

A scenic landscape featuring a wide, sandy beach in the foreground, transitioning into a dark, rocky shoreline. The ocean is visible in the middle ground, with gentle waves lapping at the shore. In the background, rugged mountains rise under a vast, cloudy sky. The overall tone is serene and contemplative.

Narrating Midlife Christine Elizabeth Kiesinger, Lori West Peterson, 2019-04-30. Narrating Midlife Crisis: Transition and Transformation is rooted in a discussion about why it is important to address the midlife years in ways that challenge and interrogate the myths that surround this phase of life. Although readers are free to construct their own meaning after reading each narrative, they are encouraged to attend to the ways in which each narrative reveals how the author grapples with their particular issues communicatively. More important, readers are invited to see the power of narrative reframing as authors seek to understand, interpret, and live midlife changes in ways that are empowering and life-affirming. In this book, contributors spin compelling and meaningful narratives about change at midlife. The empty nest, the surprise discovery of cancer, redefining one's life at midlife, and reimagining long-term commitment after divorce are just some of the topics explored in this book. Auto-ethnographically crafted, the narratives presented throughout the book aim to show how managing and living through change at midlife is very much a communicative endeavor.

Conscientious Thinking David Bosworth, 2017-02-01. In *Conscientious Thinking*, David Bosworth cuts through all the noise of today's political dysfunction and cultural wars to sound the deeper causes of our discontent. Americans are living, he argues, in a profoundly transitional era, one in which the commonsense beliefs of the first truly modern society are being undermined by the still crude but irreversible forces set

loose by technology's drastic revision of our everyday lives. He shows how this disruptive conflict between modern and post-modern modes of reasoning can be found in all advanced fields including art, medicine, and science, and then traces its impact on our daily actions through such changes as the ways in which friends relate, money is made, crimes are committed, and mates are chosen. Just as feudal values had to give way to a modern worldview that more effectively contained the new social reality generated by the printed book, so must our democracy reimagine itself in ways that can domesticate, civilize, rather than merely monetize a post-modern scene radically transformed by our digital machines. To that end, *Conscientious Thinking* supplies not only the means to make sense of our contentious times but also a provisional sketch of what a desirable post-modern America might look like.

The Call for Vessels for Christ Paul Phillips, 2022-03-09. If you look around at our world today, you can clearly see how it is falling apart politically and spiritually. Satan has stepped in and attempted to turn once on their knees crying out to the Lord, prayer warriors into doubting Christians. Why is that? Is it because we think or believe that God does not care about us any more, or is it that we have totally forgotten who Christ is and who we are in Christ Jesus? At this very moment, there is a dire need for Christians to make a stand and proclaim to the world that CHRIST IS LORD. God wants you to know who HE is and at the same time for you to have a complete understanding of your Spiritual Calling, Spiritual Gifting, and your life's Purpose that will be effective and beneficial not only to you and others but more importantly to the kingdom. HIS desire is for you to make a huge spiritual impact on the world, at least on those who are around you. You have a unique calling and purpose placed upon your life designed by GOD Himself. In *The Call For Vessels For Christ*, Minister Paul Phillips explains ways in which you can discover, step into your purpose and spiritual plan, and operate in your destiny. He discusses topics such as: 1. How to recognize, answer, and fulfill the Spiritual Calling and Spiritual giftings God has placed upon your life. 2. How to operate and effectively utilize what God has for you that will be beneficial to you, your Family, the Kingdom, and Others. 3. How to truly understand your life's purpose and plan that will lead you to your divine destiny. 4. How to become a true Vessel for Christ. You have been called to make an impact on the world, at least on those who are around you. The time is now for we as Christian believers to accept our calling and stand together as Vessels for Christ and proclaim to the world: CHRIST IS LORD.

Structuring Sense: Volume 1: In Name Only Hagit Borer, 2005-01-20. Volume III. Taling form. This book is volume III of a trilogy which explores the difference between words, however defined, and structures, however constructed. The trilogy sets out to demonstrate that the explanation of linguistic competence should be shifted from lexical entries to syntactic structure, from the memorizing of listed information to the manipulation of grammatical rules. Its reformulation of how grammar and listed items interact has profound implications for linguistic, philosophical, and psychological theories about the human mind and language. The book departs from both

constructional approaches to syntax and the long generative tradition that uses the word as the nucleus around which the syntax grows. It argues that the hierarchical abstract structures of language are universal, not language specific, and that language variation emerges from the morphological and phonological properties of grammatical functors or more specifically inflection. This volume applies this approach to the construction of complex words. The book develops a new model of word formation, arguing that the basic building blocks of language are on the one hand rigid semantic and syntactic functions and on the other hand roots which in themselves are but packets of phonological information and are devoid of both meaning and grammatical properties of any kind. Within such a model, syntactic category, syntactic selection, and argument structure are all mediated through syntactic structures projected from rigid functions or alternatively constructed through general combinatorial principles of syntax such as Chomsky's Merge. The meaning of words in turn does not involve the existence of lexemes but rather the matching of a well-defined and phonologically articulated syntactic domain with conceptual content itself outside the domain of language as such. In a departure from most current models of syntax but in line with many philosophical traditions, then, the Exo-Skeletal model partitions meaning into formal functions on the one hand and content on the other hand. While the former are read off syntactico-semantic structures as is usually assumed, content is crucially read off syntactico-phonological structures.
