Visscher,2020-07-07 Beyond Alexandria aims to provide a better understanding of Seleucid literature covering the period from Seleucus I to Antiochus III Despite the historical importance of the Seleucid Empire during the long third century BCE little attention has been devoted to its literature The works of authors affiliated with the Seleucid court have tended to be overshadowed by works coming out of

Alexandria emerging from the court of the Ptolemies the main rivals of the Seleucids This book makes two key points both of which challenge the idea that Alexandrian literature is coterminous with Hellenistic literature as a whole First the book sets out to demonstrate that a distinctly strand of writing emerged from the Seleucid court characterized by shared perspectives and thematic concerns Second Beyond Alexandria explores how Seleucid literature was significant on the wider Hellenistic stage Specifically it shows that the works of Seleucid authors influenced and provided counterpoints to writers based in Alexandria including key figures such as Eratosthenes and Callimachus For this reason the literature of the Seleucids is not only interesting in its own right it also provides an important entry point for furthering our understanding of Hellenistic literature in general
