Gunderson, Robert C. Lancefield, Bret D. Woods, 2019 The Oxford Handbook of Musical Repatriation is a significant edited volume that critically explores issues surrounding musical repatriation chiefly of recordings from audiovisual archives The Handbook provides a dynamic and richly layered collection of stories and critical questions for anyone engaged or interested in repatriation or archival work Repatriation often is overtly guided by an ethical mandate to return something to where it belongs by such means as working to provide reconnection and Indigenous control and access to cultural materials Essential as these mandates can be this remarkable volume reveals dimensions to repatriation beyond those which can be understood as simple acts of giving back or returning an archive to its homeland Musical repatriation can entail subjective negotiations involving living subjects intangible elements of cultural heritage and complex histories situated in intersecting webs of power relations and manifold other contexts The forty eight expert authors of this book's thirty eight chapters engage with multifaceted aspects of musical repatriation situating it as a concept encompassing widely ranging modes of cultural work that can be both profoundly interdisciplinary and embedded at the core of ethnographic and historical scholarship These authors explore a rich variety of these processes many streams making the volume a compelling space for critical analysis of musical repatriation and its wider significance The Handbook presents these chapters in a way that offers numerous emergent perspectives depending on one's chosen trajectory through the volume From retracing the paths of archived collections to exploring memory performance research goals institutional power curation preservation pedagogy and method media and transmission digital rights and access policy and privilege intellectual property ideology and the evolving institutional norms that have marked the preservation and ownership of musical archives The Oxford Handbook of Musical Repatriation addresses these key topics and more in a deep richly detailed and diverse exploration      **Sounds of the Borderland** Catherine Baker, 2016-04-01 Sounds of the Borderland is the first book length study of how popular music became a medium for political communication and contested identification during and after Croatia's war of independence from Yugoslavia It extends existing cultural studies literature on music politics and the state which has largely been grounded in Western European and North American political systems It also responds to an emerging fascination with the culture and politics of contemporary south east Europe expanding scholarship on the post Yugoslav conflicts by going on to

encompass significant social and political changes into the present day The outbreak of war in 1991 saw almost every professional musician in Croatia take part in a wave of patriotic music making and the powerful state television system strive to bring popular music under its control As the political imperative shifted from securing national survival to consolidating a homogenous nation state the music industry responded with several strategies for creating a national popular music producing messages about the nation and in the ongoing debates over the origins of the folk music that inspired many songs a way to define the nation by expressing what Croatia was not The war on ethnic ambiguity which cut through individuals social and creative lives played out across the airwaves sales racks and gossip columns of a small country that imagined itself a historical and cultural borderland These explicit and implicit narratives of nationhood connect many political phases the months of fiercest fighting the stabilised front the uneasy post war years when the symbolic frontline region of eastern Slavonia had still not returned to Croatian sovereignty the euphoria and instability after the end of the Tudjman regime in 2000 and Croatia's fraught journey towards the European Union Baker's book provides valuable insight into the role of music in a wartime and post conflict society and will be essential reading for researchers and students interested in south east Europe or the transformation of entertainment during and after conflict

### **Turbo-folk Music and Cultural**

**Representations of National Identity in Former Yugoslavia** Uroš Čvoro, 2016-03-03 Turbo folk music is the most controversial form of popular culture in the new states of former Yugoslavia Theoretically ambitious and innovative this book is a new account of popular music that has been at the centre of national political and cultural debates for over two decades Beginning with 1970s Socialist Yugoslavia Uroš Čvoro explores the cultural and political paradoxes of turbo folk described as backward music whose misogynist and Serb nationalist iconography represents a threat to cosmopolitanism turbo folk's iconography is also perceived as a genuinely Balkan form of resistance to the threat of neo liberalism Taking as its starting point turbo folk's popularity across national borders Čvoro analyses key songs and performers in Serbia Slovenia and Croatia The book also examines the effects of turbo on the broader cultural sphere including art film sculpture and architecture twenty years after its inception and popularization What is proposed is a new way of reading the relationship of contemporary popular music to processes of cultural political and social change and a new understanding of how fundamental turbo folk is to the recent history of former Yugoslavia and its successor states

*ReSounding Poverty* Adriana Helbig, 2023 *ReSounding Poverty* Romani Music and Development Aid engages with global scholarship on development poverty and applied research It addresses the role of non governmental organizations NGOs within postsocialist neoliberal processes and analyzes the economic structures within which Romani musics circulate Specifically *ReSounding Poverty* offers a micro ethnography of economic networks that impact the daily lives of Romani musicians on the borders of the former Soviet Union and the European Union It argues that the development aid allotted to provide economic assistance to Romani communities when analyzed from the perspective of the performance arts continues to marginalize the poorest

among them Through their structure and programming NGOs choose which segments of the population are the most vulnerable and in the greatest need of assistance Drawing on ethnographic research in development contexts ReSounding Poverty asks who speaks for whom within the Romani rights movement today Framing the critique of development aid in musical terms it engages with Romani marginalization and economic deprivation through a closer listening to vocal inflections physical vocalizations of health and disease and emotional affect ReSounding Poverty brings us into the back rooms of saman mud and straw brick houses not visited by media reporters and politicians amplifying the cultural expressions of the Romani poor silenced in the business of development Masquerade and Postsocialism Gerald W.
