Sanctifying Signs Making Christian Tradition In Late Medieval England:

Sanctifying Signs David Aers, 2004 Sanctifying Signs presents a critical study of Christian literature theology and culture in late medieval England

The Visual Object of Desire in Late Medieval England Sarah Stanbury, 2015-07-10 Little remains of the rich visual culture of late medieval English piety The century and a half leading up to the Reformation had seen an unparalleled growth of devotional arts as chapels parish churches and cathedrals came to be filled with images in stone wood alabaster glass embroidery and paint of newly personalized saints angels and the Holy Family But much of this fell victim to the Royal Injunctions of September 1538 when parish officials were ordered to remove images from their churches In this highly insightful book Sarah Stanbury explores the lost traffic in images in late medieval England and its impact on contemporary authors and artists For Chaucer Nicholas Love and Margery Kempe the image debate provides an urgent language for exploring the demands of a material devotional culture though these writers by no means agree on the ethics of those demands The chronicler Henry Knighton invoked a statue of St Katherine to illustrate a lurid story about image breaking Lollards Later John Capgrave wrote a long Katherine legend that comments through the drama of a saint in action on the powers and uses of religious images As Stanbury contends England in the late Middle Ages was keenly attuned to and troubled by its culture of the spectacle whether this spectacle took the form of a newly made queen in Chaucer's Clerk's Tale or of the animate Christ in Norwich Cathedral's Despensers Retable In picturing images and icons these texts were responding to reformist controversies as well as to the social and economic demands of things themselves the provocative objects that made up the fabric of ritual life

Piers Plowman and the Reinvention of Church Law in the Late Middle Ages Arvind Thomas, 2019-03-14 It is a medieval truism that the poet meddles with words the lawyer with the world But are the poet's words and the lawyer's world really so far apart To what extent does the art of making poems share in the craft of making laws and vice versa Framed by such questions Piers Plowman and the Reinvention of Church Law in the Late Middle Ages examines the mutually productive interaction between literary and legal makynge in England's great Middle English poem by William Langland Focusing on Piers Plowman's preoccupation with wrongdoing in the B and C versions Arvind Thomas examines the versions representations of trials confessions restitutions penalties and pardons Thomas explores how the literary informs and transforms the legal until they finally cannot be separated Thomas shows how the poem's narrative voice metaphor syntax and style not only reflect but also act upon properties of canon law such as penitential procedures and authoritative maxims Langland's mobilization of juridical concepts Thomas insists not only engenders a poetics informed by canonist thought but also expresses an alternative vision of canon law from that proposed by medieval jurists and today's medievalists

Heresy Trials and English Women Writers, 1400-1670 Genelle Gertz, 2012-06-14 By analyzing the interrogations of Margery Kempe Anne Askew Marian Protestant women Margaret Clitherow and Quaker women Genelle Gertz examines the complex dynamics of women's writing preaching and authorship under religious persecution and

censorship and uncovers unexpected connections between the writings of women on trial for their religious beliefs

Cultural Reformations Brian Cummings, James Simpson, 2010-06-24 The deepest periodic division in English literary history has been between the medieval and the early modern Cultural Reformations initiates discussion on many fronts in which both periods look different in dialogue with each other *Artisans and Narrative Craft in Late Medieval England* Lisa H. Cooper, 2011-03-10 The first book length study to articulate the vital presence of artisans and craft labor in medieval English literature from c 1000 1483 *The Oxford History of Poetry in English* Helen Cooper, Robert R. Edwards, 2023-05-09 The Oxford History of Poetry in English is designed to offer a fresh multi voiced and comprehensive analysis of poetry from Anglo Saxon culture through contemporary British Irish American and Global culture including English Scottish and Welsh poetry Anglo American colonial and post colonial poetry and poetry in Canada Australia New Zealand the Caribbean India Africa Asia and other international locales The series both synthesizes existing scholarship and presents cutting edge research employing a global team of expert contributors for each of the fourteen volumes This volume occupies both a foundational and a revolutionary place Its opening date 1100 marks the re emergence of a vernacular poetic record in English after the political and cultural disruption of the Norman Conquest By its end date 1400 English poetry had become an established if still evolving literary tradition The period between these dates sees major innovations and developments in language topics poetic forms and means of expression Middle English poetry reflects the influence of multiple contexts history social institutions manuscript production old and new models of versification medieval poetic theory and the other literary languages of England It thus emphasizes the aesthetic imaginative treatment of new and received materials by medieval writers and the formal craft required for their verse Individual chapters treat the representation of national history and mythology contemporary issues and the shared doctrine and learning provided by sacred and secular sources including the Bible Throughout the period lyric and romance figure prominently as genres and poetic modes while some works hover enticingly on the boundary of genre and discursive forms The volume ends with chapters on the major writers of the late fourteenth century Langland the Gawain poet Chaucer and Gower and with a look forward to the reception of something like a national literary tradition in fifteenth century literary culture *The Quest for the Christ Child in the Later Middle Ages* Mary Dzon, 2017-03-09 Beginning in the twelfth century clergy and laity alike started wondering with intensity about the historical and developmental details of Jesus early life Was the Christ Child like other children whose characteristics and capabilities depended on their age Was he sweet and tender or formidable and powerful Not finding sufficient information in the Gospels which are almost completely silent about Jesus childhood medieval Christians turned to centuries old apocryphal texts for answers In *The Quest for the Christ Child in the Later Middle Ages* Mary Dzon demonstrates how these apocryphal legends fostered a vibrant and creative medieval piety Popular tales about the Christ Child entertained the laity and at the same time were reviled by some members of the intellectual elite of the church In either case such legends so persistent left

their mark on theological devotional and literary texts The Cistercian abbot Aelred of Rievaulx urged his monastic readers to imitate the Christ Child's development through spiritual growth Francis of Assisi encouraged his followers to emulate the Christ Child's poverty and rusticity Thomas Aquinas for his part believed that apocryphal stories about the Christ Child would encourage youths to be presumptuous while Birgitta of Sweden provided pious alternatives in her many Marian revelations Through close readings of such writings Dzon explores the continued transmission and appeal of apocryphal legends throughout the Middle Ages and demonstrates the significant impact that the Christ Child had in shaping the medieval religious imagination

Studies in the Transmission of Wyclif's Writings Anne Hudson, 2023-05-31 Wyclif's ideas caused a major upheaval both in the country of his birth and in the Bohemian area of central Europe that upheaval affected theological ecclesiastical and political developments from the late 14th to the early 16th centuries Some of those ideas were transmitted orally through Wyclif's university teaching in Oxford and in his preaching in London and Lutterworth but the main medium through which his message was disseminated was the written word using the universal western language of Latin The papers in this collection look at aspects of that dissemination from the organization and revision of Wyclif's works to form a summa of his ideas the techniques devised to identify and make accessible his multifarious writings the attempts of the orthodox clerical establishment to destroy them through to the fortunes of his texts in the Reformation period manuscripts written in England and those copied abroad mostly in Bohemia are considered Although most of the papers have been published previously a new edition of the important Hussite catalogue of Wyclif's writings is provided and three lengthy sections contribute new material and additions and corrections to previous listings of Wyclif manuscripts

Tellers, Tales, and Translation in Chaucer's Canterbury Tales Warren Ginsberg, 2015 Tellers Tales and Translation argues that Chaucer often recast a coordinating idea or set of concerns in the portraits prologues tales and epilogues that make up a Canterbury performance
