Richard Lester A Guide To References And Resources:

Richard Lester Diane Rosenfeldt, Richard Lester, 1978 Understanding Film James R Russo, 2021-01-12 This film analysis textbook contains sixteen essays on historically significant artistically superior films released between 1922 and 1982 Written for college high school and university students the essays cover central issues raised in today's cinema courses and provide students with practical models to help them improve their own writing and analytical skills This film casebook is geographically diverse with eight countries represented Italy France the United States Russia Germany Great Britain Japan and India The essays sophisticated yet not overly technical or jargon heavy are perfect introductions to their respective films as well as important contributions to the field of film studies in general The book's critical apparatus features credits images and bibliographies for all films discussed filmographies for the directors a glossary of film terms the elements of film analysis a chronology of film theory and criticism topics for writing and discussion a bibliography of film criticism and a comprehensive index Understanding Film A Viewers Guide bucks the trend of current film analysis texts few of which contain actual film analyses by promoting analysis of the chosen films alongside the methods and techniques of film analysis It has been prepared as a primary text for courses in film analysis and a supplementary text for courses such as Introduction to Film or Film Appreciation History of Film or Survey of Cinema and Film Directors or Film Style and Imagination

Historical Dictionary of British Cinema Alan Burton, Steve Chibnall, 2013-07-11 British cinema has been around from the very birth of motion pictures from black and white to color from talkies to sound and now 3D it has been making a major contribution to world cinema Many of its actors and directors have stayed at home but others ventured abroad like Charlie Chaplin and Alfred Hitchcock Today it is still going strong the only real competition to Hollywood turning out films which appeal not only to Brits just think of Bridget Jones while busily adding to franchises like James Bond and Harry Potter So this Historical Dictionary of British Cinema has a lot of ground to cover This it does with over 300 dictionary entries informing us about significant actors producers and directors outstanding films and serials organizations and studios different films genres from comedy to horror and memorable films among other things Two appendixes provide lists of award winners Meanwhile the chronology covers over a century of history These parts provide the details countless details while the introduction offers the big story And the extensive bibliography points toward other sources of information **Reference**

Sources, 1981 S. Balachandran, M. Balachandran, 1992-03 **Twenty-One Landmark European Films 1939-1999** Bert Cardullo, 2015-04-01 The essays in this insightful film analysis text show cover twenty one of the best European films made between the coming of World War II and the end of the twentieth century showing what makes each of them outstanding These essays are clear and readable that is sophisticated and meaty yet not overly technical or jargon heavy They will make perfect introductions to their respective films as well as important contributions to the field of film studies in general Written with university students in mind these essays cover some of the central films treated and central issues raised in today's

cinema courses and provide students with practical models to help them improve their own writing and analytical skills A list of questions for discussion is included to trigger further thinking among film buffs and to help educators prepare for class The book is aimed at students teachers and cinephiles with an interest in European cinema in particular and cinema studies in general as well as at those educated readers with an interest in the practice of film analysis and criticism The only competition comes from Stanley Kauffmann's relatively brief *Ten Great Films* 136 pp 2012 The current work offers twenty one illustrated essays Kauffmann's book contains no images and focuses on Europe The countries represented are France Italy England Hungary Belgium Sweden Scotland Denmark Russia Spain Germany Scotland and Finland Twenty One Landmark European Films 1939 1999 overlaps with Kauffmann's book only in the case of *L'avventura* though the two approach this film from vastly different angles Moreover the book provides a complete critical apparatus notes bibliographies credits and filmographies whereas Kauffmann's has none This book could be one of the primary texts for courses in film analysis to accompany a work like Timothy Corrigan's *A Short Guide to Writing about Film* 8th edition 2011 It would also be a suitable supplementary or secondary text in such courses as Introduction to Film or Film Appreciation Western European Cinema History of Film or Global Cinema and Film Directors or Film Style and Imagination

Sixties British Cinema Robert Murphy, 2019-07-25 British films of the 1960s are undervalued Their search for realism has often been dismissed as drabness and their more frivolous efforts can now appear just empty headed Robert Murphy's *Sixties British Cinema* is the first study to challenge this view He shows that the realist tradition of the late 50s and early 60s was anything but dreary and depressing and gave birth to a clutch of films remarkable for their confidence and vitality *Saturday Night and Sunday Morning* *A Kind of Loving* and *A Taste of Honey* are only the better known titles *Sixties British Cinema* revalues key genres of the period horror crime and comedy and takes a fresh look at the swinging London films finding disturbing undertones that reflect the cultural changes of the decade Now that our cinematic past is constantly recycled on television Murphy's informative engaging and perceptive review of these films and their cultural and industrial context offers an invaluable guide to this neglected era of British cinema
