Sanctity Of Time And Space In Tradition And Modern:

Sanctity of Time and Space in Tradition and Modernity Alberdina Houtman, Joshua J. Schwartz, Marcel Poorthuis, 2020-01-29 Time and space can take on a sacred nature in both Judaism and Christianity accompanied by a permanent critical attitude towards the sacred Conceptions of sacredness imply a conception of community and of society at large This study investigates the different attitudes toward sacred time and space from an interdisciplinary perspective ranging from the Biblical period through Qumran Patristics Rabbinics archaeology and theology to modern and even to post modern rituals This approach offers a fascinating insight into both the common heritage of Judaism and Christianity and their mutual differences Paratext and Megatext as Channels of Jewish and Christian Traditions August den Hollander, Ulrich Schmid, Willem Smelik, 2020-01-29 Religious traditions are channeled to new audiences by textual markers which inform their understanding and influence Such markers are signs of contextualisation which belong to the paratext of a tradition textual elements that do not belong to the core text itself but belong to their embedding and as such affect their reception Alternatively some texts function purposely in tandem with another text and cannot be understood without that text While the second text informs the way the first one is being understood it can hardly function independently The discussions include the arrangement of textual blocks in the Hebrew Bible how the oral transmission of Jewish Aramaic Bible translations had to be recited as a counterpoint to the Hebrew chant how synagogue poetry presupposes the channels of liturgical instruction how the Talmud can be perceived as a translation of Mishnah how the presence of paratextual elements such as annotations and prefaces influenced the Index Librorum Prohibitorum concerning 16th century Bibles the function of paratext and scope for modern Bible translations This volume will tentatively explore the wide range of paratext and megatext as devices of channeling religious traditions Modernity and the Construction of Sacred Space Aaron French, Katharina Waldner, 2024-07-01 This volume focuses on the connection between modern design and architectural practices and the construction of sacred spaces Not only language and ritual but space place and architecture play a significant role in constructing special or religious spaces However this concept of a constructed sacred space remains undertheorized in religious studies and the history of art and architecture in general This volume therefore revisits the question of a modern sacred space from an interdisciplinary perspective focusing on religion space and architecture during the emergence of the modern period and up until contemporary times Revisiting the ways in which modern architects and artists have endeavored to create sacred spaces and buildings for the modern world will address the underlying questions of how religious ideas especially those related to esotericism and to alternative religiosities have transformed the way sacred spaces are conceptualized today Holiness Stephen C. Barton, 2003-01-01 Stephen Barton has commissioned social scientists philosophers of religion feminists biblical scholars historians moral theologians and systematic theologians international experts from a wide range of theological and related disciplines to reflect on holiness The book is divided into

four parts the idea of holiness holiness and scripture holiness and Christian tradition and holiness and contemporary issues The contributions are inter denominational and inter religious There is nothing comparable on holiness available at present so this collection fills a significant gap in the literature Its comprehensive range and its interdisciplinary style will make it an important resource for students and scholars in theology church history ethics and religious studies

Saints and Role Models in Judaism and Christianity Marcel Poorthuis, Joshua J. Schwartz, 2004-01-01 This volume deals with the role of saints and exemplary individuals in Judaism and Christianity Although sharing the Hebrew Bible and recognizing the same Biblical figures there both religions have developed widely divergent perspectives upon the significance of these figures although there are occasional common motifs and themes Moreover even the contrasting themes betray an underlying interaction between both religions as is clear from the contributions on for example Melchizedek Elijah the Desert Fathers Rabbis on clothing the Apostle Peter in Jewish tradition the Maccabees in Christian tradition and the Biblical examples in Saint Antony the Hermit The book examines Jewish and Christian perspectives upon saints and role models from the Biblical period to the present time It will be of special importance to scholars and general readers interested in an interdisciplinary approach to theology rabbinics history art history and much more
