**Rhetorical Investigations** Walter Jost, 2004 Jost juxtaposes problems and questions in philosophy and literature using rhetoric as the middle term and common ground between them *Ordinary Language Criticism* Kenneth Dauber, Walter Jost, 2003 A new critical model drawing on the ideas of Wittgenstein and Cavell and focusing on the role of the ordinary and the familiar in the experience of writing and reading *A Companion to Rhetoric and Rhetorical Criticism* Walter Jost, Wendy Olmsted, 2008-04-15 A Companion to Rhetoric offers the first major survey in two decades of the field of rhetorical studies and of the practice of rhetorical theory and criticism across a range of disciplines Assesses rhetoric's place in the larger intellectual universe Focuses on the practical side of rhetoric looking at specific works problems and figures Provides examples of rhetoric from ancient times to the present day Written by leading scholars from a variety of different fields Everything You Always Wanted to Know about Literature but Were Afraid to Ask Žižek Russell Sbriglia, 2017-02-27 Challenging the widely held assumption that Slavoj Žižek's work is far more germane to film and cultural studies than to literary studies this volume demonstrates the importance of Žižek to literary criticism and theory The contributors show how Žižek's practice of reading theory and literature through one another allows him to critique complicate and advance the understanding of Lacanian psychoanalysis and German Idealism thereby urging a rethinking of historicity and universality His methodology has implications for analyzing literature across historical periods nationalities and genres and can enrich theoretical frameworks ranging from aesthetics semiotics and psychoanalysis to feminism historicism postcolonialism and ecocriticism The contributors also offer Žižekian interpretations of a wide variety of texts including Geoffrey Chaucer's *Troilus and Criseyde* Shakespeare's *The Merchant of Venice* Samuel Beckett's *Not I* and William Burroughs's *Nova Trilogy* The collection includes an essay by Žižek on subjectivity in Shakespeare and Beckett Everything You Always Wanted to Know about Literature but Were Afraid to Ask Žižek affirms Žižek's value to literary studies while offering a rigorous model of Žižekian criticism Contributors Shawn Alfrey Daniel Beaumont Geoff Boucher Andrew Hageman Jamil Khader Anna Kornbluh Todd McGowan Paul Megna Russell Sbriglia Louis Paul Willis Slavoj Žižek The Force of Tradition Donald G. Marshall, 2005-08-25 The essays in this volume offer analyses of religious literary and cultural traditions and both responses and resistance to them including works by Hans Georg Gadamer Josiah Royce Alasdair MacIntyre Jacques Derrida Charlotte Brontë Søren Kierkegaard Ludwig Wittgenstein Edith Wharton Chinua Achebe Samuel Taylor Coleridge Thomas Kuhn Donald Davidson antebellum African American women preachers and Christian and Jewish thinkers in the wake of the Holocaust among others **BOOK JACKET** *Literature and its Language* Garry L. Hagberg, 2022-10-29 This stimulating volume brings together an international team of emerging mid career and senior scholars to investigate the relations between philosophical approaches to language and the language of literature It has proven easy for philosophers of language to leave literary language to one side just as it has proven easy for literary scholars to discuss questions of meaning separately from relevant issues in the

philosophy of language This volume brings the two together in mutually enlightening ways considerations of literary meaning are deepened by adding philosophical approaches just as philosophical issues are enriched by bringing them into contact or interweaving them with literary cases in all their subtlety

**The Pedagogy of Adaptation** Dennis Cutchins, Laurence Raw, James M. Welsh, 2010-02-23 From *All Quiet on the Western Front* and *Gone with the Wind* to *No Country for Old Men* and *Slumdog Millionaire* many of the most memorable films have been adapted from other sources And while courses on film studies are taught throughout the world *The Pedagogy of Adaptation* makes a strong case for treating adaptation studies as a separate discipline What makes this book unique is its claim that adaptation is above all a creative process and not simply a slavish imitation or reproduction of an original This collection of essays focuses on numerous contexts to emphasize why adaptations matter to students of literature It is the first such volume devoted exclusively to teaching adaptations from a practical teacher centered angle Many of the essays show how adaptation as a discipline can be used to prompt reflection on cultural historical and political differences Written by specialists in a variety of fields ranging from film radio theater and even language studies the book adopts a pluralistic view of adaptation showing how its processes vary across different contexts and in different disciplines Defining new horizons for the teaching of adaptation studies these essays draw on such disparate sources as *Frankenstein* *Moby Dick* and *South Park* This volume not only provides a resource book of lesson plans but offers valuable pointers as to why teaching literature and film can help develop students skills and improve their literacy

**Historical Dictionary of Wittgenstein's Philosophy** Duncan Richter, 2014-04-04 Ludwig Wittgenstein was the most influential and arguably the greatest philosopher of the 20th century This fact about his influence is not only a matter of how much he influenced people but also of how many people he influenced His early work was taken up by some of the pioneers of analytical philosophy His later work helped spawn another movement within analytic philosophy that of ordinary language philosophy sometimes called Oxford philosophy He is also considered by some to be a key postmodern thinker and an interest in his work is a distinguishing feature of many post analytical philosophers who seek to bridge the gap between analytical and so called continental philosophy This second edition of *Historical Dictionary of Wittgenstein's Philosophy* covers the history of this philosophy through a chronology an introductory essay and an extensive bibliography The dictionary section has over 300 cross referenced entries on every aspect of his work This book is an excellent access point for students researchers and

anyone wanting to know more about Wittgenstein's philosophy      **The Poetics of the Everyday** Siobhan Phillips, 2010

Wallace Stevens once described the malady of the quotidian lamenting the dull weight of everyday regimen Yet he would later hail that which is always beginning over and over recognizing if not celebrating the possibility of fresh invention Focusing on the poems of Wallace Stevens Robert Frost Elizabeth Bishop and James Merrill Siobhan Phillips positions everyday time as a vital category in modernist aesthetics American literature and poetic theory She eloquently reveals how through particular but related means each of these poets converts the necessity of quotidian experience into an aesthetic and experiential opportunity In Stevens Phillips analyzes the implications of cyclic dualism In Frost she explains the theoretical depth of a habitual middle way In Bishop's work she identifies the attempt to turn recurrent mornings into a ceremony rather than a sentence and in Merrill she shows how cosmic theories rely on daily habits Phillips ultimately demonstrates that a poetics of everyday time contributes not only to a richer understanding of these four writers but also to descriptions of their era estimations of their genre and ongoing reconfigurations of the issues that literature reflects and illuminates      Stanley Cavell James Loxley, 2024-07-30 Stanley Cavell Philosophy literature and criticism is the first book to offer a comprehensive examination of the relationship between the celebrated philosophical work of Stanley Cavell and the discipline of literary criticism In this volume the editors have assembled an impressive range of interlocutors who set out to explore the shape and substance of Stanley Cavell's persistent acknowledgement of the literary as a category in which and through which philosophical work can be undertaken A number of essays address his engagements with modernism tragedy and romanticism while others consider Cavell's own aesthetic modes as a writer Stanley Cavell Philosophy literature and criticism will be of interest to all those who are concerned with the ways in which the reading of literature and the practice of philosophy might continue both to influence each other across disciplinary boundaries and to challenge the internal topographies of those disciplines      *Wittgenstein on Aesthetic Understanding* Garry L. Hagberg, 2017-05-22 This book investigates the significance of Wittgenstein's philosophy for aesthetic understanding Focusing on the aesthetic elements of Wittgenstein's philosophical work the authors explore connections to contemporary currents in aesthetic thinking and the illuminating power of Wittgenstein's philosophy when considered in connection with the interpretation of specific works of literature music and the arts Taken together the chapters presented here show what aesthetic understanding consists of and the ways we achieve it how it might be articulated and why it is important At a time of strong renewal of interest in Wittgenstein's contributions to the philosophy of mind and language this book offers insight into the connections between philosophical psychological and linguistic issues and the understanding of the arts      *All in All (More or Less)* Walter Jost, 2025-01-07 This book reinvents aspects of the rhetorical tradition as part of a philosophical pluralism oriented to All in Allness Its chapters unfold some of the ethical and intellectual responsibilities philosophy and rhetoric share their commitments toward literature broadly conceived the limited authority of their interpretations and the kinds of judgments

they issue in Part One drawing chiefly on Ludwig Wittgenstein and Richard McKeon leverages a central line of argument regarding Rationality in the pragmatism of Robert Brandom Part Two pivots to specific instances of the range of rhetorical argument found in surprising places and in sophisticated arrangements The book as a whole culminates in Part Three where the author demonstrates how ordinary language criticism fruitfully bears on cultural models film drama novels poetry belonging to American Low Modernism *Wallace Stevens and the Poetics of Modernist Autonomy* Gül Bilge

Han,2019-06-27 Wallace Stevens and the Poetics of Modernist Autonomy presents a rethinking of modernist claims to autonomy by focusing on the work of Wallace Stevens one of the most renowned poets of the twentieth century By showing how multiple socio political currents underlie and motivate Stevens version of autonomy the book challenges the commonly received accounts of the term as art and literature s escape from the world It provides new and close readings of Stevens work including poems from different stages of the poet s career It re energizes a tradition of historicist readings of Stevens from the 1980s and 1990s The study of Stevens work in this book is developed in constant dialogue with current studies in modernism and aesthetic theory particularly those offered by Jacques Ranci re and Alain Badiou The book explores the question of autonomy in Stevens exploration of the aesthetic and social domains and the vexed issue of his poetry s relation to philosophical thinking **The Ethos of Rhetoric** Michael J. Hyde,2004 Fourteen noted rhetorical theorists and critics

answer a summons to return ethics from abstraction to the particular They discuss and explore a meaning of ethos that predates its more familiar translation as moral character and ethics Together the contributors define ethical discourse and describe what its practice looks like in particular communities *Circulation, Writing, and Rhetoric* Laurie Gries,Collin Gifford Brooke,2018-04-15

While it has long been understood that the circulation of discourse bodies artifacts and ideas plays an important constitutive force in our cultures and communities circulation as a concept and a phenomenon has been underexamined in studies of rhetoric and writing In an effort to give circulation its rhetorical due *Circulation Writing and Rhetoric* introduces a wide range of studies that foreground circulation in both theory and practice Contributors to the volume specifically explore the connections between circulation and public rhetorics urban studies feminist rhetorics digital communication new materialism and digital research Circulation is a cultural rhetorical process that impacts various ecologies communities and subjectivities in an ever increasing globally networked environment As made evident in this collection circulation occurs in all forms of discursive production from academic arguments to neoliberal policies to graffiti to tweets and bitcoins Even in the case of tombstones borrowed text achieves only partial stability before it is recirculated and transformed again This communicative process is even more evident in the digital realm the underlying infrastructures of which we have yet to fully understand As public spaces become more and more saturated with circulating texts and images and as networked relations come to the center of rhetorical focus *Circulation Writing and Rhetoric* will be a vital interdisciplinary resource for approaching the contemporary dynamics of rhetoric and writing Contributors Aaron Beveridge

**The Aesthetics of Argument** Martin Warner, 2016-02-05 Argument and imagination are often interdependent The Aesthetics of Argument is concerned with how this relationship may bear on argument s concern with truth not just persuasion and with the enhancement of understanding such interdependence may bring The rationality of argument conceived as the advancement of reasons for or against a claim is not simply a matter of deductive validity Whether arguments are relevant have force or look foolish or whether an example is telling or merely illustrative cannot always be assessed in these terms Martin Warner presents a series of case studies which explore how analogy metaphor narrative image and symbol can be used in different ways to frame one domain in terms of another severally or in various combinations and how criteria drawn from the study of imaginative literature may have a bearing on their truth aptness Such framing can be particularly effective in argumentative roles which invite self interrogation as Plato saw long ago Narrative in such cases may be fictional whether parabolic or dramatic autobiographical or biographical and in certain cases may seek to show how standard conceptualizations are inadequate Beyond this whether in poetry or prose and not only with respect to narrative the logic of imagery enables us to make principled sense of our capacity to grasp imagistically elements of our experience through words whose use at the imaginative level has transformed their standard conceptual relationships and hence judge the credibility of associated arguments Assessment of the argumentative imagination requires criteria drawn not only from dialectic and rhetoric but also from poetics

The Lyrical in Epic Time David Der-wei Wang, 2015-01-20 In this book David Der wei Wang uses the lyrical to rethink the dynamics of Chinese modernity Although the form may seem unusual for representing China s social and political crises in the mid twentieth century Wang contends that national cataclysm and mass movements intensified Chinese lyricism in extraordinary ways Wang calls attention to the form s vigor and variety at an unlikely juncture in Chinese history and the precarious

consequences it brought about betrayal self abjuration suicide and silence Despite their divergent backgrounds and commitments the writers artists and intellectuals discussed in this book all took lyricism as a way to explore selfhood in relation to solidarity the role of the artist in history and the potential for poetry to illuminate crisis They experimented with poetry fiction film intellectual treatise political manifesto painting calligraphy and music Western critics Wang shows also used lyricism to critique their perilous epic time He reads Martin Heidegger Theodor Adorno Cleanth Brooks and Paul de Man among others to complete his portrait The Chinese case only further intensifies the permeable nature of lyrical discourse forcing us to reengage with the dominant role of revolution and enlightenment in shaping Chinese and global modernity Wang's remarkable survey reestablishes Chinese lyricism's deep roots in its own native traditions along with Western influences and realizes the relevance of such a lyrical calling of the past century to our time
