Rich Like Us:

Rich Like Us Nayantara Sahgal, 1999 New Delhi one month after the declaration of the Emergency is the setting for Nayantara Sahgal's novel *Rich Like Us* an ironic tender and exquisitely crafted study of India and its people in the aftermath of Independence The Emergency in India meant many things to many people profit and power for some jail for others mobile vasectomy clinics for thousands more For idealists like Sonali it meant the end of a dream the extinguishing of a bright flame of promise for the country's future that had burned since Independence An unmarried woman proud of her senior ranking in the civil service she finds herself demoted and humiliated through a corrupt deal at governmental level For opportunists like Dev a beneficiary of the deal it means a chance to quit his ailing father's business and make it on his own as a leader of the New Entrepreneurs Sonali's colleague Ravi Kachru once a passionate Marxist makes himself indispensable to the royal line Meanwhile the stubborn shopkeeper Kishori Lal bloodied survivor of Partition lands in a filthy prison cell for a non-existent crime *Rich Like Us* is many individual histories and many voices in one a compelling and vivid tapestry of India's past and present Above all it is the story of Rose the cockney memsahib brought by the worldly Ram from London forty years before to a family that neither wants nor welcomes her In Nayantara Sahgal's tale with its humour and tragedy is mirrored some of the grandeur and folly of the Indian experience itself Another Canon Makarand R.

Paranjape, 2009-07-01 Another Canon Indian Texts and Traditions in English traces the development of Indian English literary and textual practice over a period of seven decades focussing on classic texts which have fallen beyond the scope of the established canon *Rich Like Us* Nayantara Sahgal, 1986 The lives of two very different New Delhi women are traced from the period following Indira Gandhi's declaration of the Emergency through to each woman's discovery that power and riches are useless substitutes for love

Defoe's Review 1704-13, Volume 2 (1705), Part I John McVeagh, 2024-11-01 This volume is an important and rare work in the political and literary history of England and for a Defoe scholar It is one of the earliest examples of the political periodical and includes discussions on the parliamentary election of 1705 and Defoe's weekly *Scandal Club* correspondence Resurrection Express Stephen Romano, 2012-09-18 A cutting edge storm of white knuckle action and suspense the year's most exciting debut thriller Meet Elroy Coffin He's a 21st century high tech thief with

deadly hands But even the best can fall **Modern Indian English Novel** Manmohan Krishna Bhatnagar, 2003 The Study Is A Painstaking Probe Into The Unfolding Of A Hitherto Ignored Thematic And Stylistic Dimension Of Modern Indian English Fiction Beginning With An In Depth Analysis Of The Political Underpinnings In The Early Phase The Study Moves To A Scholarly Critique Of The Same In The Post Independence Context Indian English Novel Has Been Appraised As A Human Document Chronicling Most Credibly The Political Vicissitudes Of The People In General The Crippling Nature Of The Popular Creed Has Been Isolated As The Cause Of The Personal As Well As The Political Tragedy The Critique Discovers In Gandhism A Liberating Panacea Which Later Got Ossified Into A Myth The Differing Perceptions In Novels Of The Light At

The End Of The Tunnel Forms Part Of The Next Stage Of The Scholarly Argument Last But Not The Least The Book Examines The Artistic Modes Of Projection Of The Political Motif A Refreshing Insight Into Indian English Fiction Indian Socio Political Psyche The Sociology Of Faith As Well As The Artistic Amalgam Of Aesthetics And Ideology In Indian Literature An Invaluable Source Book For Researchers Teachers And Students Of Literature Politics Sociology And Philosophy **The Bibel of the next Generation** Jorg Horst Otto Thimoreit, 2011-08-12 My books are about one thing and that is the mind 1 Where did our mind come from in a natural point of facts 2 What did our mind do during its historical cultural existence for the past 100 000 years 3 Who owns and who controls our mind We don t actually control our mind and makes Free Will an ambition and not a fact The Centers of Power control our mind for the last 5 000 years we have made simulations about believing in a god and call it religion We have made simulations about society in believing in governments laws and politician and call it statism 4 In my books I explore solutions to live as a free individual and that is only possible if we all live in a free world without the political financial and religious oppressors I call the Centers of Power How can this work out for me if I am in love with mental slavery how do I unslave Am I a monkey with an Ego or am I a cosmic archaic mind Being involved in natural philosophy to answer questions on where I come from who I am where I am going and to stand up for it challenge authority lead me into prison for over 10 years How I became the enemy of the German state a danger to its citizens and to my five children will be covered in my two books People that are dangerous to the system are tending to be removed I look at the Centers of Power its origin and the way it divides the people in order to enslave them and it makes me think is it monkeys running society So how do we unite and make love win to change the system and push for peace We are now living in historical times and like it or not the choices that we will make over the next few years will have profound implications to the future of the entire human race Corona Plandemic Whether or not to wear the mask Whether or not to take the vaccine Whether or not to get the health app Whether or not to fill out the digital visitor card Whether or not to take the digital money chip In any case the attempt by the Centers of Power to reset global society leads eventually to a global awakening of the truth My journey is to go back to the foundations to get things right To discover truth the cosmos has to be first debugged and to make a model of the cosmos Typically large groups of intellect don t get it right because they are consensus orientated like in politics It is not truth orientated in the past we have only found this by the outsiders there we find intellectual progress The other reason why it is so hard to find objective truth is that our brain is operating just like a computer on bio chemical algorithms by electricity and hormones running the hardware to simulate software When we experience pleasure or pain when we see hear smell the outside world it is always an interpretation a simulation but never the actual objective truth or the reality of the outside world The cosmos can be computed by us in a simulation Matrix and so can our society be computed but so far no human has understood the underlying structures of that Matrix A society like ours to discuss truth can be a very dangerous place if you question authority I found it hard to fit in the academic system as a

scientific philosopher so I started the path of knowledge without the academic prison and in order to finance this I started my own companies in the USA Germany and the Netherlands where I eventually ended up in a German prison That happened primarily because I used psychedelic magic mushrooms to detach me from the general agendas of a slave in society I present the theory that we are not living in a mechanical cosmos and a material world but a computational cosmos a simulation made by our mind just as it makes a dream work or a believer of a god that lives in the clouds called heaven We are a dream state in the body of a monkey becoming awake that we are neither monkey nor a sentient being To wake up from those dream simulations is probably the hardest accomplishment and usually happens late in our life I doubt that reading a book following a guru god or scientist will help in this endeavor In my case the search for objective truth reality and the knowledge of relevant information in combination with the magic mushrooms did the switch of perspective probably also a bit of luck called non linear dynamics and chaos What I really was surprised by from the awakening aspect was altruistic unconditional love This concept is not naturally accepted by our Ego self driven software however it turns out that this energy is a force that can only be activated once we achieve a Free Will of Thought That is what makes some of us unlike any other living organism on this planet to forgive your enemy to love your enemy are concepts of meme that contradict the animal mind of most humans Well once we understand that we are like a computer thinking with bio chemical algorithms it is not a surprise that we start life with an Unfree Will of Thought a simulation of the brain looking for food sex and all the other things that feed our Ego Self telling us how great and wonderful we our simulation of the Me actually is I have never experienced that a person is really evil or that he and she wants something evil What people do can be horrible and the mess they make can have an incredibly destructive potential But if you look closely at what s going on it may not stop but if you condemn it it will stop even less When one works through it accepts it perceives it then a light of love shines out There are no bad and evil people at all there are only people who are on the way whom one must invite and pick up Evolution on how cosmic space time creates meme and life how it drives to ever more complexity we might call consciousness Evolution from a living organism called ape with a brain that does interpretation simulations of colors and sounds from the outside world communication between us but unlike any other brain on this planet it can simulate also altruistic love mathematics arts morals and ethics Evolution from a hunter still being an animal with universal power ambitions of the Ego Self To understand consciousness and enlightenment and our part we take in the cosmic archaic mind we call nature Using computer science artificial intelligence AGI to understand how our consciousness works in living organisms and especially in the human brain To perceive the simulations that make up our worlds we make up in politics religion and business The internet becomes mightier than the sword of the oppressors Now we have access to meme to information directly without the editing or censoring of an official cultural gate keeper What it does to freedom and change during 2020 is the main topic of the book to predict what 2030 will look like when governments start a direct war against their citizens The deep state within

governments as the global Center of Power and their agenda of a Great Reset The rise of slavery capitalism and democracy Central banks IMF and World create FIAT Money out of thin air and therefore have control over third world countries with their imposed conditions of these loans Representative Democracy is a plutocracy of the very few ruling over their sovereign citizens We need a direct democracy right now Outline cases where the media propaganda has served political agendas like false flag attacks on Libya Iran Syria Iraq 9 11 and Corona Who runs global politics and societies since the 18th century The Wall Street financed wars Rockefeller Rhodes Co financed Adolf Hitler to prevent a United Europe with Russia We have a 147 corporations that control the economy and the media but do we have another power center cult The New World Order Great Reset is coming and we can be sure that the global elite will be successful in that The most powerful spell on humanity is electoral democracy The answer to that problem is not a new political party but rather local community building spread true information on the internet and the Resistance
