White Identities Alastair Bonnett, 2018-10-08 White Identities provides a comprehensive overview of this debate drawing together the various strands of recent research into an accessible but challenging introduction The author argues that White Studies as it is presently conceived is an American project reflecting American interpretations of race and history However the book shows that the impact of white identities is international in scope and significance Thus only a thorough historical and international perspective on whiteness can provide a proper introduction to the subject an introduction that has relevance to students worldwide

The Emergence of Cinematic Time Mary Ann Doane, 2002-12-27 Hailed as the permanent record of fleeting moments the cinema emerged at the turn of the nineteenth century as an unprecedented means of capturing time and this at a moment when disciplines from physics to philosophy and historical trends from industrialization to the expansion of capitalism were transforming the very idea of time In a work that itself captures and reconfigures the passing moments of art history and philosophy Mary Ann Doane shows how the cinema representing the singular instant of chance and ephemerality in the face of the increasing rationalization and standardization of the day participated in the structuring of time and contingency in capitalist modernity At this book s heart is the cinema s essential paradox temporal continuity conveyed through stopped time the rapid succession of still frames or frozen images Doane explores the role of this paradox and of notions of the temporal indeterminacy and instability of an image in shaping not just cinematic time but also modern ideas about continuity and discontinuity archivability contingency and determinism and temporal irreversibility A compelling meditation on the status of

cinematic knowledge her book is also an inquiry into the very heart and soul of modernity "The Triple Whammy" and Other Russian Stories Luis Menashe, 2018-08-22 An American historian film specialist and documentary filmmaker shares candid stories of his life in Russia during and after the Cold War A captivating lifetime of personal and professional experiences by an American historian film specialist and documentary filmmaker in the Soviet Union and post Soviet Russia The author s experiences as a radical in the turbulent 1960s and his eventual disenchantment offer some precedents and perspectives to all those on the Left Center or Right interested in the fluctuations of American politics The vivid log of hopes and disillusion is related in a candid non academic style and set against a panorama of history and politics in the late twentieth century A self described scholar activist Menashe weaves together political intellectual and cultural currents of leftist life and draws a vivid picture of people and places life changing adventures the intellectual and political challenges of graduate school during the Cold War encounters with key Russian literary and political figures and much more Then comes the crash the Soviet Union s end As in all failed love affairs Menashe retains some sweet memories The reader will taste them long after reading the memoir Carole Turbin Professor Emerita History and Sociology SUNY Empire State College

Mapping the Invisible Landscape Kent C. Ryden, 1993 Any landscape has an unseen component a subjective component of experience memory and narrative which people familiar with the place understand to be an integral part of its geography but which outsiders may not suspect the existence of OUnless they listen and read carefully This invisible landscape is made visible through stories and these stories are the focus of this engrossing book Traveling across the invisible landscape in which we imaginatively dwell Kent Ryden O himself a most careful listener and reader O asks the following questions What categories of meaning do we read into our surroundings What forms of expression serve as the most reliable maps to understanding those meanings Our sense of any place he argues consists of a deeply ingrained experiential knowledge of its physical makeup an awareness of its communal and personal history a sense of our identity as being inextricably bound up with its events and ways of life and an emotional reaction positive or negative to its meanings and memories Ryden demonstrates that both folk and literary narratives about place bear a striking thematic and stylistic resemblance Accordingly Mapping the Invisible Landscape examines both kinds of narratives For his oral materials Ryden provides an in depth analysis of narratives collected in the Coeur d Alene mining district in the Idaho panhandle for his consideration of written works he explores the O essay of place O the personal essay which takes as its subject a particular place and a writer s relationship to that place Drawing on methods and materials from geography folklore and literature Mapping the Invisible Landscape offers a broadly interdisciplinary analysis of the way we situate ourselves imaginatively in the landscape the way we inscribe its surface with stories Written in an extremely engaging style this book will lead its readers to an awareness of the vital role that a sense of place plays in the formation of local cultures to an understanding of the many layered ways in which place interacts with individual lives and to renewed appreciation of the

The Annual of Psychoanalysis, V. 30 Jerome A. Winer, James W. Anderson, 2019-07-18 The issue of same gender sexual identity has challenged our understanding of psychological development and psychological intervention throughout the century just past and continues to provoke discussion in the century upon us Over the past three decades psychoanalysis advanced toward a contemporary perspective which holds that the dynamics of sexual orientation must be an important element of the psychoanalytic process but must be approached without prejudice regarding the outcome of analytic exploration of wish and desire Taken together the essays in *Rethinking Psychoanalysis and the Homosexualities* a thematic volume of *The Annual of Psychoanalysis* provide a developmentally grounded and clinically consequential enlargement of this basic premise The result is a timely overview of contemporary approaches to the study of sexual orientation within psychoanalysis that highlights issues salient to clinical work with lesbian and gay patients The section on *The Meaning of Sexualization in Clinical Psychoanalysis* demonstrates the importance of psychoanalytic study of same gender desire and sexual orientation for analyst and analysand alike Philips considers the analyst's own sexual identity as a factor shaping the analysand's experience of sexuality whereas Shelby Lynch Roughton and Young Bruehl from their various perspectives address the problem of stigma and prejudice as they distort same gender desire and same gender sexual identity Two concluding sections of the book explore the implications of a clinical psychoanalytic perspective for the study of gay and lesbian lives Timely and essential reading for all mental health professionals *Rethinking Psychoanalysis and the Homosexualities* underscores the profound distance traversed by psychoanalysis in arriving at its contemporary understandings of gender sexual identity and sexual desire

Now Marilyn Ferguson, 2005-10-10 What Thomas Paine did for the American Revolution with the publication of *Common Sense* Marilyn Ferguson does for the transpersonal revolution Marilyn Ferguson is one of the preeminent thinkers gatherers and interpreters of research on the cutting edge fields of human consciousness The *Aquarian Conspiracy* published in 1980 has sold millions of copies is continuously in print and was hailed as the handbook of the New Age by USA Today In her

newer book *Aquarius Now* movement pioneer Ferguson reexamines the paradigm shift to a more mindful society She sees us caught in a mindless materialism that threatens our material existence We are seduced by what she calls the Cult of Numbers obsessed with competition with winning and losing afraid of anything that can't be seen or measured and in the grip of an economic model that says only that which generates economic growth is worth pursuing What can we do Ferguson boldly tells the truth we have no enemy except ourselves and the mess we've made individually and collectively by refusing to see what we're doing to our own bodies to society and the Earth itself We've refused to consider the clues in front of our faces The imbalance we see outside ourselves only mirrors the imbalance within The way to heal the imbalance is to heal ourselves The way to heal ourselves is to pay attention to witness We need to take responsibility for our own actions We need to heed the words of the myriad teachers and skills at our disposal We need to learn to rely on our own radical common sense The task is not to climb a mountain but to navigate a river We have to stop thinking of ourselves as conquerors and start thinking of ourselves as fellow travelers with other human beings and every living being on this planet including the planet itself Ferguson dares to ask the question Can we change and concludes that we can and we must change The Age of Aquarius will occur when we want it to occur

Doing Time in the Depression Ethan Blue, 2014-11-22 As banks crashed belts tightened and cupboards emptied across the country American prisons grew fat *Doing Time in the Depression* tells the story of the 1930s as seen from the cell blocks and cotton fields of Texas and California prisons state institutions that held growing numbers of working people from around the country and the world overwhelmingly poor disproportionately non white and displaced by economic crisis Ethan Blue paints a vivid portrait of everyday life inside Texas and California's penal systems Each element of prison life from numbing boredom to hard labor from meager pleasure in popular culture to crushing pain from illness or violence demonstrated a contest between keepers and the kept From the moment they arrived to the day they would leave inmates struggled over the meanings of race and manhood power and poverty and of the state itself In this richly layered account Blue compellingly argues that punishment in California and Texas played a critical role in producing a distinctive set of class race and gender identities in the 1930s some of which reinforced the social hierarchies and ideologies of New Deal America and others of which undercut and troubled the established social order He reveals the underside of the modern state in two very different prison systems and the making of grim institutions whose power would only grow across the century
