Spain cortes, congreso de los diputados, 1880 **Feminism's Empire** Carolyn J. Eichner, 2022-06-15 Feminism's Empire investigates the complex relationships between imperialisms and feminisms in the late nineteenth century and demonstrates the challenge of conceptualizing pro imperialist and anti imperialist as binary positions By intellectually and spatially tracing the era's first French feminists engagement with empire Carolyn J Eichner explores how feminists opposed yet employed approaches to empire in writing speaking and publishing In differing ways they ultimately tied forms of imperialism to gender liberation Among the era's first anti imperialists French feminists were enmeshed in the hierarchies and epistemologies of empire They likened their gender based marginalization to imperialist oppressions Imperialism and colonialism's gendered and sexualized racial hierarchies established categories of inclusion and exclusion that rested in both universalism and ideas of nature that presented colonized people with theoretical

yet impossible paths to integration Feminists faced similar barriers to full incorporation due to the gendered contradictions inherent in universalism The system presumed citizenship to be male and thus positioned women as outsiders Feminism s Empire connects this critical struggle to hierarchical power shifts in racial and national status that created uneasy linkages between French feminists and imperial authorities *Forthcoming Books* Rose Arny,1996-10 *Decentralization, Democratization, and Informal Power in Mexico* Andrew Selee,2015-10-20 In the last two decades of the twentieth century many countries in Latin America freed themselves from the burden of their authoritarian pasts and developed democratic political systems At the same time they began a process of shifting many governmental responsibilities from the national to the state and local levels Much has been written about how decentralization has fostered democratization but informal power relationships inherited from the past have complicated the ways in which citizens voice their concerns and have undermined the accountability of elected officials In this book Andrew Selee seeks to illuminate the complex linkages between informal and formal power by comparing how they worked in three Mexican cities The process of decentralization is shown to have been intermediated by existing spheres of political influence which in turn helped determine how much the institution of multiparty democracy in the country could succeed in bringing democracy closer to home *The New Prometheans* Courtenay Raia,2019-12-04 The Society for Psychical Research was established in 1882 to further the scientific study of consciousness but it arose in the surf of a larger cultural need Victorians were on the hunt for self understanding Mesmerists spiritualists and other romantic seekers roamed sunken landscapes of entrancement and when psychology was finally ready to confront these altered states psychical research was adopted as an experimental vanguard Far from a rejected science it was a necessary heterodoxy probing mysteries as diverse as telepathy hypnosis and even s ance phenomena Its investigators sought facts far afield of physical laws evidence of a transcendent irreducible mind *The New Prometheans* traces the evolution of psychical research through the intertwining biographies of four men chemist Sir William Crookes depth psychologist Frederic Myers ether physicist Sir Oliver Lodge and anthropologist Andrew Lang All past presidents of the society these men brought psychical research beyond academic circles and into the public square making it part of a shared far reaching examination of science and society By layering their papers textbooks and lectures with more intimate texts like diaries letters and literary compositions Courtenay Raia returns us to a critical juncture in the history of secularization the last great gesture of reconciliation between science and sacred truths **Public Opinion** ,1891 *The Saturday Review of Politics, Literature, Science, Art, and Finance* ,1879 **Italian Crime Filmography, 1968-1980** Roberto Curti,2013-11-05 In 1970s Italy after the decline of the Spaghetti Western crime films became the most popular profitable and controversial genre In a country plagued with violence political tensions and armed struggle these films managed to capture the anxiety and anger of the times in their tales of tough cops ruthless criminals and urban paranoia Recent years have seen renewed critical interest in the genre thanks in part to such illustrious fans as Quentin Tarantino This book examines all of the 220

crime films produced in Italy between 1968 and 1980 the period when the genre first appeared and grew to its peak Entries include a complete cast and crew list home video releases a plot summary and the author s own analysis Excerpts from a variety of sources are included academic texts contemporary reviews and interviews with filmmakers scriptwriters and actors There are many onset stills and film posters *Saturday Review* ,1879 *The Congregationalist* ,1901 *Index to Dance Periodicals* ,2000 *The Architect and Contract Reporter* ,1918 *InMusic* ,1990 **Uganda** Jörg Wiegratz, Giuliano Martiniello, Elisa Greco, 2018-11-15 For the last three decades Uganda has been one of the fastest growing economies in Africa Globally praised as an African success story and heavily backed by international financial institutions development agencies and bilateral donors the country has become an exemplar of economic and political reform for those who espouse a neoliberal model of development The neoliberal policies and the resulting restructuring of the country have been accompanied by narratives of progress prosperity and modernisation and justified in the name of development But this self celebratory narrative which is critiqued by many in Uganda masks the disruptive social impact of these reforms and silences the complex and persistent crises resulting from neoliberal transformation Bringing together a range of leading scholars on the country this collection represents a timely contribution to the debate around the New Uganda one which confronts the often sanitised and largely depoliticised accounts of the Museveni government and its proponents Harnessing a wealth of empirical materials the contributors offer a critical multi disciplinary analysis of the unprecedented political socio economic cultural and ecological transformations brought about by neoliberal capitalist restructuring since the 1980s The result is the most comprehensive collective study to date of a neoliberal market society in contemporary Africa offering crucial insights for other countries in the Global South **Architect** ,1917 *The Impressionist Print* Michel Melot, 1996-01-01 A print can sometimes tell us more than a painting about the history of art Michel Melot illustrates his thesis in this book analysing relationships between artists the art market the critics collectors and political institutions This fresh approach reveals Impressionism not as a sort of miracle but as a response to economic and social upheaval This original view of a key movement in the history of art allows the reader to understand its decisive effect on all the subsequent generations who have contributed to maintaining the tradition of the belle epreuve **New York Magazine** ,1994-12-12 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea
