Daly Bednarek, 2015-12-01 On December 17 1903 Orville and Wilbur Wright soared into history during a twelve second flight on a secluded North Carolina beach Commemorating the 100th anniversary of the first flight these essays chart the central role that aviation played in twentieth century history and capture the spirit of innovation and adventure that has characterized the history of flight The contributors all leading aerospace historians consider four broad themes relating to the development of flight technology innovation and the technology of flight civil aeronautics and government policy aerial warfare and aviation in the American imagination Through their attention to the political economic military and cultural history of flight the authors establish that the Wrights invention and all that followed in both air and space was one of the most significant technologies of the twentieth century fundamentally reshaping our world Supported by the First Flight Centennial Commission The contributors are Janet R Daly Bednarek Tami Davis Biddle Roger E Bilstein Hans Joachim Braun David T Courtwright Anne Collins Goodyear Roger D Launius William M Leary David D Lee W David Lewis John H Morrow Dominick A Pisano and A Timothy Warnock *The Yanks Are Coming!* H. W. Crocker, 2014-09-23 Bestselling military historian H W Crocker III The Politically Incorrect Guide to the Civil War Robert E Lee on Leadership etc now turns his guns on the epic story of America's involvement in the First World War with his new book The Yanks Are Coming A Military History of the United States in World War I 2014 marks the centenary of the beginning of that war and in Crocker's sweeping American focused account readers will learn How George S Patton Douglas MacArthur George C Marshall of the Marshall Plan Wild Bill Donovan future founder of the OSS the World War II precursor to the CIA Harry S Truman and many other American heroes earned their military spurs in The Great War Why despite the efforts of the almost absurdly pacifistic administration of Woodrow Wilson American involvement in the war was inevitable How the First World War was the War that Made the Modern World sweeping away most of the crowned heads of Europe redrawing the map of the Middle East setting the stage for the rise of communism and fascism Why the First World War marked America's transition from a frontier power some of our World War I generals had actually fought Indians to a global superpower with World War I generals like Douglas MacArthur living to see and help shape the nuclear age The Young Lions of the War heroes who should not be forgotten like air ace Eddie Rickenbacker Sergeant Alvin York memorably portrayed by Gary Cooper in the Academy

Award winning movie Sergeant York and all four of Theodore Roosevelt's sons one of whom was killed Stirring and full of brilliantly told stories of men at war The Yanks Are Coming will be the essential book for readers interested in rediscovering America's role in the First World War on its hundredth anniversary Medals for Soldiers and Airmen Fred L. Borch III, 2013-05-04 This is the first and only comprehensive history of all decorations and medals that may be awarded to men and women serving in the United States Army and Air Force The background and design of each medal are examined as well as award criteria governing each decoration The book first looks at the Army and Air Force Medals of Honor before continuing with other awards including the Distinguished Service Cross Distinguished Service Medal Air Force Cross Silver Star Legion of Merit Bronze Star Medal and Purple Heart The histories of more common medals like the Air Medal Meritorious Service Medal Army and Air Force Commendation Medals and Army and Air Force Achievement Medals are also included Photographs of each medal obverse and reverse accompany the text along with selected photographs of recipients and the citations for their awards **Airline Executives and Federal Regulation** Walter David Lewis, 2000 This book is a collection of eight case studies of relationships between airline executives and federal regulatory agencies from the passage of the Air Commerce Act in 1926 to the Airline Deregulation Act of 1978 By focusing on the lives and personalities of individual entrepreneurs W David Lewis and his contributors hope to explore the interaction between technology government regulation and entrepreneurship Each essay in the book focuses on a particular airline executive such as Eddie Rickenbacker Robert Six and Donald Nyrop Lewis has been careful to give a variety of perspective Airlines of various types are represented large and small scheduled and unscheduled Some of the executives profiled were known for having adversative relationships with federal regulators whereas others wholeheartedly accepted regulation and thrived under it There have been public calls for a return to airline regulation and Lewis thinks it is not inconceivable that regulation may ultimately return if problems continue and conditions deteriorate further But he says it is well to remember that deregulation occurred because there were flaws in the regulatory system it replaced This collection of essays scholarly and well documented but written in a lively style suitable for specialists and nonspecialists alike provides a long range perspective on the issue of airline deregulation

Laslie considers the current environment where much of the story of the USAF remains unwritten as it grapples with the
