F. Dulles, 2014-07-03 Early in a sixteen year sojourn in Mexico as an engineer for an American mining company John W F Dulles became fascinated by the story of Mexico's emergence as a modern nation and was imbued with the urge to tell that story as it had not yet been told by letting events speak for themselves without any interpretations or appraisal The resultant book offers an interesting paradox it is chronicle in the medieval sense a straightforward record of events in chronological order recounted with no effort at evaluation or interpretation yet in one aspect it is a highly personal narrative since much of its significant new material came to Dulles as a result of personal interviews with principals of the Revolution From them he obtained firsthand versions of events and other reminiscences and he has distilled these accounts into a work of history characterized by thorough research and objective narration These fascinating interviews were no more important however than were the author's many hours of laborious search in libraries for accounts of the events from Carranza's last year to Calles' final retirement from the Mexican scene The author read scores of impassioned versions of what transpired during these fateful years accounts written from every point of view virtually all of them unpublished in English and many of them documents which had never been published in any language Combining this material with the personal reminiscences Dulles has provided a narrative rich in its new detail dispassionate in its presentation of facts dramatic in its description of the clash of armies and the turbulence of rough and tumble politics and absorbing in its panoramic view of a people's struggle In it come to life the colorful men of the Revolution Obregón De la Huerta Carranza Villa Pani Carillo Puerto Morones Calles Portes Gil Vasconcelos Ortiz Rubio Garrido Canabal Rodríguez Cárdenas Dulles' narrative of their public actions is illumined occasionally by humorous anecdotes and by intimate glimpses From it emerges also as the main character Mexico herself struggling for self discipline for economic stability for justice among her citizens for international recognition for democracy This account will be prized for its encyclopedic collection of facts and for its important clarification of many notable events among them the assassination of Carranza the De La Huerta revolt the assassination of Obregón the trial of Toral the resignation of President Ortiz Rubio and the break between Cárdenas and Calles More than sixty photographs supplement the

The North-Americans of Yesterday Frederick Samuel Dellenbaugh, 1901

Yesterday's Dawn Theresa Scott, 2013-02-14 Hunters of the Ice Age At the dawn of time a proud people battled for survival at one with the harsh beauty of the land and its primal rhythms The Mammoth Slayer Named for the massive beast sacred to his people Mamut had proven his strength and courage time and again But when it came to subduing one helpless female he found himself at a distinct disadvantage Never had he realized the power of beguiling green eyes soft curves and berry red lips to weaken a man's resolve He had claimed he would make the stolen woman his captive but he soon learned he would never enjoy her alluring body unless he could first win her elusive heart

The North-Americans of Yesterday

Frederick Samuel Dellenbaugh, The basis of this volume is eight lectures given before the Lowell Institute in Boston in 1894 They have been expanded by the addition of further matter relating to the various subjects but even with these additions there is but a brief résumé of the vast store of material extant The Indian has never seemed to me an abnormal factor but rather a natural part of our society for it is now nearly thirty years since I first associated with him in the Far West and before that the Iroquois were familiar to me as a small boy When I first went among the Western tribes it was with the second Colorado River expedition of that gallant explorer and foremost student of Amerindian affairs John Wesley Powell His own works and the reports of the United States Bureau of Ethnology of which he has so long been the head and where he has gathered together so many eminent ethnologists and archaeologists have furnished me with much material These reports form a fine library on Amerindian matters and reflect great honour on Professor Powell who conceived the idea and on Congress which has ungrudgingly supported it A great and timely work has become established which to private enterprise would have been next to impossible Add to these the invaluable reports of the Smithsonian Institution and the memoirs and reports of the Peabody Museum and American Museum and the student has before him a large fund of material without seeking farther Then there are the brilliant works of Parkman Brinton Winsor Bandelier Putnam Morgan Schoolcraft Prescott Maudsley Goodman Wilson Keane and many others with the huge production of H H Bancroft filling an important place To all of these and to others I owe much and I have intended in every case to give credit and references Where these in some cases may not have been properly awarded it is due to oversight and not to intention My especial thanks are due to the Bureau of Ethnology for copies of all the reports and for permission to utilise the illustrations contained in them and to the American Museum Archaeological Institute Field Columbian Museum Peabody Museum and Smithsonian Institution for similar generosity I take pleasure also in acknowledging favours from Professor Putnam Professor Powell Professor Mason Dr McGee Mr Saville

Professor Seymour Professor Langley Mr Bancroft Professor Holmes Dr Baum and others and from Mr E H Harriman the opportunity of visiting Alaska under the most favourable circumstances The title The North Americans of Yesterday seems to me appropriate because while there are still some Amerinds extant and a few are even yet apparently leading the old time life nevertheless they are merely remnants of a people whose sun has set and who therefore properly belong to yesterday For this reason I have mainly treated them as a bygone race Between the so called Red Indian of the United States and northern regions and the so called Civilised Tribes of Mexico and southern regions I have made no race differentiation because the differences whatever they may be are discovered to be not of kind but of degree Confusion was formerly caused by misconceptions and by romantic ideas which have been dispelled by the more scientific methods of later days Some confusion has been caused also by the persistent efforts to classify the progress of mankind as a whole into distinct world epochs or time periods It seems to me that no such universal epochs of even progress could have existed in past time any more than in present time Tribes of men are differentiated now always will be and I believe always have been Common world planes of culture in time periods are an impossibility Such schedules as Morgan s may apply to tribes and stocks as indicating their special individual advance but not to the whole world except in a very general way That is they may be culture but never time classifications The closer we approach the beginnings of man s existence the less marked perhaps the differences in tribes but differences certainly began at the moment when one group of men left another group of men to live apart The environment and necessities of each group would cause differences and varying rates of progress One group would gain the bow a thousand years before another
