Who's Who in Fashion Holly Price Alford, Anne Stegemeyer, 2014-09-25 Students of fashion design are eager to explore the history of their chosen field as well as keep up with new and emerging designers. *Who's Who in Fashion* captures the energy, drama, and excitement of the luminaries who make up the world of fashion. Profiles include design philosophies, mentors, and sources of inspiration, tracing the careers of many of the men and women who have contributed to fashion. Not only are today's major figures and legendary designers of the past profiled, but lesser-known individuals and newcomers worth watching are included as well. Also included are the interesting nonconformists, free spirits who prefer to work off the main fashion path. The picture would not be complete without the style makers: those with an instinct and an eye for fashion who interpret it for the public, the editors, photographers, and artists.

The Last Laugh Trevor J. Blank,2013-08-26 Widely publicized in mass media worldwide high profile tragedies and celebrity scandals the untimely deaths of Michael Jackson and Princess Diana the embarrassing affairs of Tiger Woods and President Clinton the 9 11 attacks or the Challenger space shuttle explosion often provoke nervous laughter and black humor If in the past this snarky folklore may have been shared among friends and uttered behind closed doors today the Internet s ubiquity and instant interactivity propels such humor across a much more extensive and digitally mediated discursive space New media not only let more people in on the joke but they have also become the go to formats for engaging in symbolic interaction especially in times of anxiety or emotional suppression by providing users an expansive forum for humorous combative or intellectual communication including jokes that cross the line of propriety and good taste Moving through engaging case studies of Internet derived humor about momentous disasters in recent American popular culture and history The Last Laugh chronicles how and why new media have become a predominant means of vernacular expression Trevor J Blank argues that computer mediated communication has helped to compensate for users sense of physical detachment in the real world while generating newly meaningful and dynamic opportunities for the creation and dissemination of folklore Drawing together recent developments in new media studies with the analytical tools of folklore studies he makes a strong case for the significance to contemporary folklore of technologically driven trends in folk and mass culture
