Rhetoric And Reality:

Rhetoric and Reality James A. Berlin, 1987-02-26 Berlin here continues his unique history of American college composition begun in his *Writing Instruction in Nineteenth Century Colleges* 1984 turning now to the twentieth century In discussing the variety of rhetorics that have been used in writing classrooms Berlin introduces a taxonomy made up of three categories objective rhetorics subjective rhetorics and transactional rhetorics which are distinguished by the epistemology on which each is based He makes clear that these categories are not tied to a chronology but instead are to be found in the English department in one form or another during each decade of the century His historical treatment includes an examination of the formation of the English department the founding of the NCTE and its role in writing instruction the training of teachers of writing the effects of progressive education on writing instruction the General Education Movement the appearance of the CCCC the impact of Sputnik and today's literacy crisis *Rhetoric as Reality Construction* Charles W. Rhetoric and Reality in Plato's "Phaedrus" David A. White, 1993-01-01 The *Phaedrus* is well known for the splendid mythical panorama Socrates develops in his second speech and for its graphic descriptions of erotic behavior This book shows how the details of the myth and the accounts of interaction between lovers are based on a carefully articulated metaphysical structure It follows the dialogue as narrated showing how passages that may not appear relevant to metaphysics have been deployed to heighten the vision of reality that Socrates develops in his second speech and concludes with an Epilogue in which the metaphysical principles adumbrated in the dialogue are ordered and briefly developed This Epilogue helps illustrate the continuity between the *Phaedrus* and subsequent dialogues such as the *Parmenides* *Sophist* *Statesman* and *Philebus* in which methodological and metaphysical concerns are dominant for Plato As a result new connections emerge between the metaphysical domain in Plato's thought and the more visible and vibrant areas of the psychology of eros and practical rhetoric Back cover
