Lindsey, 1995 In *Indians at Hampton Institute* Donal F Lindsey examines the complex and changing interactions among Indians blacks and whites at the nation's premier industrial school for racial minorities He traces the rise and decline of the Indian program in the late nineteenth and early twentieth centuries analyzing its impact in the U S campaign for Indian education **The Education of Blacks in the South, 1860-1935** James D. Anderson, 2010-01-27 James Anderson critically reinterprets the history of southern black education from Reconstruction to the Great Depression By placing black schooling within a political cultural and economic context he offers fresh insights into black commitment to education the peculiar significance of Tuskegee Institute and the conflicting goals of various philanthropic groups among other matters Initially ex slaves attempted to create an educational system that would support and extend their emancipation but their children were pushed into a system of industrial education that presupposed black political and economic subordination This conception of education and social order supported by northern industrial philanthropists some black educators and most southern school officials conflicted with the aspirations of ex slaves and their descendants resulting at the turn of the century in a bitter national debate over the purposes of black education Because blacks lacked economic and political power white elites were able to control the structure and content of black elementary secondary normal and college education during the first third of the twentieth century Nonetheless blacks persisted in their struggle to develop an educational system in accordance with their own needs and desires The American Missionary, 1904 Vols 13 62 include abridged annual reports and proceedings of the annual meetings of the American Missionary Association 1869 1908 v 38 62 include abridged annual reports of the Society's Executive committee 1883 84 1907 1908 The Life of Elaine Goodale Eastman Theodore D. Sargent, 2005-01-01 Raised in a sheltered puritanical household in New England Elaine Goodale Eastman 1863 1953 followed her conscience and calling in 1885 when she traveled west and opened a school on the Great Sioux Reservation in South Dakota Over the next six years she witnessed many of the monumental events that affected the Lakotas including the inception of the Ghost Dance religion and the fallout from the Wounded Knee massacre in December 1890 She also fell in love with and married Charles Eastman a Dakota doctor with whom she had six children and went on to help edit his many popular books on Sioux life and culture This biography draws on a newly discovered cache of more than one hundred letters from Elaine that were collected by one of her sisters Rose Goodale Dayton as well as newly discovered family correspondence and photographs Previous books about Elaine including her own autobiography emphasize her work on the Sioux reservation and association with her famous husband Access to her personal papers however enabled Theodore D Sargent to shed new light on the dynamics of her thirty

year marriage to Charles and its ultimate demise the importance of her own literary contributions during this period and the challenges and successes of her life following their separation The result is a long overdue multidimensional portrait of the relationships and aspirations that impelled and troubled this fascinating woman and her extraordinary life [New Life for Historically Black Colleges and Universities](#) Vann R. Newkirk, 2014-01-10 In December 2008 Georgia state senator Seth Harp ignited controversy when he proposed merging two historically Black colleges with nearby predominantly white colleges to save money Less than a year later Mississippi governor Haley Barbour sought to unite Mississippi's three predominantly Black colleges These efforts kindled renewed interest in historically Black colleges and universities HBCUs across the nation and the globe In this study HBCU officials and faculty attempt to identify the challenges that HBCUs face explore the historic origin of HBCU management systems and identify models of success that will improve the long term viability of the HBCU By analyzing HBCUs within a larger framework of American higher education and the cultural context in which HBCUs operate these essays introduce a new paradigm in the quest to ensure that HBCUs continue to play an important role in the education of Americans of all races
