Nye Bevan And The Mirage Of British Socialism

Greer, Scott L.

Nye Bevan And The Mirage Of British Socialism:

Nye Bevan and the Mirage of British Socialism John Campbell, 1987 **Aneurin Bevan and the Mirage of British Socialism** John Campbell, 1987 **The End of the British Empire in the Middle East, 1952–1971** Wm. Roger Louis, 2025-02-20

The quarter century after the end of the Second World War and the transfer of power in India in 1947 marked the slow and turbulent dissolution of the British Empire in the Middle East. Seeking to capture the period in its full complexity and contradictions, acclaimed historian Wm. Roger Louis here provides a thoroughgoing account of the British Empire's gradual decline. Unpicking the overlapping motivations of those across Britain, the US, and the Middle East, the book demonstrates how and why enthusiasm for the British involvement in the region waned, the chaotic ways in which the withdrawal unfolded, and the importance of these events for understanding the region today. The book explores the period in full detail, from the overthrow of the Musaddiq government in Iran, the Egyptian Revolution, Sudan's independence, and the events of the pivotal year of 1955 that set the stage for the Suez crisis, the following year through the pivotal Suez crisis of 1956, itself to the crises of 1957, the Iraqi Revolution of 1958, and the 1967 Arab-Israeli war, and concluding with the collapse of the British position in Aden and the decision to withdraw from the Gulf, a process completed by the end of 1971. This panoramic and comprehensive history draws on six decades' work in archives across Europe, the Middle East, and the US, including those from governmental archives and private papers, and in multiple languages, complemented by a considerable body of oral history testimony, much of it acquired by the author through conversations with contemporary British politicians and officials. In so doing, the book sheds new light onto the nature and complexity of the British Empire in its final days and the importance of understanding this history today.

A Green History of the Welfare State Tony Fitzpatrick, 2017-03-16

Environmental problems, particularly climate change, have become increasingly important to governments and social researchers in recent decades. Debates about their implications for social policies and welfare reforms are now moving towards centre stage. What has been missing from such debates is an account of the history of the welfare state in relation to environmental issues and green ideas. *A Green History of the Welfare State* fills this gap. How have the environmental and social policy agendas developed? To what extent have welfare systems been informed by the principles of environmental ethics and politics? How effective has the welfare state been at addressing environmental problems? How might the history of social policies be reimagined? With its lively chronological narrative, this book provides answers to these questions. Through overviews of key periods, politicians, and reforms, the book weaves together a range of subjects into a new kind of historical tapestry, including social policy, economics, party politics, government action and legislation, and environmental issues. This book will be a valuable resource for students and scholars of environmental policy and history, social and public policy, social history, sociology, and politics.

The Great Alliance Jim Phillips, 1996

Reappraising the character of Britain's most successful Labour government, the author provides a study of the Great Alliance between the Labour Party and the trade unions during

the post war period It reveals that the failure of Attlee's government to support the demands of the workers for increased wages and work security in favour of the demands of the financial markets undermined the popularity of the Labour Party that had swept them to power in 1945 *The Formulation of British Defense Policy Towards the Middle East, 1948-56* David R Devereaux, 1990-11-19 *The Labour Party, Housing and Urban Transformation* Phil Child, 2024-05-16

The Labour Party Housing and Urban Transformation explores how the urban transformation of Britain between 1945 and 1970 was understood politically by the Labour Party Placing the Labour Party at the centre of the discussion the book covers the most extensive period of state led urban change in British history from the end of the Second World War to the decline of high modernism in the late 1960s Taking a particular focus on housing to explore the implementation of modernist ideas to drive a far ranging process of urban transformation in Britain it challenges conventional understandings of Labour's urban legacy and puts political ideas at the heart of twentieth century change Utilising a breadth and range of material including two distinct sets of archival sources published secondary material national legislation and Housing Acts and various case studies Child moves seamlessly between the national picture and its local impacts It also draws from sources which had a crucial influence on political thinking throughout the mid twentieth century to understand how urban transformation represented for Labour a political vision of the future A timely contribution both to urban history and to the history of post war Britain it challenges existing interpretations of modernism connects urban change to the political ideas that drove it and allows us to comprehend the state of urban Britain today *Attlee's Labour Governments 1945-51* Robert Pearce, 2006-04-07

The Labour governments of 1945-51 are among the most important and controversial in modern British history and have been the focus of extensive research over the last fifteen years In this study Robert Pearce makes the results of this research available in a concise and accessible form whilst encouraging students to formulate their own interpretations He looks at the main political personalities of the period sets their work in the context of Labour history since 1900 and examines their domestic foreign and imperial achievements *Health and Society in Twentieth Century Britain* Helen Jones, 2014-01-14

Few things tell us more of a nation's general well being than the development of the life expectancy of its citizens the rising standards of health that they come to demand and how evenly that improvement is shared throughout society Helen Jones examines the record of twentieth century Britain in these respects She has much heartening progress to record yet stark inequalities remain Her book is thus both a review of and contribution to the current debates over gender class and ethnic inequalities in standards of health in Britain today **Peace Movements: International Protest and World Politics Since 1945** April Carter, 2014-09-11

There is a long tradition of opposition to war and organized peace campaigns date from 1815 Since 1945 however modern weapons technology has threatened world wide destruction and has stimulated widespread protests This book sketches in the background of thinking about peace and resistance to war before 1945 and then examines how public opposition to nuclear weapons and testing grew in the 1950s and early 1960s Later chapters cover the major resurgence of

nuclear disarmament campaigns in the 1980s The book also looks at how peace protest has spread from its origins in North America and North West Europe to embrace many parts of the world opposition to nuclear testing has indeed been particularly strong in Japan Australia New Zealand and the Pacific islands The period 1945 to 1990 was dominated by the Cold War between the USA and USSR and the role of the Soviet sponsored World Peace Council caused difficulties for independent peace groups in the West During the 1980s the emergence of autonomous peace activity in a number of East European countries and even on a very small scale in the USSR itself transformed the possibilities for East West co operation between citizens to urge disarmament and political change A chapter examines these developments Opposition to all forms of militarism has spread in the last 30 years This book charts the struggles to extend the right to conscientious objection to military service and draft resistance to particular wars for example in Southern Africa and Israel It also looks in some detail at the growing opposition to the war in the Vietnam The recent protests against the Gulf War are surveyed briefly in an epilogue

The Labour Party and the Planned Economy, 1931-1951 Richard Toye, 2003 An exploration of Labour's 1931 pledge to create a planned socialist economy and the reasons for its failure to do so In the general election of 1931 the Labour Party campaigned on the slogan Plan or Perish The party's pledge to create a planned socialist economy was a novelty and marked the rejection of the gradualist evolutionary socialism to which Labour had adhered under the leadership of Ramsay MacDonald Although heavily defeated in that election Labour stuck to its commitment The Attlee government came to power in 1945 determined to plan comprehensively Yet the aspiration to create a fully planned economy was not met This book explores the origins and evolution of the promise in order to explain why it was not fulfilled RICHARD TOYE lectures in history at Homerton College Cambridge

Britain, The Commonwealth and Europe A. May, 2015-12-22 Britain's loss of its empire and its turn to Europe are the two most striking features of its foreign policy in the thirty years after 1945 The contributors to this book examine the connection between the two processes Utilizing a range of sources the authors challenge conventional interpretations of the connection and in doing so raise important questions about the nature motivation and effects of British policy

Political Power and Democratic Control in Britain David Beetham, Stuart Weir, 2002-09-11 Democratic Institutions and Practices is the second study carried out under the Democratic Audit of the UK This volume explores the formal institutions and processes of the liberal democratic state including the executive elections parliament and the civil service

Devolution and social citizenship in the UK Greer, Scott L., 2009-01-21 Most of the expansive literature on social citizenship follows its leading thinker T H Marshall and talks only about the British state often referring only to England But social citizenship rights require taxation spending effective public services and politics committed to them They can only be as strong as politics makes them That means that the distinctive territorial politics of the UK are reshaping citizenship rights as they reshape policies obligations and finance across the UK This timely book explores how changing territorial politics are impacting on social citizenship rights across the UK The contributors contend that whilst

territorial politics have always been major influences in the meaning and scope of social citizenship rights devolved politics are now increasingly producing different social citizenship rights in different parts of the UK Moreover they are doing it in ways that few scholars or policymakers expect or can trace Drawing on extensive research over the last 10 years the book brings together leading scholars of devolution and citizenship to chart the connection between the politics of devolution and the meaning of social citizenship in the UK The first part of the book connects the large and largely distinct literatures on citizenship devolution and the welfare state The empirical second part identifies the different issues that will shape the future territorial politics of citizenship in the UK intergovernmental relations and finance policy divergence bureaucratic politics public opinion and the European Union It will be welcomed by academics and students in social policy public policy citizenship studies politics and political science

In search of social democracy John Callaghan, Nina Fishman, Ben Jackson, Martin McIvor, 2017-05-26 The search for social democracy has not been an easy one over the last three decades The economic crisis of the 1970s and the consequent rise of neo liberalism confronted social democrats with difficult new circumstances tax resistant electorates the globalisation of capital and Western deindustrialisation In response a new bout of ideological revisionism consumed social democratic parties But did this revisionism simply amount to a neo liberalisation of the Left or did it propose a recognisably social democratic agenda Were these ideological adaptations the only feasible ones or were there other forms of modernisation that might have yielded greater strategic dividends for the Left Why did some social democratic parties feel it necessary to take their revisionism much further than others *In search of social democracy* brings together prominent scholars of social democracy to address these questions Focusing on the social democratic heartland of Western Europe although Australia and the United States also figure in the analysis it gives the first detailed assessment of how the new social democratic revisionism has fared in government The book begins by considering the underlying causes of the end of social democracy's golden age and the magnitude of the challenges faced by social democratic parties after the 1970s It then proceeds to examine detailed case studies of how particular social democratic parties responded to this changed political terrain Finally it contributes to a broader conversation about the future of social democracy by considering ways in which the political thought of third way social democracy might be radicalised for the twenty first century The contributors offer a variety of perspectives some are sceptical of social democracy's prospects others more sanguine some supportive of the performance of social democratic parties in government others bitingly critical But they are united by the conviction that the themes addressed in this book are crucial to understanding the current politics of the industrialised world and in particular to determining the feasibility of more egalitarian and democratic social outcomes than have been possible so far in the era of neo liberalism An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence

The Postwar Moment Isser Woloch, 2019-01-22 An incisive comparative study of the development of Post World War II progressive politics in the United States Britain and France After the end of World War

II Britain France and the United States were faced with two very different choices return to the civic order of pre war normalcy or embark instead on a path of progressive transformation In this ambitious and original work Isser Woloch assesses the progressive agendas that crystalized in each of the three allied democracies tracing their roots in the interwar decades their development during wartime the struggles to establish them after the war s end and the mixed outcome in each country A fellow of the Guggenheim Foundation the National Endowment for the Humanities and the Institute for Advanced Study at Princeton Woloch is a highly regarded scholar who adds the United States to a discussion that is usually focused solely on Europe His enlightening work successfully argues that the postwar moment deserves a more prominent place in the history of progressive politics **Social Orders and Social Classes in Europe Since 1500** M. L.

Bush,2014-07-15 This pioneering survey evaluates the notions of class and order throughout European history since 1500 After a general theoretical section on the concept of orders and class the book provides discussions and case studies of the nobility the clergy the middle classes and the rural and urban proletariat The studies are drawn from all over Europe from early modern Castile to late Tsarist Russia Contributors include Peter Burke Stuart Woolf A A Thompson and Joseph Bergin

A Treatise on Social Theory Walter Garrison Runciman,1997-08-28 In this concluding volume of his trilogy on social theory W G Runciman applies to the case of twentieth century English society the methodology distinguishing reportage explanation description and evaluation and theory of the preceding two volumes Volume III shows how England s capitalist mode of production liberal mode of persuasion and democratic mode of coercion evolved in the aftermath of the First World War from what they had been since the 1880s but then did not in turn evolve significantly following the Second World War The explanation rests on an analysis of the selective pressures favouring some economic ideological and political practices over others in an increasingly complex environment neither predictable nor controllable by policy makers This is supported by a graphic account of the changes themselves and how they were experienced by different segments of English society

The Wilson Governments 1964-1970 Reconsidered glen O'Hara,Helen Parr,2014-01-02 This book provides a fascinating re assessment of our view of the Wilson governments of 1964 1970 This new text draws on newly available sources across the range of British government and for the first time looks at the whole range of political and state activity This critical appraisal provides a fascinating case study of British government in action in this key period of British History This book was previously published as a special issue of the leading journal Contemporary British History It is an excellent resource for students of governance foreign policy economics and social policy **The People's Peace** Kenneth O. Morgan,2021-07-29

The People s Peace Britain since 1945 is the first comprehensive study by a professional historian of British history from 1945 to the present day It examines the transformation of post war Britain from the planning enthusiasm of 1945 to the rise of New Labour Its themes include the troubles of the British economy public criticism of the legitimacy of the state and its instruments of authority the co existence of growing personal prosperity with widespread social inequality and the debates

aroused by decolonization and Britain's relationship to the Commonwealth the US and Europe Changes in cultural life from the puritanical austerity of the 1940s through the permissiveness of the 1960s to the tensions and achievements of recent years are also charted Using a wide variety of sources including the records of political parties and the most recently released documents from the Public Records Office Kenneth Morgan brings the story right up to date and draws comparisons with the post war history of other nations This penetrating analysis by a leading twentieth century historian will prove invaluable to anyone interested in the development of the Britain of today
