Sanctity And Motherhood Essays On Holy Mothers In The Middle Ages:

Sanctity and Motherhood Anneke B. Mulder-Bakker, 1995 First Published in 1995 Routledge is an imprint of Taylor Francis an informa company Mary's Mother Virginia Nixon, 2004 Saint Anne the mother of Mary is not a biblical figure She first appears in a 2nd century apocryphal infancy gospel as part of the story of the saviour's birth and maternal ancestry Mary's Mother is about the remarkable rise of Anne as a figure of devotion among medieval Christians who found solace in her closeness to Jesus and Mary **The Virgin Mary in the Perceptions of Women** Joelle Mellon, 2016-04-21 Once the Virgin Mary was a pivotal element of Christianity a holy figure at the heart of most Christians' spiritual lives She was invoked at all major life passages baptisms weddings childbirths and funerals and images of the Virgin Mary could be found virtually anywhere from pub signs to sacred texts Medieval women especially looked to Mary to answer their prayers be their role model and serve as their advocate in heaven They prayed to her several times a day and sometimes devoted their entire lives to her service This book investigates perceptions of the Virgin Mary through several centuries of literature Focusing especially on the depictions of the Virgin Mary in medieval and Renaissance manuscripts the author rediscovers a time when the Divine Female was very much in evidence and good Christian women were taught to pray to a Holy Mother Topics include the cyclical popularity of Virgin Mary devotional objects such as Books of Hours rosaries and Marian gardens the mystical qualities attributed to the Virgin Mary through centuries of reported divine visions the historical relationships between the Virgin Mary and other religious figures including the Devil and Mary Magdalene as an alternative to the Virgin Mary as a feminine model **Married Life in the Middle Ages, 900-1300** Elisabeth van Houts, 2019-02-06 Married Life in the Middle Ages 900-1300 contains an analysis of the experience of married life by men and women in Christian medieval Europe c 900-1300 The study focusses on the social and emotional life of the married couple rather than on the institutional history of marriage breaking it into three parts Getting Married the process of getting married and wedding celebrations Married Life the married life of lay couples and clergy their sexuality and any remarriage and Alternative Living which explores concubinage and polygyny as well as the single life in contrast to monogamous sexual unions In this volume van Houts deals with four central themes First the tension between patriarchal family strategies and the individual family member's freedom of choice to marry and if so to what partner second the role played by the married priesthood in their quest to have individual agency and self-determination accepted in their own lives in the face of the growing imposition of clerical celibacy third the role played by women in helping society accept some degree of gender equality and self-determination to marry and in shaping the norms for married life incorporating these principles fourth the role played by emotion in the establishment of marriage and in married life at a time when sexual and spiritual love feature prominently in medieval literature *Motherhood and Mothering in Anglo-Saxon England* M. Dockray-Miller, 2000-03-15 Motherhood and Mothering in Anglo-Saxon England sifts through the historical evidence to describe and analyze a world of violence and

intrigue where mothers needed to devise their own systems to protect nurture and teach their children Mary Dockray Miller casts a maternal eye on Bede the Anglo Saxon Chronicle and Beowulf to reveal mothers who created rituals genealogies and institutions for their children and themselves Little known historical figures queens abbesses and other noblewomen used their power in court and convent to provide education medical care and safety for their children showing us that mothers of a thousand years ago and mothers of today had many of the same goals and aspirations *Holy Harlots in Medieval English Religious Literature* Juliette Vuille, 2021 First comprehensive investigation of the major significance of female sinners turned saints in medieval literature The Cruellest of All Mothers Mary Dunn, 2015-10-01 In 1631 Marie Guyart stepped over the threshold of the Ursuline convent in Tours leaving behind her eleven year old son Claude against the wishes of her family and her own misgivings Marie concluded God was dearer to me than all that Leaving him therefore in His hands I bid adieu to him joyfully Claude organized a band of schoolboys to storm the convent begging for his mother's return Eight years later Marie made her way to Quebec where over the course of the next thirty three years she opened the first school for Native American girls translated catechisms into indigenous languages and served some eighteen years as superior of the first Ursuline convent in the New World She would also maintain over this same period an extensive and intimate correspondence with the son she had abandoned to serve God *The Cruellest of All Mothers* is fundamentally an explanation of Marie de l'Incarnation's decision to abandon Claude for religious life Complicating Marie's own explication of the abandonment as a sacrifice carried out in imitation of Christ and in submission to God's will the book situates the event against the background of early modern French family life the marginalization of motherhood in the Christian tradition and seventeenth century French Catholic spirituality Deeply grounded in a set of rich primary sources *The Cruellest of All Mothers* offers a rich and complex analysis of the abandonment **Conflicting Femininities in Medieval German Literature** Karina Marie Ash, 2016-05-23 Drastic changes in lay religiosity during the High Middle Ages spurred anxiety about women forsaking their secular roles as wives and mothers for religious ones as nuns and beguines This anxiety and the subsequent need to model an ideal of feminine behavior for the laity is particularly expressed in the German versions of Latin and French narratives Using thirteenth century penitentials monastic exempla and sermons Karina Marie Ash clarifies how secular wifehood was recast as a quasi religious role and in German epics and romances from the late twelfth and early thirteenth centuries how female characters are adapted to promote the salvific nature of worldly love in ways that echo the pastoral reevaluation of women at that time Then she argues that mid and late thirteenth century German literature not only reflects this impulse to idealize women's roles in lay society but also to promote an alternative model of femininity that deploys ways of privileging secular roles for women over religious ones These continuously evolving readaptations of female protagonists across cultures and across centuries reflect fictive solutions for real historical concerns about women that not only complement contemporary pastoral and legal reforms but are also unique to medieval German literature **Saints' Lives and the Rhetoric of**

Gender John Kitchen, 1998 He then focuses on one of the few biographies written at that time by a female author Baudonivia's Life of Saint Radegund Baudonivia's story of a female saint is considered in light of the previous observations on Fortunatus Gregory and the prominent trends that characterize the literature's early development
