Medhurst, Thomas W. Benson, 1995-11 Media and Communication Research Arthur Asa Berger, 2000-03-21 In this book Arthur Asa Berger combines a practical focus the use of numerous examples a step by step approach and humour to examine both qualitative and quantitative research methods in media and communication research **Rhetoric and Philosophy** Richard A. Cherwitz, Henry W. Johnstone Jr., 2014-06-03 This important volume explores alternative ways in which those involved in the field of speech communication have attempted to find a philosophical grounding for rhetoric Recognizing that rhetoric can be supported in a wide variety of ways this text examines eight different philosophies of rhetoric realism relativism rationalism idealism materialism existentialism deconstructionism and pragmatism The value of this book lies in its pluralistic and comparative approach to rhetorical theory Although rhetoric may be the more difficult road to philosophy the fact that it is being traversed by a group of authors largely from speech communication demonstrates important growth in this field Ultimately there is recognition that if different thinkers can have solid reasons to adhere to disparate philosophies serious communication problems can be eliminated Rhetoric and Philosophy will assist scholars in choosing from among the many philosophical starting places for rhetoric **The Media and Terrorism** Duncan Mainye Omanga, 2016 The editorial cartoon perhaps one the most enduring features of the African newspaper carries perception of a less cerebral form of journalism consigned to laughter and flippancy However editorial cartoons effectiveness goes beyond laughter This book not only responds to the call for a broader debate on media and terrorism but also examines how editorial cartoons in Kenya between 1998 and 2008 contributed to the discursive construction of terrorism and the so called war on terror Drawing from events surrounding major terror attacks at the high noon of al Qaida terrorism this book highlights how editorial cartoons in Kenya provided insights into the vicissitudes that characterized terrorism and its war Dissertation Series Contributions to African Research Beitrage zur Afrikaforschung Vol 67 Subject Politics Media Studies African Studies **The Hero and the Perennial Journey Home in American Film** Susan Mackey-Kallis, 2010-08-03 In contemporary America myths find expression primarily in film What s more many of the highest grossing American movies of the past several decades have

been rooted in one of the most fundamental mythic narratives the hero quest Why is the hero quest so persistently renewed and retold In what ways does this universal myth manifest itself in American cinema And what is the significance of the popularity of these modern myths The Hero and the Perennial Journey Home in American Film by Susan Mackey Kallis is an exploration of the appeal of films that recreate and reinterpret this mythic structure She closely analyzes such films as E T the Star Wars trilogy It s a Wonderful Life The Wizard of Oz The Lion King Field of Dreams The Piano Thelma and Louise and 2001 A Space Odyssey Elements of the quest mythology made popular by Joseph Campbell Homer s Odyssey the perennial philosophy of Aldous Huxley and Jungian psychology all contribute to the compelling interpretive framework in which Mackey Kallis crafts her study She argues that the purpose of the hero quest is not limited to the discovery of some boon or Holy Grail but also involves finding oneself and finding a home in the universe The home that is sought is simultaneously the literal home from which the hero sets out and the terminus of the personal growth he or she undergoes during the journey back Thus the quest Mackey Kallis asserts is an outward journey into the world of action and events which eventually requires a journey inward if the hero is to grow and ultimately necessitates a journey homeward if the hero is to understand the grail and share it with the culture at large Finally she examines the value of mythic criticism and addresses questions about myth currently being debated in the field of communication studies

Century Communication: A Reference Handbook William F. Eadie, 2009-05-15 The discipline of communication has grown in popularity from the time professors of journalism and speech decided in the mid 1960s that the term communication was an excellent general descriptor for the theory and research that each group aspired to create Over time the two groups grew closer and recognized significant overlap in their theoretical and research interests but there were also differences in their traditions that kept them apart While both groups agreed that communication is a practical discipline journalism professors focused a great deal of their attention on the education of media professionals Speech professors on the other hand often were more oriented to the liberal arts and valued the fact that communication could be approached from a variety of traditions including the arts humanities social sciences and even the sciences A key term in 21st Century communication however is convergence Not only are media and technology converging with each other to produce new means of communicating but individuals are increasingly using both new and existing communication tools to create new forms of communication This convergence forces the various camps within the communication discipline to draw upon each other's theories and research methods to keep up with explaining the rapidly changing communication environment This convergence of ideas and theories provides a space to challenge conventional ways of thinking about the communication discipline and that's the goal of the SAGE 21st Century Reference Series volumes on Communication General Editor William F Eadie has sought to honor the diversity of the study of communication but also integrate that diversity into a coherent form dividing communication study into four basic properties 1 processes 2 forms and types of communication 3 characteristics to consider in creating messages and 4 relationships between communicators Via 100 chapters this 2 volume set available in both print and electronic formats highlights the most important topics issues questions and debates any student obtaining a degree in the field of communication ought to have mastered for effectiveness in the 21st Century The purpose is to provide

A Feeling of Wrongness Joseph Packer,Ethan Stoneman,2018-11-01 In A Feeling of Wrongness Joseph Packer and Ethan Stoneman confront the rhetorical challenge inherent in the concept of pessimism by analyzing how it is represented in an eclectic range of texts on the fringes of popular culture from adult animated cartoons to speculative fiction Packer and Stoneman explore how narratives such as True Detective Rick and Morty Final Fantasy VII Lovecraftian weird fiction and the pop ideology of transhumanism are better suited to communicate pessimistic affect to their fans than most carefully argued philosophical treatises and polemics They show how these popular nondiscursive texts successfully circumvent the typical defenses against pessimism identified by Peter Wessel Zapffe as distraction isolation anchoring and sublimation They twist genres upend common tropes and disturb conventional narrative structures in a way that catches their audience off guard resulting in belief without cognition a more rhetorically effective form of pessimism than philosophical pessimism While philosophers and polemicists argue for pessimism in accord with the inherently optimistic structures of expressive thought or rhetoric Packer and Stoneman show how popular texts are able to communicate their pessimism in ways that are paradoxically freed from the restrictive tools of optimism A Feeling of Wrongness thus presents uncharted rhetorical possibilities for narrative making visible the rhetorical efficacy of alternate ways and means of persuasion

American Public Address Martin J. Medhurst, 2020-08-26 This volume traces the historical evolution of American academic thought concerning public address what it is how it ought to be studied and what can be learned by engaging rhetorical texts in an analytical fashion To begin one must distinguish among three separate but interrelated uses of the term public address as practice theory and criticism The essays in this volume represent landmarks in the literal sense of that term they are marks on the intellectual landscape that indicate where scholars and ideas have passed and in that passing left a mark for future generations It is appropriate to revisit the landmarks that have set public address off as a field of study and it allows readers to remember the struggles that have led to the current situation Most of the authors of the following chapters are deceased but their ideas live on transformed adapted modified rejected and reborn The scholarly dialectic continues What constitutes a study in public address how best to approach rhetorical texts which analytical tools are required for the job how best to balance text with context and what role ought theory to play in the conduct or outcome of critical inquiry these questions live on To answer them at all is to engender debate and that is how it should be if the intellectual vitality of public address is to be maintained The papers are a prolegomenon to such studies for they mark where scholars have been and point the way to where they still must go *Documentary Dilemmas* Carolyn Anderson, Thomas W Benson, 1991-04-25 A case

Corey Miller, Paul Gould, 2014-04-03 The question of whether faith in God is reasonable is of renewed interest in today's academy In light of this interest as well as the rise of militant religion and terrorism and the emergent reaction by neo atheism this volume considers this important question from the views of contemporary scientists philosophers and in a more novel fashion of rhetoricians It is comprised of a public debate between William Lane Craig supporting the position that faith in God is reasonable and Alex Rosenberg arguing against that position Scholars in the aforementioned fields then respond to the debate representing both theistic and atheistic positions The book concludes with rejoinders from Craig and Rosenberg **Presidential Speechwriting** Kurt Ritter, 2004 Annotation The chapters in this book two by former White House speechwriters give insight into the process of presidential speechwriting from Franklin D Roosevelt's administration to Ronald Reagan's
