H Yuen, Michio Takata, 1954 *A Comparative Study of Longline Baits* Richard S. Shomura, U.S. Fish and Wildlife Service, 1955 **The Marriage between Perfume and the Lyric Stage** Mary May Robertson, 2023-09-22 But what is this scent of balmy air What this ray of light in my tomb I seem to see an angel amid a scent of roses sings Florestan in Fidelio Beethoven's only opera The role of scents smells fragrances and odours in opera has long been neglected just as how much opera and its stars have influenced the world of perfumery from the nineteenth century to the present day In the first book length study on the topic Professor Mary May Robertson explores the relationship between opera perfumes and their respective protagonists in order to map out the previously undiscussed connection between the two Through compelling close readings of librettos and rigorous research through thousands of bottles of perfume the reader will come to appreciate and recognise the influences and exchanges between operas and perfumes and their ultimate marriage in the previously unrecognised genre of Operatic Perfumes which is to say perfumes named after operas composers and their divas **Building the Cold War** Annabel Jane Wharton, 2001 In postwar Europe and the Middle East Hilton hotels were quite literally little Americas For American businessmen and tourists a Hilton Hotel with the comfortable familiarity of an English speaking staff a restaurant that served cheeseburgers and milkshakes trans Atlantic telephone lines and most important air conditioned modernity offered a respite from the disturbingly alien For impoverished local populations these same features lent the Hilton a utopian aura The Hilton was a space of luxury and desire a space that realized permanently and prominently the new and powerful presence of the United States Building the Cold War examines the architectural means by which the Hilton was written into the urban topographies of the major cities of Europe and the Middle East as an effective representation of the United States Between 1953 and 1966 Hilton International built sixteen luxury hotels abroad Often the Hilton was the first significant modern structure in the host city as well as its finest hotel The Hiltons introduced a striking visual contrast to the traditional architectural forms of such cities as Istanbul Cairo Athens and Jerusalem where the impact of its new architecture was amplified by the hotel's unprecedented siting and scale Even in cities familiar with the Modern the new Hilton often

dominated the urban landscape with its height changing the look of the city The London Hilton on Park Lane for example was the first structure in London that was higher than St Paul's cathedral In his autobiography Conrad N Hilton claimed that these hotels were constructed for profit and for political impact an integral part of my dream was to show the countries most exposed to Communism the other side of the coin the fruits of the free world Exploring everything the carefully drafted contracts for the buildings to the remarkable visual and social impact on their host cities Wharton offers a theoretically sophisticated critique of one of the Cold War's first international businesses and demonstrates that the Hilton's role in the struggle against Communism was as Conrad Hilton declared significant though in ways that he could not have imagined Many of these postwar Hiltons still flourish Those who stay in them will learn a great deal about their experience from this new assessment of hotel space **Emilio De' Cavalieri "gentiluomo Romano"** Warren Kirkendale, 2001 *Vanity Fair*, 1914 **The Totalitarian Claim of the Gospels** Dora Willson, 1939 *The Reception of the Galilean Science of Motion in Seventeenth-Century Europe* Carla Rita Palmerino, J.M.M.H. Thijssen, 2013-03-20 This book collects contributions by some of the leading scholars working on seventeenth century mechanics and the mechanical philosophy Together the articles provide a broad and accurate picture of the fortune of Galileo's theory of motion in Europe and of the various physical mathematical and ontological arguments that were used in favour and against it Were Galileo's contemporaries really aware of what Westfall has described as the incompatibility between the demands of mathematical mechanics and the needs of mechanical philosophy To what extent did Galileo's silence concerning the cause of free fall impede the acceptance of his theory of motion Which methods were used before the invention of the infinitesimal calculus to check the validity of Galileo's laws of free fall and of parabolic motion And what sort of experiments were invoked in favour or against these laws These and related questions are addressed in this volume **Visual Cultures of Secrecy in Early Modern Europe** Timothy McCall, Sean Roberts, 2013-04-01 Secrets in all their variety permeated early modern Europe from the whispers of ambassadors at court to the emphatically publicized books of home remedies that flew from presses and booksellers shops This interdisciplinary volume draws on approaches from art history and cultural studies to investigate the manifestations of secrecy in printed books and drawings staircases and narrative paintings ecclesiastical furnishings and engravers tools Topics include how patrons of art and architecture deployed secrets to construct meanings and distinguish audiences and how artists and patrons manipulated the content and display of the subject matter of artworks to create an aura of exclusive access and privilege Essays examine the ways in which popes and princes skillfully deployed secrets in works of art to maximize social control and how artists printers and folk healers promoted their wares through the impression of valuable mysterious knowledge The authors contributing to the volume represent both established authorities in their field as well as emerging voices This volume will have wide appeal for historians art historians and literary scholars introducing readers to a fascinating and often unexplored component of early modern culture The Poetry of Michelangelo Chris Ryan, 2000-12-01
