Semitic Languages:

Semitic Languages Edward Lipiński, 2001 The first comparative grammar of the Semitic languages by H Zimmern was published a hundred years ago and the last original work of this kind was issued in Russian in 1972 by B M Grande The present grammar designed to come out in the centenary of the completion of Zimmern's work fills thus a gap Besides it is based on both classical and modern Semitic languages it takes new material of these last decades into account and situates the Semitic languages in the wider context of Afro Asiatic The introduction briefly presents the languages in question The main parts of the work are devoted to phonology morphology and syntax with elaborate charts and diagrams Then follows a discussion of fundamental questions related to lexicographical analysis The study is supplemented by a glossary of linguistic terms used in Semitics by a selective bibliography by a general index and by an index of words and forms The book is the result of twenty five years of research and teaching in comparative Semitic grammar

The Semitic Languages Robert Hetzron, 1997 The Semitic Languages presents a unique comprehensive survey of individual languages or language clusters from their origins in antiquity to their present day forms The Semitic family occupies a position of great historical and linguistic significance the spoken and written languages of the Phoenicians Hebrews and Arabs spread throughout Asia and northern and central Africa the Old Semitic civilizations in turn contributed significantly to European culture and modern Hebrew modern literary Arabic Amharic and Tigrinya have become their nations official languages The book is divided into three parts and each chapter presents a self contained article written by a recognized expert in the field I General Issues providing an introduction to the grammatical traditions subgrouping and writing systems of this language family II Old Semitic Languages III Modern Semitic Languages Parts II and III contain structured chapters which enable the reader to access and compare information easily These individual descriptions of each language or cluster include phonology morphology syntax lexis and dialects Suggestions are made for the most useful sources of further reading and the work is comprehensively indexed

The Semitic Languages Stefan Weninger, 2011-12-23 The handbook The Semitic Languages offers a comprehensive reference tool for Semitic Linguistics in its broad sense It is not restricted to comparative Grammar although it covers also comparative aspects including classification By comprising a chapter on typology and sections with sociolinguistic focus and language contact the conception of the book aims at a rather complete unbiased description of the state of the art in Semitics Articles on individual languages and dialects give basic facts as location numbers of speakers scripts numbers of extant texts and their nature attestation where appropriate and salient features of the grammar and lexicon of the respective variety The handbook is the most comprehensive treatment of the Semitic language family since many decades

The Semitic Languages John Huehnergard, Na'ama Pat-El, 2019-02-18 The Semitic Languages presents a comprehensive survey of the individual languages and language clusters within this language family from their origins in antiquity to their present day forms This second edition has been fully revised with new chapters and a wealth of additional

material New features include the following new introductory chapters on Proto Semitic grammar and Semitic linguistic typology an additional chapter on the place of Semitic as a subgroup of Afro Asiatic and several chapters on modern forms of Arabic Aramaic and Ethiopian Semitic text samples of each individual language transcribed into the International Phonetic Alphabet with standard linguistic word by word glossing as well as translation new maps and tables present information visually for easy reference This unique resource is the ideal reference for advanced undergraduate and postgraduate students of linguistics and language It will be of interest to researchers and anyone with an interest in historical linguistics linguistic typology linguistic anthropology and language development

Natural Language Processing of Semitic Languages Imed Zitouni,2014-04-22 Research in Natural Language Processing NLP has rapidly advanced in recent years resulting in exciting algorithms for sophisticated processing of text and speech in various languages Much of this work focuses on English in this book we address another group of interesting and challenging languages for NLP research the Semitic languages The Semitic group of languages includes Arabic 206 million native speakers Amharic 27 million Hebrew 7 million Tigrinya 6 7 million Syriac 1 million and Maltese 419 thousand Semitic languages exhibit unique morphological processes challenging syntactic constructions and various other phenomena that are less prevalent in other natural languages These challenges call for unique solutions many of which are described in this book The 13 chapters presented in this book bring together leading scientists from several universities and research institutes worldwide While this book devotes some attention to cutting edge algorithms and techniques its primary purpose is a thorough explication of best practices in the field Furthermore every chapter describes how the techniques discussed apply to Semitic languages The book covers both statistical approaches to NLP which are dominant across various applications nowadays and the more traditional rule based approaches that were proven useful for several other application domains We hope that this book will provide a one stop shop for all the requisite background and practical advice when building NLP applications for Semitic languages
