## **Rhythms Of Creation:**

*Rhythm* Lexi Eikelboom, 2018-08-17 *Rhythm A Theological Category* argues that as a pervasive dimension of human existence with theological implications rhythm ought to be considered a category of theological significance. Philosophers and theologians have drawn on the category of rhythm patterned movements of repetition and variation to describe reality however the ways in which rhythm is used and understood differ based on a variety of metaphysical commitments with varying theological implications. Lexi Eikelboom brings those implications into the open through using resources from phenomenology prosody and the social sciences to analyse and evaluate uses of rhythm in metaphysical and theological accounts of reality. The analysis relies on a distinction from prosody between a synchronic approach to rhythm which observes the whole at once and considers how various dimensions of a rhythm hold together harmoniously and a diachronic approach which focuses on the ways in which time unfolds as the subject experiences it. Based on an engagement with the twentieth century Jesuit theologian Erich Przywara alongside thinkers as diverse as Augustine and the contemporary philosopher Giorgio Agamben Eikelboom proposes an approach to rhythm that serves the concerns of theological conversation. It then demonstrates the difference that including rhythm in such theological conversation makes to how we think about questions such as what is creation and what is the nature of the God creature relationship from the perspective of rhythm. As a theoretical category capable of expressing metaphysical commitments yet shaped by the cultural rhythms in which those expressing such commitments are embedded rhythm is particularly significant for theology as a phenomenon through which culture and embodied experience influence doctrine.

**Christ Plays in Ten Thousand Places** Eugene H. Peterson, 2008-01-29 Lamenting the vacuous often pagan nature of contemporary American spirituality Peterson firmly grounds spirituality once more in Trinitarian theology and offers a clear practical statement of what it means to actually live out the Christian life.

*Joining Creation's Praise* Brian Brock, 2025-08-19 In the beginning God created. Thus begins the Bible's story of a long conversation between God and creatures one in which humans are often the least edifying contributors. They need to learn what it means to confess themselves creatures if they are to begin to understand what it means to be human and how to live. *Joining Creation's Praise* a major statement by a leading Christian ethicist shows how confessing that we are creatures deeply reshapes every aspect of Christian thinking and living. Human beings are made to embody Christ's image in the world not as dominators but as conduits of divine life. In this comprehensive yet clear volume of theological ethics Brian Brock follows the first few chapters of Genesis in order to discover the things that the sages of Israel took to be crucial for the ethical life of human beings among other creatures in God's world. Informed by theological rigor and careful exegesis the many ethical reflections in this volume allow an ancient wisdom to shed fresh light on very postmodern ethical questions about conversion life with God knowledge and wisdom dominion Sabbath vocation economics human dignity our relationship with the rest of creation sexuality marriage family sin death and politics.
