## **Rhetoric Of Suffering Reading The Of Job In The Eighteenth Century:**

**The Rhetoric of the Conscience in Donne, Herbert, and Vaughan** Ceri Sullivan, 2008-09-11 In the first book for over a decade to deal with the issue of conscience in metaphysical poetry Ceri Sullivan draws on theology poetics and rhetoric in detailed readings of the works of Donne Herbert and Vaughan She shows that these poets see the conscience as part theirs part God s and respond uncomfortably to failures in its workings

**The Cambridge Companion to the Eighteenth-Century Novel** John Richetti, 1996-09-05 In the past twenty years our understanding of the novel s emergence in eighteenth century Britain has drastically changed Drawing on new research in social and political history the twelve contributors to this Companion challenge and refine the traditional view of the novel s origins and purposes In various ways each seeks to show that the novel is not defined primarily by its realism of representation but by the new ideological and cultural functions it serves in the emerging modern world of print culture Sentimental and Gothic fiction and fiction by women are discussed alongside detailed readings of work by Defoe Swift Richardson Henry Fielding Sterne Smollett and Burney This multifaceted picture of the novel in its formative decades provides a comprehensive and indispensable guide for students of the eighteenth century British novel and its place within the culture of its time

**The Cambridge History of Literary Criticism: Volume 4, The Eighteenth Century** George Alexander Kennedy, 1989 This comprehensive 1997 account of eighteenth century literary criticism is now available in paperback

**Resounding the Sublime** Miranda Eva Stanyon, 2021-05-07 What does the sublime sound like Harmonious discordant noisy rustling silent Miranda Eva Stanyon rereads and resounds this crucial aesthetic category in English and German literatures of the long eighteenth century from a musical perspective and shows how sonorous sublimes lay at the heart of a central and transformative discourse For Enlightenment and Romantic era listeners the musical sublime represented a sonic encounter of the most extreme kind one that tested what humans were capable of feeling imagining thinking and therefore becoming The sublime and music have not always sung from the same hymn sheet Stanyon observes She charts an antagonistic intimacy between the two from the sublime s rise to prominence in the later seventeenth century through the upheavals associated with Kant in the late eighteenth century and their reverberations in the nineteenth Offering readings of canonical texts by Longinus Dryden Burke Klopstock Herder Coleridge De Quincey and others alongside lesser known figures she shows how the literary sublime was inextricable from musical culture from folksongs and ballads to psalmody polychoral sacred music and opera Deeply interdisciplinary Resounding the Sublime draws literature into dialogue with sound studies musicology and intellectual and cultural history to offer new perspectives on the sublime as a phenomenon which crossed media disciplines and cultures An interdisciplinary study of sound in history the book recovers varieties of the sublime crucial for understanding both the period it covers and the genealogy of modern and postmodern aesthetic discourses In resounding the sublime Stanyon reveals a phenomenon which was always already resonant The sublime emerges not only as the aesthetic of the violently

powerful a rational or unrepresentable but as a variegated discourse with competing dissonant harmonious rustling noisy and silent strains one in which music and sound illustrate deep divisions over issues of power reason and representation

*Making British Culture* David Allan, 2008-05-09 Making British Culture explores an under appreciated factor in the emergence of a recognisably British culture Specifically it examines the experiences of English readers between around 1707 and 1830 as they grappled in a variety of circumstances with the great effusion of Scottish authorship including the hard edged intellectual achievements of David Hume Adam Smith and William Robertson as well as the more accessible contributions of poets like Robert Burns and Walter Scott that distinguished the age of the Enlightenment

Theology and Literature in the Age of Johnson Melvyn New, Gerard Reedy, 2012-06-14 Theology and Literature in the Age of Johnson Resisting Secularism contains seventeen essays exploring the complex relationships between literary intentions and theological concerns of authors writing in the second half of the eighteenth century The diversity of literary forms and subjects from Fielding and Richardson to Burke and Wollstonecraft is matched by a diversity of approaches and theologies To argue that the age resisted secularism is by no means to argue that resistance was blindly doctrinal or rigidly uniform The many ways secularism could be resisted is the subject of the collection Published by University of Delaware Press Distributed worldwide by Rutgers University Press

**The Poesy of Scientia in Early Modern England** Subha Mukherji, Elizabeth L. Swann, 2024-07-12 This book explores interconnections between the modes of knowing that we now associate with the rubrics literature and science at a formative point in their early development Rather than simply tracing lines of influence it focuses on how both literary texts and natural philosophy engage with materiality language affect and form Some essays are invested in how early modern science adopts and actively experiments with rhetorical and poetic modes and expression while others emphasize a shared investment in natural philosophical topics alchemy chance or astrology for example that move among the period's observational texts and its literature highlighting the participation of literary texts in the production of experimental knowledge Organised around the broad themes of creation and transformation mediation and communication and interpretation and imaginative speculation the essays collectively probe the presumed dichotomy between science's schematizing and taxonomic ambitions and the fertile and volatile creative energies of literary texts

**The Skeptical Sublime** James Noggle, 2001-11-01 This book argues that philosophical skepticism helps define the aesthetic experience of the sublime in late seventeenth and eighteenth century British literature especially the poetry of Alexander Pope Skeptical doubt appears in the period as an astonishing force in discourse that cannot be controlled doubt's boundless Sea in Rochester's words and as such is consistently seen as affiliated with the sublime itself emerging as an important way to conceive of excessive power in rhetoric nature psychology religion and politics This view of skepticism as a force affecting discourse beyond its practitioners control links Noggle's discussion to other theoretical accounts of sublimity especially psychoanalytic and ideological ones that emphasize the sublime's activation of unconscious personal and cultural anxieties

and contradictions But because *The Skeptical Sublime* demonstrates the sublime's roots in the epistemological obsessions of Pope and his age it also grounds such theories in what is historically evident in the period's writing The skeptical sublime is a concrete primary instance of the transformation of modernity's main epistemological liability its loss of certainty into an aesthetic asset retaining however much of the unsettling irony of its origins in radical doubt By examining the cultural function of such persistent instability this book seeks to clarify the aesthetic ideology of major writers like Pope Swift Dryden and Rochester among others who have been seen sometimes confusingly as both reactionary and supportive of the liberal Whig model of taste and civil society increasingly dominant in the period While they participate in the construction of proto-aesthetic categories like the sublime to stabilize British culture after decades of civil war and revolution their appreciation of the skepticism maintained by these means of stabilization helps them express ambivalence about the emerging social order and distinguishes their views from the more providentially assured appeals to the sublime of their ideological opponents

**Queen Anne and the Arts** Cedric D. Reverand II, 2014-12-18 The cultural highlights of the reign of Queen Anne 1702-1714 have long been overlooked However recent scholarship including the present volume is demonstrating that Anne has been seriously underestimated both as a person and as a monarch and that there was much cultural activity of note in what might be called an interim period coming after the deaths of Dryden and Purcell but before the blossoming of Pope and Handel after the glories of Baroque architecture but before the triumph of Burlingtonian neoclassicism The authors of *Queen Anne and the Arts* make a case for Anne's reign as a time of experimentation and considerable accomplishment in new genres some of which developed some of which faded away The volume includes essays on the music drama poetry quasi-operas political pamphlets and architecture as well as on newer genres such as coin and medal collecting hymns and poetical miscellanies all produced during Anne's reign

*The Anthropology of the Enlightenment* Larry Wolff, Marco Cipolloni, 2007-09-04 The modern enterprise of anthropology with all of its important implications for cross-cultural perceptions perspectives and self-consciousness emerged from the eighteenth-century intellectual context of the Enlightenment If the Renaissance discovered perspective in art it was the Enlightenment that articulated and explored the problem of perspective in viewing history culture and society If the Renaissance was the age of oceanic discovery most dramatically the discovery of the New World of America the critical reflections of the Enlightenment brought about an intellectual rediscovery of the New World and thus laid the foundations for modern anthropology The contributions that constitute this book present the multiple anthropological facets of the Enlightenment and suggest that the character of its intellectual engagements acknowledging global diversity interpreting human societies and bridging cultural difference must be understood as a whole to be fundamentally anthropological

*Rituals of Spontaneity* Lori Branch, 2006 Winner of the Book of the Year Award for the Conference on Christianity and Literature Thomas H. Luxon Dartmouth College CHOICE

*Poor Tom* Simon Palfrey, 2014-09-10 King Lear is perhaps the most fierce and moving play ever written And yet there is a

curious puzzle at its center The figure to whom Shakespeare gives more lines than anyone except the king Edgar has often seemed little more than a blank ignored and unloved a belated moralizer who try as he may can never truly speak to the play's savaged heart He saves his blinded father from suicide but even this act of care is shadowed by suspicions of evasiveness and bad faith In Poor Tom Simon Palfrey asks us to go beyond any such received understandings and thus to experience King Lear as never before He argues that the part of Edgar is Shakespeare's most radical experiment in characterization and his most exhaustive model of both human and theatrical possibility The key to the Edgar character is that he spends most of the play disguised much of it as Poor Tom of Bedlam and his disguises come to uncanny life The Edgar role is always more than one person it animates multitudes past and present and future and gives life to states of being beyond the normal reach of the senses undead or not yet or ghostly or possible rather than actual And because the Edgar role both connects and retunes all of the figures and scenes in King Lear close attention to this particular part can shine stunning new light on how the whole play works The ultimate message of Palfrey's bravura analysis is the same for readers or actors or audiences as it is for the characters in the play see and listen feelingly pay attention especially when it seems as though there is nothing there

Atonement and Self-Sacrifice in Nineteenth-Century Narrative Jan-Melissa Schramm, 2012-06-21 This book explores the tensions raised by ideas of sacrifice in literature at a time of significant legal and theological change

The Death of Scripture and the Rise of Biblical Studies Michael C. Legaspi, 2010-04-19 The Death of Scripture and the Rise of Biblical Studies examines the creation of the academic Bible Beginning with the fragmentation of biblical interpretation in the centuries after the Reformation Michael Legaspi shows how the weakening of scriptural authority in the Western churches altered the role of biblical interpretation Focusing on renowned German scholar Johann David Michaelis 1717-1791 Legaspi explores the ways in which critics reconceived the role of the Bible This book offers a new account of the origins of biblical studies illuminating the relation of the Bible to churchly readers theological interpreters academic critics and people in between It explains why in an age of religious resurgence modern biblical criticism may no longer be in a position to serve as the Bible's disciplinary gatekeeper

Shipwreck in Art and Literature Carl Thompson, 2014-05-09 Tales of shipwreck have always fascinated audiences and as a result there is a rich literature of suffering at sea and an equally rich tradition of visual art depicting this theme Exploring the shifting semiotics and symbolism of shipwreck the interdisciplinary essays in this volume provide a history of a major literary and artistic motif as they consider how depictions have varied over time and across genres and cultures Simultaneously they explore the imaginative potential of shipwreck as they consider the many meanings that have historically attached to maritime disaster and suffering at sea Spanning both popular and high culture and addressing a range of political spiritual aesthetic and environmental concerns this cross cultural comparative study sheds new light on changing attitudes to the sea especially in the West In particular it foregrounds the role played by the maritime in the emergence of Western modernity and so will appeal not only to those interested in literature and art but also

to scholars in history geography international relations and postcolonial studies      **The Fringes of Belief** Sarah Ellen Zweig, 2008-09-25 *The Fringes of Belief* is the first literary study of freethinking and religious skepticism in the English Enlightenment Ellen Zweig aims to redress this scholarly lacuna arguing that a literature of English freethinking has been overlooked because it unexpectedly supported aspects of institutional religion Analyzing works by John Wilmot Earl of Rochester Aphra Behn Jonathan Swift and Alexander Pope she foregrounds a strand of the English freethinking tradition that was suspicious of revealed religion yet often strongly opposed to the open denigration of Anglican Christianity and its laws By exposing the contradictory and volatile status of categories like belief and doubt this book participates in the larger argument in Enlightenment studies as well as in current scholarship on the condition of modernity more generally that religion is not so simply left behind in the shift from the pre modern to the modern world      Conflicts Liron Mor, 2024-01-02 Liron Mor's book queries what conflict means in the context of Palestine Israel Conflict has long been seen as singular and primary as an original sin that necessitates the state and underwrites politics This book problematizes this universal notion of conflict revealing its colonial implications and proposing that conflicts are always politically constructed after the fact and are thus to be understood in their various specific forms The book explores sites of poetic and political strife in Palestine Israel by combining a comparative study of Hebrew and Arabic literature with political and literary theory Mor leverages an archive that ranges from the 1930s to the present from prose and poetry to film and television to challenge the conception of the Palestinian Israeli context as a conflict delineating the colonial history of this concept and showing its inadequacy to Palestine Israel Instead Mor articulates locally specific modes of theorizing the antagonisms and mediations colonial technologies and anticolonial practices that make up the fabric of this site The book thus offers five figurative conflictual concepts that are derived from the poetics of the works conflict judgment ishtib k leva im disorienting dilemmas ikhtif anti colonial disappearance o mediating law and inqis m hostile severance In so doing *Conflicts* aims to generate a historically and geographically situated mode of theory making which defies the separation between the conceptual and the poetic

**Samuel Richardson and the theory of tragedy** James Smith, 2015-04-29 Samuel Richardson and the theory of tragedy is a bold new interpretation of one of the greatest European novels Samuel Richardson's *Clarissa* It argues that this text needs to be rethought as a dangerous exploration of the ethics of tragedy on the scale of the great arguments of post Romantic tragic theory from Holderlin to Nietzsche to Benjamin Lacan and beyond Taking the reader through the novel from beginning to end it also acts as a guidebook for newcomers to Richardson's notoriously massive text and situates it alongside Richardson's other works and the epistolary novel form in general Filled with innovative close readings that will provoke scholars students and general readers of the novel alike it will also serve as a jumping off point for anyone interested in the way the theory of tragedy continues to be the privileged meeting point between literature and philosophy      *Cruel Delight* James A. Steintrager, 2004 *Cruel Investigation* investigates the fascination with joyful malice in 18th century Europe and how

this obsession helped inform the very meaning of humanity James A Steintrager reveals how the understanding of cruelty moved from an inexplicable apparently paradoxical inhuman pleasure in the misfortune of others to an eminently human trait stemming from will and freedom     *Pleasure and Guilt on the Grand Tour* Chloe Chard,1999 This work examines the forms of language that map out Italy as an imaginative topography of pleasure within British and French travel writing over the period 1600 to 1830 It considers the tour with reference to strategies of description and themes
