New Guide To Cat Care:

The Complete Cat Care Guide for the New Cat Owner Phyllis J. Guillen, 2011-01-11 Cats are known to be very independent animals They are considered very private creatures They do not crave for continuous attention from their owners They can be left on their own for long periods of time and still remain happy They make ideal companions for those who have a very busy lifestyle and for those who do not wish for the regular upkeep of a high maintenance pet No matter how it likes to be alone most times though the cat is truly a very sensitive pet It can sense its owner s feelings and moods It can easily read its owner s personality and adapt itself to its owner s lifestyle Cats can be unfaithful pets in the sense that if it doesn t like its owner it can leave the owner s home and find a new home on its own if it is no longer happy in its present environment But if the cat likes its owner and is satisfied with the care it gets they can be very loyal very affectionate and very devoted life long companions Some cat owners say that as long as a cat is house trained properly and is fed its food at the proper time and does not go hungry it generally will keep to its own and mind its own business in its own space or area in the house However this does not mean that although a cat is low care that it does not require any care at all It will still depend on you for food for grooming for exercise for when it is sick and needs vet care and of course from time to time for that requisite TLC which every creature needs Caring for a cat can still take a bit of work As a pet cat owner you will need to fully understand your cat s needs so you can give it the best possible care This book will help you do just that **The Humane Society of the United States Complete Guide to Cat Care** Wendy Christensen, Humane Society of the United States, 2004-04-20 A guide to caring for cats and kittens that provides information on proper feeding grooming nutrition health care and training **The Ultimate Cat Care Guide: Expert Tips for Happy and Healthy Cats** Samantha D. selecting your furry feline friend to tips on purchasing cat health insurance Seasoned cat owners as well will find useful information they can brush up on such as signs and symptoms of common feline ailments and well as the best ways to administer medication to a cat Filled with practical advice and wisdom 17 Purrfect Cat Care Tips will be a book you rely on over and over again *Cat Care* Beverly Hill,2016-01-12 This book will provide some tips to make your life easier in the following ways Reduce your fear of cat preying on other pets increase your pleasure by showing off your pet's tricks remove need to get rid of your houseplants prevent scratches on your lovely furniture prevent embarrassment of smelly carpet from pet urination increase petting pleasure decrease need to listen to cat's meow Even though cats are fairly hearty and healthy they do require some basic care This includes looking after their emotional health as well as their physical wellbeing With just a little bit of practice caring for your cat can be enjoyable as well as rewarding If you're thinking about adopting a pet and considering your new family member to be a cat you need to know the basics of how to take care of a cat People who have busy lifestyles might prefer a cat rather than a dog because they require less attention than dogs However all animals need a certain amount of proper care to be healthy and happy and before you bring your new kitten home you must learn what the cat will need Cats are good pets to keep at home as they are not as messy as some pets People find cats more adorable than dogs as they do not have that distinct smell of canines and they are smaller in nature Although taking care of cats is quite similar to dogs cat care methods might be a little complicated in some terms and these minute details make all the difference In comparison to dogs cats are quite fussy when it comes to food This is because unlike dogs their digestive systems have limitations aside from having smaller stomachs These felines have a great tendency to have allergic reactions to foods such as beef and dairy products eggs and sometimes vitamin supplements Cat owners need to begin to train their kittens as soon as you bring them home The earlier you begin to train your pet the better it will be for your household
