Return Of The Stargods:

The Stargods Trilogy Irene Radford, 2015-01-06 FANTASY This omnibus volume *The Stargods Trilogy* brings together Irene Radford's *The Hidden Dragon*, *The Dragon Circle* and *The Dragon's Revenge*. The O'Hara brothers are on the run from the intergalactic government when they stumble across an abandoned colony planet. They must face the dangers of the strange hunter-gatherer society they've found where their technology could make the brothers seem like gods as well as the continued threat of the interstellar police force still searching for them. [The Second Coming of the Star Gods](#) Page Bryant, 2004-02-01 Set amidst the haunting mysterious beauty of Ancient Egypt, *The Second Coming of the Star Gods* is an epic tale of magic, political intrigue, and mythology. Rich in historical and mystical detail, the story centers on Khem and Tiye, two young apprentice priestesses in the Temple of the Sun. As the girls are initiated into the secret arts of dream interpretation, astronomy, and astral travel, a battle for the great empire's throne is being waged between the Pharaoh and his half brother, a battle in which the young apprentices will unwittingly play the decisive role. Engaging and hypnotic, *The Second Coming of the Star Gods* creates characters and a world so real you won't want to soon leave. She masterfully recreates Egypt's 4th Dynasty, the Pyramid Age, a time in which gods, goddesses, and magicians were the true rulers of the land. [Star Gods of the Maya](#) Susan Milbrath, 2010-01-01 A prodigious work of unmatched interdisciplinary scholarship on Maya astronomy and religion, *Journal of Interdisciplinary History* observations of the sun, moon, planets, and stars played a central role in ancient Maya lifeways as they do today among contemporary Maya who maintain the traditional ways. This pathfinding book reconstructs ancient Maya astronomy and cosmology through the astronomical information encoded in Pre-Columbian Maya art and confirmed by the current practices of living Maya peoples. Susan Milbrath opens the book with a discussion of modern Maya beliefs about astronomy along with essential information on naked-eye observation. She devotes subsequent chapters to Pre-Columbian astronomical imagery which she traces back through time starting from the Colonial and Postclassic eras. She delves into many aspects of the Maya astronomical images including the major astronomical gods and their associated glyphs, astronomical almanacs in the Maya codices, and changes in the imagery of the heavens over time. This investigation yields new data and a new synthesis of information about the specific astronomical events and cycles recorded in Maya art and architecture. Indeed, it constitutes the first major study of the relationship between art and astronomy in ancient Maya culture. Milbrath has given us a comprehensive reference work that facilitates access to a very broad and varied body of literature spanning several disciplines. *Isis*, destined to become a standard reference work on Maya archaeoastronomy. Utterly comprehensive. Andrea Stone, Professor of Art History, University of Wisconsin Milwaukee. **Stars on the Earth** Richard Leviton, 2006-08 Discover the wonderful secret the Earth holds for us: that the stars of the galaxy live on our planet. Holograms of high-magnitude stars over holy mountains. Physical travel to other planets through stargates on the Earth's surface. Vision, and Visuality in Ancient Greek Literature Alexandros Kampakoglou,Anna Novokhatko,2018-03-05 Visual culture performance and spectacle lay at the heart of all aspects of ancient Greek daily routine such as court and assembly cult and ritual and art and culture Seeing was considered the most secure means of obtaining knowledge with many citing the etymological connection between seeing and knowing in ancient Greek as evidence for this Seeing was also however often associated with mere appearances false perception and deception Gazing and visuality in the ancient Greek world have had a central place in the scholarship for some time now enjoying an abundance of pertinent discussions and bibliography If this book differs from the previous publications it is in its emphasis on diverse genres the concepts gaze vision and visuality are considered across different Greek genres and media The recipients of ancient Greek literature both oral and written were

encouraged to perceive the narrated scenes as spectacles and to follow the gaze of the characters in the narrative By setting a broad time span the evolution of visual culture in Greece is tracked while also addressing broader topics such as theories of vision the prominence of visuality in specific time periods and the position of visuality in a hierarchisation of the senses

Fallen Angels Ck Quarterman, 2011-12 One of the most fascinating and strategic topics in ancient texts is the record of fallen angels giants and UFOs Fallen angels and giants are shrouded in mystery and belong to the age of pyramids and other great wonders of the world It is an epoch that was destroyed by God's judgment a flood which left the world everlastingly changed the evidence of which is found in the tales folklore and traditions of many cultures around the world There were giants in the earth in those days and also after that when the sons of God came in unto the daughters of men and they bare children to them the same became mighty men which were of old men of renown Genesis 6:4 This vivid language defines the conspiracy of evil which has beset our world The ancient books Enoch and Jubilees tell us of a race of nephilim which are hybrids alive in history and today fathered by fallen angels Strange as this may seem the Lord declares that this conspiracy of evil is to be repeated before His return Consequently it is important from the standpoint of both understanding history and understanding the future that we understand these events The world is in a slumber asleep with the dream of a better tomorrow While dark forces of fallen angels are arrayed against us many today write about the approaching juggernaut of the apocalypse but few however know or understand that fallen angels have brought us to this apocalypse this apex of human history The end of the world as we know it is about to take place A storm is gathering so terrible as to cause men's hearts to fail them for fear read *Fallen Angels* so you don't approach this coming apocalypse unaware and unarmed *Egyptian Mythology* Geraldine Pinch, 2004 Spanning ancient Egyptian culture from 3200 BC to AD 400 Pinch opens a door to this hidden world and casts light on the nature of myths and how they relate to the evolution of Egyptian culture She includes a timeline covering the seven stages in the mythical history of Egypt and outlining the major events of each stage A substantial A to Z section covers the principal themes and concepts of Egyptian mythology as well as the most important deities demons and other characters This is an ideal introduction for students interested in learning about Egyptian myths and the culture that created them *Handbook of Egyptian Mythology* Geraldine Pinch, 2002-09-17 Spanning ancient Egyptian culture ca 3200 B C E to C E 400 the *Handbook of Egyptian Mythology* is the only complete survey of Egyptian mythology of its kind available in English In this comprehensive introduction to Egyptian mythology author Geraldine Pinch shows how the mythology of Ancient Egypt must be pieced together from a variety of written and visual sources Relationships between deities changed and the Egyptian myths were never gathered by priests into an authorized version *Handbook of Egyptian Mythology* provides a brief discussion about the nature of myths the concept of time in Egyptian mythology a historical overview of the sources of Egyptian myth and a dictionary of deities themes and concepts which concentrates on the prominent gods and goddesses in Egyptian myth The book also includes references to general works on Egyptian culture

religion and myth translations of ancient texts and a selection of literature influenced by Egyptian myth Children of the Sun God Linda Tucker,2001 Communing with the Ancestors Raven Grimassi,2016-01-01 This book demonstrates how to communicate and make contact with ancestral spirits including practical methods for seeking their guidance Raven Grimassi explores the realm of the ancestors and the role of reincarnation in the soul's relationship to ancestral lineage He explains the interactions between ancestors the living and the dead and examines how communication with the ancestors is strengthened through various techniques and ritual practices True to Raven's style the book includes folklore legend and superstition surrounding the topic Shrines altars and offerings are discussed in detail Ancient practices related to communing with the ancestors are revived and new rituals are provided including an exercise to lead readers into the cavern of the ancestors through guided imagery Sacred sites power places special portals to the ancients reincarnation and the restless dead who are still bound to the earth realm he covers it all **The Midnight Sun** Alan F. Alford,2004 **Orion's Guiding Stars** Marc Ladewig,2017-04-17 *Hermetica, the Ancient Greek and Latin Writings which Contain Religious Or Philosophic Teachings Ascribed to Hermes Trismegistus* Hermes (Trismegistus.),1936 *Return of the Stargods* Richard Vizzutti,2003-09-14 Return of the Stargods reveals how the ancient alien gods of old will soon return to establish a New World Order of satanism The book also takes the reader through the Bible showing a vast amount of scriptures that the churches ignore or will not deal with Scriptures reveal that there is a fifth column that lives among us that are working against God's children in establishing a New World Order as an ultimate goal They are the ones among us that are waiting for their father to return to them as the beast who will crush all opposition to his rule But this will not take place until the Rapture of the church takes place first The Bible is also very clear that a government of fallen angels now runs this earth They run all aspects of our matrix reality and remain hidden behind a shadow government There are strong indications in scripture that there is also royalty of non humans called the Reptilians and Nephilim that rule over us They are the ones that have come from hell to transform themselves into rulers of this world The Return of the Stargods makes a good case for all this strangeness by using scripture and not just opinions and hearsay This book is very deep and not meant for shallow Christians that believe in Church doctrine and not Bible doctrine This book is a must for those Christians that want a deeper understanding of endtimes and spiritual warfare It will teach you how to see all the people around us for what they really are so that we can best protect ourselves from these predators Return of the Stargods is an introduction to the reality that lies outside the box If you are a discerning Christian who regards scripture as the final authority and not church then this book is a must read *Horace and His Age* John Francis D'Alton,1917 Hermetica: Testimonia, with introduction, addenda and indices by A.S. Ferguson Hermes (Trismegistus.),1968 **Philosophy and Religion in Plato's Dialogues** Andrea Nightingale,2021-05-06 In ancient Greece philosophers developed new and dazzling ideas about divinity drawing on the deep well of poetry myth and religious practices even as they set out to construct new theological ideas Andrea Nightingale argues

that Plato shared in this culture and appropriates specific Greek religious discourses and practices to present his metaphysical philosophy. In particular, he uses the Greek conception of divine epiphany—a god appearing to humans—to claim that the Forms manifest their divinity epiphanically to the philosopher, with the result that the human soul becomes divine by contemplating these Forms and the cosmos. Nightingale also offers a detailed discussion of the Eleusinian Mysteries and the Orphic Mysteries and shows how these mystery religions influenced Plato's thinking. This book offers a robust challenge to the idea that Plato is a secular thinker.
