Robert Southwell And The Mission Of Literature 1561 1595 Writing Reconciliation:

Robert Southwell and the Mission of Literature, 1561-1595 Scott R. Pilarz, 2004 In this book Scott Pilarz explores how the literary legacy of Robert Southwell S J kept his voice alive after his hanging in 1595 The Elizabethan establishment viewed Southwell as a subversive and he has received only scant attention from scholars in the centuries since his death Pilarz restores the Jesuit poet to his rightful position of importance in literature and history showing how Southwell s works mark the point of convergence of aesthetic theological political and personal influences that determined the ethos of the period The study offers fresh insight into energies that shaped early modern culture and provokes more sophisticated and respectful analysis of religion in literature *Archaic Style in English Literature, 1590-1674* Lucy Munro, 2013-11-28 Ranging from the works of Shakespeare Spenser Jonson and Milton to those of Robert Southwell and Anna Trapnel this groundbreaking study explores the conscious use of archaic style by the poets and dramatists between 1590 and 1674 It focuses on the wide ranging complex and self conscious uses of archaic linguistic and poetic style analysing the uses to which writers put literary style in order to re embody and reshape the past Munro brings together scholarly conversations on temporality memory and historiography on the relationships between medieval and early modern literary cultures on the workings of dramatic and poetic style and on national history and identity Neither pure anachronism nor pure nostalgia the attempts of writers to reconstruct outmoded styles within their own works reveal a largely untold story about the workings of literary influence and tradition the interactions between past and present and the uncertain contours of English nationhood

Debating the Faith: Religion and Letter Writing in Great Britain, 1550-1800 Anne Dunan-Page, Clotilde Prunier, 2012-11-05 The first book to address the role of correspondence in the study of religion *Debating the Faith Religion and Letter Writing in Great Britain 1550 1800* shows how letters shaped religious debate in early modern and Enlightenment Britain and discusses the materiality of the letters as well as questions of form and genre Particular attention is paid to the contexts in which letters were composed sent read distributed and then destroyed copied or printed in periods of religious tolerance or persecution The opening section Protestant identities examines the importance of letters in the shaping of British protestantism from the underground correspondence of Protestant martyrs in the reign of Mary I to dissident letters after the Act of Toleration Representations of British Catholicism explores the way English Irish and Scottish Catholics whether in exile or at home defined their faith established epistolary networks and addressed political and religious allegiances in the face of adversity The last part Religion science and philosophy focuses on the religious content of correspondence between natural scientists and philosophers *Writing and Religion in England, 1558-1689* Professor Anthony W Johnson, Professor Roger D Sell, 2013-04-28 The fruit of intensive collaboration among leading international specialists on the literature religion and culture of early modern England this volume examines the relationship between writing and religion in England from 1558 the year of the Elizabethan Settlement up until the Act of Toleration of 1689

Throughout these studies religious writing is broadly taken as being communicational in the etymological sense that is as a medium which played a significant role in the creation or consolidation of communities Some texts shaped or reinforced one particular kind of religious identity whereas others fostered communities which cut across the religious borderlines which prevailed in other areas of social interaction For a number of the scholars writing here such communal differences correlate with different ways of drawing on the resources of cultural memory The denominational spectrum covered ranges from several varieties of Dissent through via media Anglicanism to Laudianism and Roman Catholicism and there are also glances towards heresy and the mid seventeenth century s new atheism With respect to the range of different genres examined the volume spans the gamut from poetry fictional prose drama court masque sermons devotional works theological treatises confessions of faith church constitutions tracts and letters to history writing and translation Arranged in roughly chronological order *Writing and Religion in England 1558 1689* presents chapters which explore religious writing within the wider contexts of culture ideas attitudes and law as well as studies which concentrate more on the texts and readerships of particular writers Several contributors embrace an inter arts orientation relating writing to liturgical ceremony painting music and architecture while others opt for a stronger sociological slant explicitly emphasizing the role of women writers and of writers from different sub cultural backgrounds

New Perspectives on Tudor Cultures Zsolt Almási, Mike Pincombe, 2012-04-25 This volume presents a selection of papers from the 6th International

Conference of the Tudor Symposium held at the University of Sheffield in 2009 It brings together new explorations of Tudor literature from scholars based all over Europe France Greece Hungary Ireland Norway and the United Kingdom The papers cover the long mid Tudor period from Skelton and more to the young Shakespeare but with a central emphasis on the middle decades of the sixteenth century Topics range widely from philosophy and social commentary to more traditionally literary kinds of writing such as lyric and tragedy both dramatic and non dramatic The volume as a whole offers an attractively kaleidoscopic image of the variety of new work being carried out in the area in the new millennium **Edmund Campion** Richard Simpson,2013-12 Recount the life of Edmund Campion saint and martyr in this newly revised and definitive version from TAN Books A new and updated life of St Edmund Campion Simpson s classic biography has been thoroughly revised and enlarged by Fr Peter Joseph With a foreword by Cardinal Pell *Shakespeare and Religion* Alison Shell,2014-09-22 This book sets Shakespeare in the religious context of his times presenting a balanced up to date account of current biographical and critical debates and addressing the fascinating under studied topic of how Shakespeare s writing was perceived by literary contemporaries both Catholic and Protestant whose priorities were more obviously religious than his own It advances new readings of several plays especially Hamlet King Lear and The Winter s Tale these draw in many cases on new and under exploited contemporary analogues ranging from conversion narratives books of devotion and polemical pamphlets to manuscript drama and emblems Shakespeare s writing has been seen both as profoundly religious giving everyday human life a sacramental quality and as profoundly secular foreshadowing the kind of humanism that sees no necessity for God This study attempts to reconcile these two points of view describing a writer whose language is saturated in religious discourse and whose dramaturgy is highly attentive to religious precedent but whose invariable practice is to subordinate religious matter to the particular aesthetic demands of the work in hand For Shakespeare as for few of his contemporaries the Judaeo Christian story is something less than a master narrative *The Renaissance of emotion* Richard Meek,Erin Sullivan,2015-08-01 This collection of essays offers a major reassessment of the meaning and significance of emotional experience in the work of Shakespeare and his contemporaries Recent scholarship on early modern emotion has relied on a medical historical approach resulting in a picture of emotional experience that stresses the dominance of the material humoral body The Renaissance of emotion seeks to redress this balance by examining the ways in which early modern texts explore emotional experience from perspectives other than humoral medicine The chapters in the book seek to demonstrate how open creative and agency ridden the experience and interpretation of emotion could be Taken individually the chapters offer much needed investigations into previously overlooked areas of emotional experience and signification taken together they offer a thorough re evaluation of the cultural priorities and phenomenological principles that shaped the understanding of the emotive self in the early modern period The Renaissance of emotion will be of particular interest to students and scholars of Shakespeare and Renaissance literature the history of emotion theatre and cultural history and the history of
