## **Rhetorical Democracy:**

The Rhetorical Rise and Demise of "Democracy" in Russian Political Discourse, Volume 3 David Cratis Williams, Marilyn J. Young, Michael K. Launer, 2024-02-20 In Volume Three of this four volume series we examine the rhetorical development that occurred during the first two terms of Vladimir Putin's tenure as president of the Russian Federation Initially Putin appeared to follow in the path set by his predecessor Boris Yeltsin vowing that Russia was at heart a European nation and would be a westward facing democracy going forward He even mentioned partnering with the EU and NATO Eight years later at the 2007 Munich Security Conference Putin excoriated the West for in his words attempting to create a unipolar world in which NATO expansion threatened Russia's security the United States acted as the world's sole hegemon and Europe simply followed orders relinquishing any sense of agency in its own affairs *Rhetorical Democracy* Robert Danisch, 2024-10-08 *Rhetorical Democracy* How Communication Shapes Political Culture offers an explanation and diagnosis of the current state of American democracy rooted in the American pragmatist tradition Robert Danisch analyzes the characteristics of communication systems and communication practices that inhibit or enhance democratic life In doing so this book provides a detailed explanation of the ways in which the communication systems and practices that constitute democratic life are currently fostering polarization and how they might be made to foster cooperation Scholars of communication rhetorical studies political science and media studies will find this book of particular interest **Rhetorical Democracy** Gerard Hauser, Amy Grim, 2004-07-16 This collection presents theoretical critical applied and pedagogical questions and cases of publics and public spheres examining these contexts as sources and sites of civic engagement Reflecting the current state of rhetorical theory and research the contributions arise from the 2002 conference proceedings of the Rhetoric Society of America RSA The collected essays bring together rhetoricians of different intellectual stripes in a multi traditional conversation about rhetoric's place in a democracy In addition to the wide variety of topics presented at the RSA conference the volume also includes the papers from the President's Panel which addressed the rhetoric surrounding September 11 2001 and its aftermath Other topics include the rhetorics of cyberpolitical culture race citizenship globalization the environment new media public memory and more This volume makes a singular contribution toward improving the understanding of rhetoric's role in civic engagement and public discourse and will serve scholars and students in rhetoric political studies and cultural studies **Post-9/11 American Presidential Rhetoric** Colleen Elizabeth Kelley, 2008-01-01 *Post 9 11 American Presidential Rhetoric* examines the communication offensive orchestrated by George W Bush and the members of his administration between the initial terrorism crisis of September 11 2001 and the March 20 2003 invasion of Iraq Colleen Elizabeth Kelley argues that the president relied on a set of particular strategies that coalesced into protofascist talk in order to discursively manage the post 9 11 situation and justify its 2003 war against Iraq This book suggests a framework for analyzing emergent fascist public discourse and its potential for producing additional substantial

antidemocratic speech and action Kelley further reviews the role of the media in conveying President Bush's rhetorical doctrine to the American public The rhetoric of democratic discourse is presented as a firewall to guarantee that such speech based behaviors which are endorsed by willing publics and developed within democracies fail to thrive and do not destroy the very systems that enabled them in the first place Post 9/11 American Presidential Rhetoric is a stimulating text that will strike up discussion among scholars of political communication and those interested in cultural studies The SAGE Handbook of Rhetorical Studies Andrea A. Lunsford, Kirt H. Wilson, Rosa A. Eberly, 2008-10-29 The SAGE Handbook of Rhetorical Studies surveys the latest advances in rhetorical scholarship synthesizing theories and practices across major areas of study in the field and pointing the way for future studies Edited by Andrea A Lunsford and Associate Editors Kirt H Wilson and Rosa A Eberly the Handbook aims to introduce a new generation of students to rhetorical study and provide a deeply informed and ready resource for scholars currently working in the field Key Features Brings together scholars from across the disciplines of Speech Communication English and Writing Studies While rhetoric is by definition interdisciplinary self identified scholars in the field are most often institutionally separated from one another This Handbook bridges this divide by providing a refreshing range of transdisciplinary views on the nature status definition and scope of rhetoric today Offers a thorough going overview of rhetorical studies today Organized in four sections Historical Studies in Rhetoric Rhetoric Across the Disciplines Rhetoric and Pedagogy and Rhetoric and Public Discourse the volume provides a single resource for engaging rhetorical studies Underscores the importance of rhetoric to education across a wide range of disciplines as well as to effective participation in public arenas Thus the volume connects rhetoric's long teaching tradition to an activist agenda for informed civic engagement Addresses methodological and theoretical difficulties and offers means of negotiating them Provides one of the first introductions to rhetorical studies across cultures and to the related debates concerning comparative and contrastive rhetorics Rhetorical Democracy Robert Danisch, 2024-10-15 Rhetorical Democracy How Communication Shapes Political Culture offers an explanation and diagnosis of the current state of American democracy rooted in the American pragmatist tradition Robert Danisch analyzes the characteristics of communication systems and communication practices that inhibit or enhance democratic life In doing so this book provides a detailed explanation of the ways in which the communication systems and practices that constitute democratic life are currently fostering polarization and how they might be made to foster cooperation Scholars of communication rhetorical studies political science and media studies will find this book of particular interest *Homeless Advocacy and the Rhetorical Construction of the Civic Home* Melanie Loehwing, 2018-10-04 Homeless assistance has frequently adhered to the three hots and a cot model which prioritizes immediate material needs but may fail to address the political and social exclusion of people experiencing homelessness In this study Loehwing reconsiders typical characterizations of homelessness citizenship and democratic community through unconventional approaches to homeless advocacy and assistance While conventional

homeless advocacy rhetoric establishes the urgency of homeless suffering it also implicitly invites housed publics to understand homelessness as a state of abnormality that destines the individuals suffering it to life outside the civic body In contrast Loehwing focuses on atypical models of homeless advocacy the meal sharing initiatives of Food Not Bombs the international competition of the Homeless World Cup and the annual Homeless Persons Memorial Day campaign She argues that these modes of unconventional homeless advocacy provide rhetorical exemplars of a type of inclusive and empowering civic discourse that is missing from conventional homeless advocacy and may be indispensable for overcoming homeless marginalization and exclusion in contemporary democratic culture Loehwing's interrogation of homeless advocacy rhetorics demonstrates how discursive practices shape democratic culture and how they may provide a potential civic remedy to the harms of disenfranchisement discrimination and displacement This book will be welcomed by scholars whose work focuses on the intersections of democratic theory and rhetorical and civic studies as well as by homelessness advocacy groups

**Politics and Rhetoric** James Martin, 2013-10-08 Rhetoric is the art of speech and persuasion the study of argument and in Classical times an essential component in the education of the citizen For rhetoricians politics is a skill to be performed and not merely observed Yet in modern democracies we often suspect political speech of malign intent and remain uncertain how properly to interpret and evaluate it Public arguments are easily dismissed as mere rhetoric rather than engaged critically with citizens encouraged to be passive consumers of a media spectacle rather than active participants in a political dialogue This volume provides a clear and instructive introduction to the skills of the rhetorical arts It surveys critically the place of rhetoric in contemporary public life and assesses its virtues as a tool of political theory Questions about power and identity in the practices of political communication remain central to the rhetorical tradition how do we know that we are not being manipulated by those who seek to persuade us Only a grasp of the techniques of rhetoric and an understanding of how they manifest themselves in contemporary politics argues the author can guide us in answering these perennial questions **Politics and Rhetoric** draws together in a comprehensive and highly accessible way relevant ideas from discourse analysis classical rhetoric updated to a modern setting relevant issues in contemporary political theory and numerous carefully chosen examples and issues from current politics It will be essential reading for all students of politics and political communications

**Rhetorical Citizenship and Public Deliberation** Christian Kock, Lisa S. Villadsen, 2012 A collection of essays examining citizenship as a discursive phenomenon in the sense that important civic functions take place in deliberation among citizens and that discourse is not prefatory to real action but in many ways constitutive of civic engagement Provided by publisher

**Essays in Critical, Contemporary, and Philosophical Rhetoric** Raymie E. McKerrow, 2024-10-24 This text is a representative sample of my research focus in contemporary rhetoric since the mid 1970s It highlights work that explores themes expressed in the text's title While not an exhaustive account of the themes the text provides easy access to theoretical issues in rhetorical studies These include topics such as the role of culture citizenship

how space and time interact to affect the words we use and the impulse to use language in critiquing the expressions of others The collection is designed to be used by faculty teaching upper level undergraduate to doctoral level courses in rhetoric at colleges and universities in the USA It also will be a resource at universities across the globe The goal is to stimulate thought and provoke critical responses to the ideas and arguments contained in the essays Thus this is a text to be used to assist scholars and students as they engage in their own work

### **Inventing the Potential of Rhetorical Culture**

Erik Doxtader,2009-01-01 Examines Thomas Farrell s provocative defense of rhetoric and argues for the contemporary importance of rhetorical theory and practice Provided by publisher

Flam,2016-02-05 This collection is concerned with two fundamental concepts of social science power and emotion Power permeates all human relationships and is constitutive of social economic and political life It stands at the centre of social and political theorizing and its study has enriched scholarship within a wide range of disciplines including sociology political science philosophy and anthropology The conceptual cluster of emotion by contrast had a more troubled time within these same disciplines However since the 1970 s and the advent of the emotional turn there has been a widespread re evaluation of emotion in and for our shared social existence and today emotions research is at forefront of contemporary social science Yet although both concepts are now widely seen as fundamental research on these two phenomena has tended to run in parallel This collection featuring leading international scholars seeks to unite and deploy both concepts emotion and power in a variety of ways and on a diverse array of topics such as education organizations social movements politics old and new media rhetoric and in comparative intellectual history The results are at the bleeding edge of scholarship on these concepts and will make important reading for practitioners and students working in the sociology of emotions social and political power political sociology organization studies and for sociological and political theory more generally This book was published as a special issue of the Journal of Political Power

The Rhetoric of the New Political Documentary Thomas W Benson,Brian J Snee,2008-05-23 The Rhetoric of the New Political Documentary explores the most visible and volatile element in the 2004 presidential campaign the partisan documentary film This collection of original critical essays by leading scholars and critics including Shawn J and Trevor Parry Giles Jennifer L Borda and Martin J Medhurst analyzes a selection of political documentaries that appeared during the 2004 election season The editors examine the new political documentary with the tools of rhetorical criticism combining close textual analysis with a consideration of the historical context and the production and reception of the films The essays address the distinctive rhetoric of the new political documentary with the films typically having been shot with relatively low budgets in video and using interviews and stock footage rather than observation of uncontrolled behavior The quality was often good enough and interest was sufficiently intense that the films were shown in theaters and on television which provided legitimacy and visibility before they were released soon afterwards on DVD and VHS and marketed on the Internet The volume reviews such films as Michael Moore s Fahrenheit 9 11 two refutations of

Moore's film *Fahrenheit 9/11* and *Celsius 41.11* Unprecedented The 2000 Presidential Election and George W. Bush Faith in the White House films that experimented with a variety of angles and rhetorics from a mix of comic disparagement and earnest confrontation to various emulations of traditional news and documentary voices The Rhetoric of the New Political Documentary represents the continued transformation of American political discourse in a partisan and contentious time and showcases the independent voices and the political power brokers that struggled to find new ways to debate the status quo and employ surrogate independents to create a counterrhetoric **Five Chapters on Rhetoric** Michael Shalom

American culture **Modern Rhetoric in Culture, Arts, and Media** Joachim Knape, 2012-12-19 The goal of this book is to formulate a modern theoretical approach for rhetorical studies in a variety of disciplines in the humanities media research and other cultural studies The discipline of rhetoric originally concerned itself with linguistic forms of communication and its basic theory was developed with such cases in mind With respect to this ancient tradition there are numerous books that provide a historical overview of the field There is also a wide array of introductory works and research contributions that deal with the practice of political rhetoric On the other hand only a few 20th century academics have attempted to theoretically rehabilitate rhetoric after its decline as an academic discipline in Europe in the 18th and 19th centuries and to give rhetorical theory a modern new and further reaching perspective Two notable examples have been Kenneth Burke and Brian Vickers The book begins with the assumption that rhetoric is not merely limited to linguistic action but rather is present everywhere in the communicative world Against this background this work develops a modern theory of rhetoric and demonstrates in twelve chapters how methodical rhetorical analysis can be done in selected practical fields of application Literature Music Images and Film *A Philosophical Commentary on the Politics of Aristotle* Peter L. Phillips

Simpson, 2000-11-09 The Politics Aristotle's classic work on the nature of political community has been a touchstone of Western debates about society and government In this volume Peter Simpson presents a complete philosophical commentary on the Politics an analysis of the logical structure of the entire text and each of its constitutive arguments and conclusions Unlike other contemporary works on the Politics Simpson's philosophical commentary is not save incidentally a discussion of

philological and historical questions a speculative elaboration of Aristotle's arguments or a comparison of the philosopher's ideas with those of other ancient and modern theorists Such treatments argues Simpson must be grounded in a thorough understanding of the philosophical content of the work a point that underscores the need for this thorough and accurate analysis Keyed to the ancient Greek text as well as to Simpson's own innovative translation of it UNC Press 1997 this book will stand as a valuable commentary on the philosophical argument in the *Politics* and will serve as a sound basis for future study of Aristotle's political thought
