politics or culture of sport **The Experience of Expatriate English Language Teaching** David B. Wilson, 2025-05-24

This is a unique applied linguistic study which demonstrates that the history of TEFLers is very different from the history of TEFL. Instead of studying theories of language learning and teaching it explores the experience of being a TEFLer through the ages using a wide range of fictional and fictive sources: novels, plays, biographies, memoirs, essays, and poems. Part One considers the present and recent past through an analysis of 15 fictional works and five memoirs. Part Two is concerned with the experiences of some historical iconic figures from the world of TEFL, beginning with the sixteenth century and ending with figures associated with the British Council and International House. Along the way one meets Victorian governesses, Berlitz teachers, and literary figures from the inter-war Golden Age of travel. Interposed are some of the experiences of the author garnered during his long and varied career as an expatriate TEFLer.

Memoir G. Thomas Couser, 2012-01-19 A compact, pithy guide to the most popular form of life writing. **Memoir: An Introduction** provides a primer to the ubiquitous literary form and its many subgenres.

Infinitesimal: How a Dangerous Mathematical Theory Shaped the Modern World Amir Alexander, 2014-04-08 Explores the epic battle over a mathematical concept that shook the old order and shaped the world as we know it. On August 10, 1632, five leaders of the Society of Jesus convened in a somber Roman palazzo to pass judgment on a simple idea: that a continuous line is composed of distinct and limitlessly tiny parts. The doctrine would become the foundation of calculus, but on that fateful day the judges ruled that it was forbidden. With the stroke of a pen they set off a war for the soul of the modern world.

Fanny Lewald Margaret E. Ward, 2006 Fanny Lewald (1811-1889) provides the first comprehensive account in English of the life and work of Fanny Lewald (1811-1889), tracing the way she positioned herself sometimes precariously between rebellion and renunciation. All genres are considered: novels and stories, autobiography, travel literature, essays, diaries, and letters. Widely recognized as one of the early German advocates of women's right to education and work, this study places Lewald's views on these issues in a broadly comparative cultural context. This book will therefore be of interest not only to specialists in German literature but also to students and scholars of European cultural and social history, Jewish studies, and women's studies.
