own interior logic which is grounded in the morality and religion of their given traditions Once we understand the ways in which Native rhetorical practices are rooted in culture and tradition the phenomenological expression of the speech patterns becomes clear The value of Native communities and their languages is underlined throughout the essays Lawrence W Gross and the contributors successfully represent several but not all Native communities across the United States and Mexico including the Haudenosaunee Anishinaabe Choctaw Nahua Chickasaw and Chicana Tohono Oodham Navajo Apache Hupa Lower Coast Salish Koyukon Tlingit and Nez Perce *Native American Rhetoric* will be an essential resource for continued
