Real Connection:

Let Yourself Be Fully Seen: Vulnerability That Creates Real Connection Onyeka Godfrey, 2025-08-05 You don't have to hide your truth to be loved you have to reveal it This book helps you break free from performative versions of yourself and step into the power of being seen as you truly are You'll explore vulnerability as a bridge not a weakness one that leads to deeper intimacy clarity and belonging Whether in relationships friendships or creative work this guide teaches you how to show up without masks Being seen can feel terrifying But it's also how real connection begins *Possibility and Actuality* Nicolai Hartmann, 2013-03-22 Nicolai Hartmann's *Possibility and Actuality* is the second volume of a four part investigation of ontology It deals with such questions as How do we know that something is really possible Is the possible only the actual Is the actual only the possible What is the difference between ideal and real possibility This groundbreaking work of modal analysis describes the logical relations between possibility actuality and necessity and it provides insight into the relations between modes of knowledge and modes of being Hartmann reviews the history of philosophical concepts of possibility and necessity from ancient Megarian philosophy to Aristotle to Medieval Scholasticism to Leibniz Kant and Hegel He explains the importance of modal analysis as a basic investigative tool and he proposes an approach to understanding the nature of human existence that unifies the fields of ontology modal logic metaphysics and epistemology This brilliant and fascinating work is relevant to many topics of debate in contemporary philosophy including the ontology of possible worlds the metaphysics of modality the logic of counterfactual conditionals and modal epistemology It illuminates the nature of real ideal logical and epistemic possibility **The SMART Balance** Ankita Arora, 2020-02-20 HOW SMART DO YOU FEEL WITH YOUR SMARTPHONE We live in exciting times It is the first time in the history of humanity when a new intelligence exists not in the brains of varied species but in our own pockets It is the first time in the history when a piece of technology is defining our friendships and changing the way we work walk and talk But as Thoreau once said Men have become the tools of their tools Technology which was supposed to make our lives easier and comfortable is proving to be the biggest drivers of stress loneliness weakened brainpower and behavioral addiction We may have all the information at our finger touch but we are failing to lead a happier life In this book the author uses real life examples and case studies to identify the various ways technology and internet have changed our lives leading to the stick to the screen syndrome or commonly referred to as digital addiction and cyber addiction The book explores methods for better tech management and principles to build a better structure for a happier and healthier life **Arts of Connection** Karen S. Feldman, 2019-08-05 At the intersection of literary theory philosophy of history and phenomenology *Arts of Connection* Poetry History Epochality explores the representation of connections between events in literary historical and philosophical narratives Events in a story can be seen as ordered according to proximate causation which leads diachronically from one event to the next and they can also be understood in view of the structure of the narrative as a whole for instance in terms of the unity of plot Feldman argues that there exists an

essential narrative tension between these two kinds of connection i.e. between the overarching arrangement or plot that holds together events from outside as it were in order to produce an intelligible whole and the portrayal of one by one interstitial connections between events within the narrative. Arts of Connection demonstrates by means of exemplary moments in Aristotle and classical German poetics, eighteenth century philosophy of history and twentieth century phenomenology that the task of connection is a fraught one insofar as the formal unity of narrative competes or interferes with the representation of one by one connections between events and vice versa.

CONNECTING & DISCONNECTING

Adrian Gabriel Dumitru, Analyzing in Freudian style my own life: I've finally understood why I am an idiot. I was mad and also sad. I could say that I was actually an emotional cocktail of madness and sadness but I just could not accept it even if I knew it by a few days already. But like all the ones that studied psychology into a very deep way, I knew to hide all so damn good. On the real scene of life, I was always wearing a very nice emotional mask and no one really knew what is going on inside my soul. But well, randomly there were situations when I was becoming so furious, actually acting like a devil. It was a total nonsense but I was keeping doing that, letting those demons from inside of me to dominate all I was doing. And that happened on and on and on. Today I was OK and one day later all those strong emotions from inside of me were taking the control over my soul. I was actually connected to beautiful vibes then again to negativity. It was all an emotional balance. I was connecting then disconnecting then connecting again. I've tried to understand myself but more I was going deeper and deeper, I've felt that I could not accept that I dislike so much something specific from my reality. This connecting/disconnecting story was actually a chain reaction. Not being happy of some of the elements of my life, I was randomly losing control on myself, allowing to explode as a nuclear bomb, destroying all around myself. I was basically a person that could be defined as a good guy but randomly allowing those little devils from inside my soul to dominate the energies beyond the scene of my life, I proved myself to actually be on and on and on an idiot. Only the deep analyzes done in a Freudian style made me see the fact that not practicing the honesty in front of myself, carrying all the time emotional masks that were actually hiding my real emotions, I was always ending up balancing between beautiful and ugly energies. I had to accept my emotions even to accept that I act like a great idiot but I preferred to hide the truth. To hide my emotions. So I simply continued life connecting and disconnecting to beautiful but also ugly energies.

Reck, Georg Schiemer, 2020 This edited volume explores the previously underacknowledged pre history of mathematical structuralism showing that structuralism has deep roots in the history of modern mathematics The contributors explore this history along two distinct but interconnected dimensions First they reconsider the methodological contributions of major figures in the history of mathematics Second they re examine a range of philosophical reflections from mathematically inclined philosophers like Russell Carnap and Quine whose work led to profound conclusions about logical epistemological and metaphysical aspects of structuralism **Lectures on**
